Luck and Lack

Messages to Seekers of Success

Don't trust to luck. Luck is untrustworthy. Systematic, scientific striving for any goal is far more likely to bring you success than any mere faith in your success.

Just as changing a single letter changes "Luck" to "Lack," so will the reverses of a single day change plenty to want. But you can insure yourself against this by building your success on the habit of saving.

Save and Win

Be well dressed. Make friends. Increase your influence in your community. Enjoy the respect of all your associates.

These things do not come to those who trust to luck for them. Systematic saving will win them for you. Systematic saving will accumulate for you a small fortune that can safely and readily be expanded to a large one.

EVERYTHING ONE WOULD NEED; NO OCCASION FOR SENDING OUT OF TOWN. WHEN WE KNOW WHAT WE PURCHASE HERE IS ALWAYS RELIABLE.

RELIABILITY

If you want to have a good harvest go to your home store and buy your seed and implements. You may argue that you do not sell your products in this town. Perhaps you don't. But couldn't you do so if the town was more prosperous and much larger? Do you think this town will grow if you persist in sending your money out of town? If the farmer will patronize the merchant, then the merchant will in turn patronize the farmer.

MORAL—Mutual patronage brings mutual prosperity.
