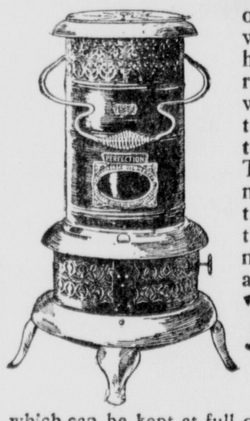
That Cold Room



on the side of the house where winter blasts strike hardest always has a lower temperature than the rest of the house. There are times when it is necessary to raise the temperature quickly or to keep the temperature up for a long period. That can't be done by the regular method of heating without great trouble and overheating the rest of the house. The only reliable method of heating such a room alone by other means is to use a

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

which can be kept at full or low heat for a short or long time.

Four quarts of oil will give a glowing heat for nine hours, without smoke or smell.

An indicator always shows the amount of oil in the font. Filler-cap does not screw on; but is put in like a cork in a bottle, and is attached by a chain and cannot get lost.

An **automatic-locking flame spreader** prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that it can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for rewicking. Finished in japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental. Has a cool handle.

WEDDING EVENTS.

Mr. John G. Arndt, head salesman for H. H. Beneman, Millington, and Miss Laura E. Sheafer visited Clerk Dixon Saturday, procured a marriage license and were married by Dr. L. E. Barrett at the M. E. Parsonage, Chestertown.

The first military wedding in this section was that of Miss Mary Ingraham Rogers, grand-daughter of Mrs. Carolene Hynson, to Capt. Guy Vernon Henry, Twelfth Cavalry, United States Army, and an instructor at West Point. Emmanuel P. E. Church was tastefully decorated with large yellow chrysanthemums and lighted candles. The guests were admitted by card and numbered about two hundred. Dr. J. Houston Eccleston, of Baltimore, assisted by Dr. H. B. Martin, performed the ceremony, while Miss Mabel Toulson rendered sweet music. The bride wore a magnificent white satin dress en train with bridal veil caught up with diamond pin and carried a shower bouquet of lilies of the valley. Her maid of honor was Miss Nellie Rhoder, of Baltimore, who wore a handsome yellow satin gown studded with pearls and carried large yellow chrysanthemums. Mr. Hynson Rogers, brother of the bride, gave her away and the ushers were Captains Johnston, McCoy, Chaffee and De Armond, army colleagues of the groom attired in full military uniform. The groom was in full military uniform, his best man being his brother. After the ceremony a luncheon was served to the wedding party only at the home of Mrs. Hynson where an expert caterer was in charge. The home was exquisitely beautiful. The bridal party left by automobiles in the afternoon for Middletown, Del., where a private parlor car was taken for a Northern tour. They are now at Atlantic City and will shortly take an automobile trip through New England. They will reside at West Point. The presents were from far and near and included solid silver service, rugs, cut glass, etc., etc.

MILLINGTON ITEMS.

The Ladies Aid Society met at the home of Mrs. Henry Disharoon Tuesday November 1, at 7.30 p. m.

Mr. John Arndt, who has had charge of Mr. H. H. Beneman's store since he has been in the hospital, spent a few days in Baltimore last week, and giving his many friends here a surprise Friday evening by bringing home with him a bride. They were met at the train by Mr. Elmer Gordon in a "decorated barouche" and were driven to Mr. Gordon's home where a lively serenade was given them. Mr. and Mrs. Arndt will board with Mr. and Mrs. Gordon for the present.

Mrs. Emma Shepard is spending a few days with friends in Philadelphia.

Mr. J. E. Hurlock's home on Cypress St. has recently been beautified by a new coat of paint. Mr. Chas. Jones did the work.

Mr. Wm. Robinson, brother of Prof. L. C. Robinson, met with quite an accident last Saturday morning. He drove to the station to meet the 10.04 a. m. train, and while standing along side of the horse the horse took fright of the train, dragging Mr. Robinson 50 yards, when he ran between a tree and a fence, freeing himself from the carriage or Mr. Robinson would have undoubtedly been killed. The carriage was broken badly, and Mr. Robinson was seriously hurt about the face and head. The horse escaped uninjured.

Miss Emma Hendrix left Friday morning for Tennessee, where she will take up a nurse's course.

Hallow'een passed off quietly in our town.

Mr. H. H. Beneman, the Millington merchant, who has been ill for seven weeks at the University Hospital, Baltimore, expects to be home this week. He has had a very severe illness.

Thousands of Ducks Raised Here

Messrs. Joseph Berger and Joseph Worm, whose duck farms on the Choptank have attracted much attention, are having good success with their business, as they have had for years. They have had 16 years' experience, a considerable time having been spent in duckraising on Long Island, whence they came to Caroline several years ago. About three years ago they were joined by Mr. M. E. Seebeck, who is also successful. The three raised and shipped to the New York market the past season about 12,000 fine Pekin ducks, all white, which averaged in weight, when from 8 to 10 weeks old, about 5½ pounds each, and brought about 19½ cents per pound. Thus the gross returns were considerably over $12,000. The first shipments were about 8 weeks old and the others 10. The ducks are heavy feeders and large quantities of food brought from the mills, are required in order that the feeding may be heavy and the growth of the greedy fowls rapid. Herein is one of the secrets of the success of the business. A very fat, large, young Pekin is a great delicacy, well-known and highly prized by the epicure, who is always willing to pay high prices it seems. Then, too, the feathers from these superb fowls are quite valuable, and the demand for them is constant. Mr. Berger said he thought only about 65 per cent. of the eggs are hatched in the incubator, which take the place of the mother ducks, whose old-fashioned plan of hatching is all too slow in this day of hurry and rush, even if by it a much greater percentage of eggs yield young ducks. Some duck farms are not located near the water, but Mr. Berger thinks a water site best. The ducks, fat as they are, disport themselves in the river, never going far away, and their feathers are kept in fine condition. Duck raising like other business these days, requires care and industry. There are many chances for losses in the business if it is not well managed, as there are opportunities for making money for those who are willing and able to give it close study and constant work.—*Denton Journal.*
