WE PUBLISH in another column in this issue an article headed "A Farewell Tribute to Our Boys." This article should be read by every reader of this paper as it shows what the good people of Kennedyville are doing for those of our young men, and especially for those who are called to the front. The object and motive of this society is worthy of emulation.

PRESIDENT WILSON'S LETTER.

President Wilson's letter to the drafted men who leave their homes to assemble in the training camps:

"To the Soldiers of the National Army:

"You are undertaking a great duty. The heart of the whole country is with you.

"Everything that you do will be watched with the deepest interest and with the deepest solicitude not only by those who are near and dear to you, but by the whole nation besides.

"For this great war draws us all together, makes us all comrades and brothers, as all true Americans felt themselves to be when we first made good our national independence.

"The eyes of the world will be upon you, because you are in some special sense the soldiers of freedom.

"Let it be your pride, therefore, to show all men, everywhere not only what good soldiers you are, but also what good men you are, keeping yourselves fit and straight in everything and pure and clean through and through.

"Let us set for ourselves a standard so high that it will be a glory to live up to it, and then let us live up to it and add a new laurel to the crown of America.

"My affectionate confidence goes with you in every battle and every test.

"God keep and guide you!"

W. C. T. U. Notes.

The Woman's Christian Temperance Union of Maryland will hold its forty-second annual convention in the Methodist Episcopal Church at Towson on October second, third and fourth.

County presidents, secretaries, treasurers and secretaries of Young People's Branch and Loyal Temperance Legion and state superintendents are members ex-officers of the convention. Members of the executive committee are urged to be present at the first meeting at 10.30 A. M. Tuesday, 2nd.

The convention proper will open on the evening of the 2nd. All Unions are entitled to one delegate at large and one for every twenty-five paid up members. Delegates are asked to reach Towson in time to be assigned to homes before the evening service of Tuesday.

Delegates elected from Kennedyville Union are Mrs. E. T. Othoson and Mrs. J. D. McCabe; alternates, Mrs. E. L. Redmile and Mrs. J. W. Urie.

Rents Farms.

Mr. Percy Hendrickson has rented the Harry Skipper farm, in Queen Annes, opposite Chestertown, and will remove there January 1, 1918. We are sorry to lose Percy from Kent.

Mr. Charles McGinnis, of Queen Annes, son of Mr. Joel McGinnis, has rented the Stevens farm, now occupied by Mr. Wm. J. Tarbutton, at Melitota, for next year. We welcome you to Kent, Mr. McGinnes.

Mr. Hickes Tucker, of Queen Annes, has rented the Fairlee farm of Dr. Wilson.

Capt. Finley, of Compeny E., First Maryland Regiment, has been made a major in that regiment. Major Finley succeeded in getting a number of volunteers for his former company from Kent county.

Cliff's Items.

A flag raising with patriotic exercises will be held at Cliff's school Friday, Sept. 21st, at 2 o'clock. The public is cordially invited to attend.

The many friends of Mr. J. E. Aaronson, of Cliffs were sorry to learn of his sudden death Saturday morning. We extend to the bereaved family our sincere sympathy.

Mr. William Stoops, of the Cliffs, has been very sick for sometime, but is improving slowly at this writing.

Quite a few attended the box social and watermelon party given by the ladies of Mowbray Chapel.

Mrs. Hunter Robinson, of Cliffs, had a severe attack of acute indigestion on Monday of last week.

Services at Mowbray Chapel to-morrow, Sept. 9th, will be as follows: Sunday school, 2.30 P. M., E. Crouch, Supt.; 7.30 P. M., preaching by the pastor, Rev. Edwin Gardner. Special temperance service, speaking and singing. All welcome.

Another Auto Accident.

Mr. Henry A. Wise, a former district attorney of New York City, and close personal friend of Mr. Harry Blackiston, formerly of this town, and his family were badly hurt in an automobile accident near Mr. Biddle Hossinger's gate Saturday morning last. Mr. Wise was driving his car with his chauffeur sitting alongside of him. In turning out of the way of another car Mr. Wise's car skidded and upset, badly bruising his face, while his wife had her arm broken; a daughter had a dislocated shoulder, and a child had her scalp cut quite badly. Dr. F. B. Hines, who attended the auto party's injuries, sent them to the Easton hospital. They have all improved and are at their summer home at Cape Charles. The chauffeur was not hurt.

