Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

DIRECTOR OF MINT FROM TEXAS

A third of the world's gold supply is now in the possession of Uncle Sam, and this man, F. E. Scobey of San Antonio, Tex., is the new custodian. He is the new Director of the Mint, and has just taken office, succeeding Raymond T. Baker.

Ben Franklin liked books.

Within their covers he found wisdom—the wisdom which when put into practice, earned for him a reputation as a great American.

We observed his birthday on January 17—it having been two hundred and sixteen years since his birth at Boston.

Franklin's philosophy may be summed up in one word—THRIFT.

And the bank book is text book in the study of thrift. It was the book which Franklin heeded most because there, in black and white, was the result of his endeavors.

"Spend less than you make if you would succeed,"—said Franklin's famed "Poor Richard."

GREENSBORO - - - - - MARYLAND

VERNON

Mrs. Tarbutton and granddaughter, of Dover, spent the week end with Mrs. Milton Hopkins, the latter having also been a guest for a week or two.

Mr. and Mrs. Clayton Luff and son Melvin, and Thomas Luff, have been the guests of Mr. and Mrs. Harry Luff.

At Maple Grove school there are 14 on the honor roll for March and 17 on the good deportment roll.

Individual drinking cups have been installed. The playground has been cleaned and was in readiness for the planting of flowers, shrubs and trees on bird and arbor day, which was celebrated. On Easter an egg hunt will be given and souvenirs presented to the pupils. Everything has been in readiness for some time for the gala occasion. Raughley and Prospect have celebrated these events also.

Miss Esther Adams spent the week end in Wilmington.

The birthday of Thomas R. Clancey, April 3d has been observed by a party given to a large number of boys, several of them being his classmates in the John Errickson high school. Cake, cream and fruits were served. Thomas R. spends all of his time here outside of his ten months of school. He is becoming quite proficient in Latin, Algebra and reading Cicero in English. He has eight teachers, each a specialist in his subject. All the boys had a fine time and will long remember his twelfth birthday. Games and prizes were also features.

Mr. and Mrs. Raymond Disch and son Raymond, Jr., have removed from Wilmington. Mrs. Disch and son will spend Easter here with Mr. and Mrs. Slaughter.

Mr. and Mrs. R. Wesley Ross visited Mr. and Mrs. Lewis Slaughter Saturday evening, at which place delicious refreshments were served.

Thomas Clancey, Sr., recently accompanied Mr. McCord of the millionaire firm of Post & McCord on a trip to New England.

Henry Noble has erected a new outbuilding at the home tenanted by Mr. William Butler.

The P. T. A. had a fine meeting at Prospect Friday evening and at the Raughley's on Tuesday evening, preceding Easter.

There is a rumor that a new colored school is to be built here as a gift from duPont.

Mrs. Lewes Haupter has a large number of young chickens.

William Smith and son Gordon of Wilmington have been visitors here.

Rev. Mr. Diehl is to be the new pastor at Wesley's.

TUCKAHOE NECK

We are glad to report both Mr. MacWilliams and Mr. Sparklin are much improved.

Miss Mowbray and Miss Elizabeth DeFord spent last Tuesday with Mrs. George McDaniel in Denton.

Miss Lillian Embert is visiting Mr. and Mrs. Frank DeFord.

Mr. Edgar Blades and family visited Mr. Wallace Clark and family Sunday.

Miss Huldah Swann spent the week end with Miss Hilda Cade.

Easter service will be held at Thawley's chapel Sunday, April 16th at 10:30 a. m.

A full rehearsal will be held at Thawley's chapel Friday evening in preparation for the Easter program.

Shad fishing is a very popular occupation at this time.

Minstrel Show—April 17-18—Denton

FROST PROOF CABBAGE PLANTS

PROMPT SERVICE BY TON TRUCK

FARM BUREAU NEWS

APRIL CROP REPORT

College Park, Md., April 10,—Condition of the winter sown crops is on the whole satisfactory. Germination in some quarters has been irregular, delayed by dry weather last fall. And in a few areas the cereals have been injured somewhat by the severe winter colds, where there was a lack of sufficient snow covering; according to a statement issued to the press today by John S. Dennee, agricultural statistician for the United States Bureau of Markets and Crop Estimates, co-operating in crop statistics with the Extension Division of the University of Maryland.

On April 1 the growing condition of wheat in Maryland was found to be 89 per cent. of a normal, against 95 on April 1 a year preceding, and 88 per cent. the average condition on April 1 for the past ten years. Average price paid the farmer was $1.31 per bushel, against $1.44 on April 1 last year. Condition of rye was 90 per cent., against 93 a year ago, and 88 per cent., the 10-year average of condition on April 1.

March was generally favorable to crops and fruits. Locally, heavy rains fell, hindering farm activities. The land was so wet as to be practically unworkable. Towards the end of the month mild and dried weather prevailed and field work became general. Preparations for spring plowing went forward briskly, though somewhat delayed behind the seasonal average in some districts due to the unfavorable weather.

Highly optimistic reports concerning the fruit prospect pour in from all portions of the state. Southern Maryland growers say they are looking for a bumper crop this year as a result of the seasonal weather.

