SATURDAY, JULY 23, 1910.

THE Sun says, "they make such fine lard at Chestertown even the lightning goes after it."

THE Chestertown boat brought home the silver cup from Oxford! Capt. L. Stam built and owned this boat.

THE railroad employes and officials showed their good sense in coming to a settlement. There is no reason for corporations nor individuals being at war. There is always a means to adjust any difficulty if a little common sense is used.

THE death of Thomas R. Hubbard removes a well-known character from this community. He was a remarkable man in many respects — intelligent, economical, industrious and religious. He leaves a worthy successor.

THE Eastern Shore trade is being discussed in Baltimore and various means proposed for retaining same. The NEWS would call attention to the fact that there are three wheat buyers in Chestertown all shipping wheat to Philadelphia. Is not this the secret of Baltimore losing the Eastern Shore trade? The way to get trade is to go for it.

JOHN D. URIE, ESQ., of Kent, is being urged by many Republicans in Kent and on the peninsula to accept the nomination for Congress. Mr. Urie is not so blind as not to see that it will be simply a hopeless run, for Hon. J. Harry Covington has made such an efficient representative that he will be re-elected by a large majority.

THE boat races at Oxford this week were a success. Why can't the merchants of Chestertown arrange for a series of boat races at Chestertown in September? A baseball game in afternoon and motor boat carnival at 7 o'clock with fire works, etc., would make an interesting occasion. There is no place which has better natural water advantages than Chestertown.

THE Organization have been *kindly* invited to walk into the barroll and be headed! Now, wasn't that ludicrous? Why not call a meeting of citizens in each district to confer together and agree upon men of character and special fitness for the different offices? This would be more democratic than to have one man fix up a slate and then invite the people to come and swallow it! And especially to accept some men whose character and fitness are really nauseating to good citizens. The Organization does not claim for itself all merit, nor does it admit that the Barroll faction has all, but when these two come together in honest desire to name a winning ticket, we are confident success will crown the effort. The NEWS has no personal ends to serve and no master to please, and is prepared to join any honest effort to induce men of character, independence and ability to serve the party.

IN NEED OF FUNDS.

The Prisoners' Aid Association of Maryland is doing a good work. But the Association is in need of funds to carry on the work of charity. Last month the Circuit Court of Kent paroled to this Association Wm. Garnett, a blind colored man of Kent county. He was placed in the Md. School for the Blind and is a considerable expense to the Association. The Prisoner's Aid Association receives no aid from the state or city and is dependent upon private subscription for support. Aid is asked for the Association.

SHOOT AT BETTERTON.

The sixteenth annual summer shooting tournament under the management of James R. Malone will be held July 25, 26, 27 and 28 at Betterton, Md.

The shoot this year promises to excel any that have been held by the veteran marksman. Miss Annie Reiker, of Lancaster, Pa., the best amateur target and live-bird lady shot in the state, will attend the shot throughout the program.

This year a team representing the District of Columbia will shoot. Instead of adding a small amount of money in each event and dividing it among from 25 to 35 contestants who would shoot into the money, which makes the amount that each would receive very small Captain Malone will give the profits of this shoot to the amateurs who shoot through the program.

"It Looks Just Like NEW"

This was the expression of a lady when she called to get a brooch that she had left here for a new pin.

The brooch was polished and refinished.

The new pin was properly fitted and, as she said, it was really new again, and the charge was ten cents!

How many old pieces of jewelry have you got lying around that a few cents would make as good as new and put into service again?

Collect some of this old jewelry and bring it down and get an estimate on the cost of fully repairing.

Our work is above comparison, our service prompt and our charges reasonable.

Killing 27 big rattlesnakes in less than an hour is the record made by Geo. Reichard and Frank Delosier on a trip after blackberries on South Mountain, near Edgemont, Md. The men unconsciously ventured into the den of rattlers. The first intimation of danger they had was the sharp rattling sound, which Delosier recognized. Before they could retreat from the bushes their ears rang with the rattling of the reptiles which were ready for a fight. Deloiser was standing within a few feet of one of the biggest snakes when it sounded a warning. The snake was in a position to strike when he ran. Arming themselves with stones and clubs, the men engaged in a battle with the snakes, which lasted half an hour, and when they finished 27 rattlers were piled up. The men skinned the snakes and sold the hides.