Girls Have Pretty Face and Beautiful Complexion

An Atlanta man makes inew discovery that makes an old face look years younger. If your skin is dark, brown or covered with freckles or blemishes, just use a little Cocotone Skin Whitener: it's made with cocoanut oil and is perfectly harmless. A few days' use will improve your looks 100 per cent. The wornout skin comes off evenly, leaving no evidence of the treatment, the new healthy under-skin appearing as a lovely new complexion.

Just ask your druggist for an ounce of Cocotone Skin Whitener, and if he will not supply you send twenty-five cents to The Cocotone Co., Atlanta, Ga., and they will send you a box by return mail.

If your hair is hard to comb, is kinky, nappy and will never stay straight, just use Cocotone Hair Dressing and it will become straight, long, soft, glossy and beautiful in a few days. Mail orders filled, 25c for large box.

TYPHOID FEVER

How to Prevent Its Spread

ISSUED BY THE

State Board of Health of Maryland.

When TYPHOID FEVER appears in a family the source of the infection must be looked for in drinking water or food taken within the preceeding twenty days. The patient may not have been infected at home, but if a second case occurs this second infection will in all probability be traceable to the first patient. In a majority of instances the drinking water has become infected. Your first business, therefore, is to find out the quality of your drinking water.

You can do this by asking your local health officer for instructions about shipping us samples of your drinking water. *The daily supply of drinking water should be boiled.*

The infectious material of typhoid fever is produced in but one way. It grows always in the bowels and sometimes in the bladder. It therefore, escapes from the sick person in the stools and urine. If we kill the germs in the stools and urine as soon as they are passed, there can be no spread of typhoid fever. These discharges should, therefore, be disinfected as soon as possible. You will need a large quantity of a good disinfecting solution.

RECEIPT FOR A GOOD DISINFECTANT.

To four gallons of water add enough salt to make a strong brine. Put this in a five gallon demijohn or jug and add a quart of crude carbolic acid. Shake it up well and you have a good disinfectant for stools and urine.

The crude carbolic acid, known as U. S. P. 90 per cent, is very good, and a quart will cost about 50 cents. There is a cheaper grade, known as a 36 per cent. acid, which is nearly as effective.

About a pint of this solution should be put in the chamber or bed pan before it is used, so that the discharges will begin to be disinfected as soon as they leave the body. There must always be at least as much of the disinfecting solution as there is of the discharge so that more of the disinfecting solution may need to be added after the discharges are passed. If the stools are thin and watery their disinfection will be accomplished in half an hour or so, but if the stools are thick or formed very much more time will be required. On that account it is best to have a covered jar or bucket into which the bed pan can be emptied, and to empty this jar only once in 24 hours. If the discharges cannot be finally thrown into a sewer they should be buried in the soil at a convenient spot where there is no chance of their fouling a water supply. The discharge should never be thrown on the surface of the ground, for you will hardly be successful in killing all the typhoid bacilli, and you must not place them where those not killed by the acid may be blown about in the dust or carried away by flies to infect other people.

In spite of every precaution, those who wait on the sick person will get their hands infected, and it is therefore, necessary to wash the hands every time one does any service about the patient's bed or body. Whoever waits on the patient must not prepare food or drink for other persons in the house, or if it is impossible to mind this rule one must most carefully and thoroughly cleanse the hands before performing any house-hold duty outside the sick room. Good scrubbing with soap, water and a brush, and then rinsing well in fresh water will suffice for cleansing the hands.

If anyone else in the house falls sick within two weeks after the first patient, the probability is that the infection was lodged before the precautions were taken in regard to drinking water and the disposal of the discharges. But if the second case occurs more than 20 days after the first case that will signify that we have made a mistake somewhere in our precautions.