Tobacco farmers are now sowing their beds. Many farmers are sowing several beds because of the crop shortage last year, thereby assuring enough plants for transplanting when the proper time arrives.

The Eastern Shore says early truck crops are advancing satisfactorily. Livestock are in good condition. There is plenty of feed. Pastures over the state are greening nicely.

Brood sows are slightly (2 per cent) in excess of the number on farms a year ago. Better prices of late for hogs have made farmers optimistic, with a tendency to increase the number of hogs.

Farm labor is reported in adequate supply—107 per cent. of what was available a year ago, and 95 per cent. in comparison with the normal supply. The demand for l[illegible] reported as 90 per cent. of what it was one year ago, indicating a ratio of 110 of supply to demand. But farmers insist that they are short of funds; that the continued low prices farm products are fetching prohibit employment of all the farm help they need, necessitating their doing much of their work themselves with the aid of their families. Few workers, reports say, are willing to desert the city streets at the wages farmers are able to pay at this time.

WEIGH THE MARKET MILK—IT PREVENTS MISUNDERSTANDING

Producers who ship milk to city distributors have voiced frequent complaints because of the disparity between their figures on the quantity of milk shipped and those of the dealers on the quantity received. In order to locate the cause of complaint by studying the actual loss between the country shipping point and the city plant the United States Department of Agriculture made an investigation on the Baltimore market. Records kept on more than 1,000 cans showed that the loss between the country station and the city plant was less than 1 per cent. The loss on trains, probably due to spilling, was only 0.19 per cent; and from the city railroad platform to the plant was 0.55 per cent.

However, it was found that when the milk was weighed in the city plant there was a shortage of 2.56 per cent. on the amount shipped according to can measure in the country. Of this shortage, 0.74 per cent. was due to actual losses, while 1.82 per cent. was the difference between can measure and weight. This is easily accounted for by the fact that cans become dented and battered, which decreases their holding capacity.

In a former investigation by the department an even greater discrepancy was found between can measure and weight, the difference being over 3 per cent. It would seem that there would be less trouble between producers and dealers if the milk were weighed at both ends of the line.

MORE WAR MATERIAL READY FOR DISTRIBUTION TO STATES

Five million board feet of lumber and $220,000 worth of other surplus war material, consisting of steam and gas engines and machine shop equipment, all unused, recently was made available to State highway departments for road construction. The material is to be distributed by the Bureau of Public Roads, U. S. Department of Agriculture, as were large quantities which were helpful to many states in road building last season. Most of the lumber was intended by the Army for the construction of a pier at Charleston, S. C., and is suitable for highway bridges. The machinery and equipment are stored as ordnance supplies at the Picatinny Arsenal, Dover, Del. This material is particularly in demand an allotment has been requested by each of the 48 states.

2,000,000 MARK PASSED IN NUMBER CATTLE TESTED

The total number of cattle now under supervision in the tuberculosis-eradication work being carried on by the United States Department of Agriculture in cooperation with the different states has passed the 2,000,000 mark, the total for February being 2,027,000. During that month 200,334 cattle were tested, bringing the total of cattle once tested up to 1,181,516, and the total of those in fully accredited herds to 292,716. There are now 361,826 cattle on the waiting list. On March 1, more than 12,000 farmers and breeders had accredited herds.

Do You Want Farmer's Bulletins?

Senator Weller will be very glad to forward to any resident of Maryland who will write him, by postal or letter, a list of farmers' bulletins, issued by the United States Department of Agriculture. This gives publications on a variety of subject, among which will be found pamphlets on gardening, live stock raising, canning and preserving, poultry, and many other subjects of interest. Those who would like to have any of these instructive booklets should send their correct name and address to Senator O. E. Weller, Senate Office Bldg., Washington, D. C.

BURRSVILLE

Mr. and Mrs. Hand, of Philadelphia, have returned home, accompanied by the latter's sister and brother, Mrs. Florence Robinson and Mr. Edward Morgan.

Mr. and Mrs. Clayton Layton and son Leland Matthew were the guests of Mr. and Mrs. James E. Morgan Sunday.

Mrs. Charlotte Webber was the guest of her daughter Mrs. Thurman Harris Sunday.

Mr. and Mrs. C. N. Fountain and children and Mr. and Mrs. Harland Blades were Henderson visitors on Sunday.

Mr. and Mrs. Floyd Baker are visiting Mr. and Mrs. Johnnie Baker and family of near Burrsville.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD In 1922 and 1923

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

The whole world is being made over and the United States is taking the lead in the work. This year particularly history will be made, and every American citizen will be deeply interested. No other newspaper is better equipped to give the news of the word at the time it is news than the New York World.

The Thrice-a-Week edition of The World is the greatest example of comprehensive journalism in America. It will keep you as thoroughly informed as a daily, which would cost five or six times as much. It is a unique newspaper, published three times a week, for $1 a year. This is the regular subscription price and it pays for 156 newspapers.

We offer this unequalled newspaper and

The American Union

together for one year for $1.75.

The regular subscription price of the two pa[illegible] $2.00
