REPUBLICANS TO CONSIDER LEAGUE ON ITS MERITS

Partisanship Will Play No Part in Consideration of Peace Convenant.

Efforts to make it appear that Republican senators are considering the covenant for the League of Nations from a partisan standpoint will fail. The questions involved transcend partisanship. Senate Republicans expect to confer, and take counsel of one another's views but they that any notion there will be any attempt to caucus and bind members to do this or that is without foundation.

A part of the democratic side, too, will rise above partisanship in the consideration of the covenant. On the other hand, certain democratic senators who were just as enthusiastic for the League before it was revised as they are now, will think along political lines only, and abjectly do whatever the administration wants done. They would have voted for it without protection for the Monroe Doctrine just as readily as they will vote for it now.

Enough senators will study the proposition deeply and seriously to make it certain the country will hear one of the great debates of this generation when it is discussed. It will be a debate charaterized by expositions of Americanism which will be worth while.

That the covenant has been improved by the criticisms which were directed against the original instrument by such men as Lodge, Root, Cummins, Borah, Knox, Hiram Johnson, Poindexter, and other prominent Republicans is not seriously disputed by any considerable number of the League suppporters in either house of Congress.

Reports that there is anything like a final alignment of the Senate are not well-founded. Comparatively few Senators, save those committed to the covenant from the start, have said how they will vote on the final test. Just what the parliamentary situation will be is not yet plain and cannot be until the text of the peace treaty is given out. It is obvious there will be great debate and hard controversy over amendments proposed to the covenant and probably the hardest fight of all will rage about the provisions that look to the guarantee of territorial integrity of nations, which means underwriting of the boundary lines of the world as the League maps them out.

A "PEACE AND RECONSTRUCTION" PROGRAM

U-117 Recruiting For the Navy.

The captured German Submarine U-117 is in Baltimore assisting the Navy Recruiting Station in obtaining men for the Navy.

This is the boat which did so much damage off the Atlantic Coast in July and August, 1918, destroying fishing vessels, and laying mines in the paths of trans-Atlantic steamers. It is thought that this boat laid the mine which sank the U. S. S. San Diego off Long Island.

U-117 was one of Germany's largest submarines, and was especially fitted for laying mines. Besides this, it carried the largest guns of any submarine afloat. She was brought over from England by a crew of American sailors, under the command of Lieutenant Commander Dibrell.

Commander Leahy, in charge of Navy recruiting, is anxious for the people of Maryland to see this ship, because it shows what the Navy has been working against during the great war. At the present, he is enlisting men for Seamen, Machinists, Hospital Corpsmen, and Colored Mess Attendants.

For further information, apply at the Navy Recruiting Station, Calvert and Lexington Streets Baltimore, Md., or to local postmaster, and, if physically qualified transportation from your home to Baltimore will be furnished you.

ENRRANCE EXAMINATIONS
State Scholarships In Engineering Courses.

ENTRANCE EXAMINATIONS for the Department of Engineering, as well as for the College of Arts and Sciences, will be held in Gilman Hall, Homewood, Monday-Saturday, June 16-21, 1919, beginning at 9 A. M. each day, under the auspices of the College Entrance Examination Board.

APPLICATIONS FOR SCHOLARSHIPS IN THE DEPARTMENT OF ENGINEERING, established under the provisions of the Laws of Maryland, Chapter 90, 1912, will now be received. If there is more than one applicant for a particular scholarship, a competitive examination must be taken Friday, September 19, 1919, beginning at 9 A. M. Appointments will be made soon thereafter.

Each Legislative District of Baltimore City and each County of the State, with the exception of Harford, Queen Anne's, and Somerset counties, will be entitled to one or more scholarships for the year 1919-1920, in addition to those which have already been assigned. In the four counties mentioned above, all the available scholarships have been awarded.

Under the provisions of the Act of Assembly, the County and City Scholarships in the Department of Engineering are awarded only to deserving students whose financial circumstances are such that they are unable to obtain an education in Engineering unless free tuition be granted to them. The scholarships entitle the holders to free tuition, free use of text-books, and exemption from all regular fees. One of the scholarships in each County and each Legislative District of the City carries also the sum of $200. The expense of attendance for those who do not receive scholarships is not greater than at other Maryland institutions.

Scholarships may be awarded to graduates of Loyola College, St. John's College, Washington College, Western Maryland College, Maryland Agricultural College, Mt. St. Mary's College, Rock Hill College.

One scholarship will be awarded "At Large."

Applicants should address The Registrar, The Johns Hopkins University, for blank forms of application and for catalogues giving information as to examinations, award of scholarships, and courses of instruction. The next session begins Tuesday, September 30, 1919. 5-15,4t]
