Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not odered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.

DELEGATION FAILS TO GET ROAD

Officials Wont Build Road From The Bridge Up Maple Avenue, But State Bridge Across Chester Is A Possibility Of The Near Future

A delegation of Chestertown men visited Baltimore last Friday and interviewed Chairman J. N. Mackall, of the State Roads Commission, regarding the building by the state of a cement road from the bridge up Maple avenue to Queen street, thereby connecting the state road, and eliminating the only dirt road between New York and Ocean City. The officials did not grant the request of the local committee. The chairman stated that there was no money to build the road and furthermore that the new concrete bridge across Chester River would be constructed from the foot of High street. He stated that it would require three years to build the structure proposed, during which time the old bridge would take care of the travel. "A few years ago," he said, "we undertook to use a ferry while rebuilding a bridge in Talbot. It was a failure, there being as high as 40 machines waiting at times to be carried over."

Several years ago, there was quite a contention here over the location of the bridge and it was understood at that time the bridge would be erected alongside of the present bridge. The statement by the new chairman comes as quite a surprise to the people of Chestertown.

THE MORAL EFFECT OF BEING INSURED

Have you ever stopped to think that to be insured makes us better—morally better? It is the performance of a duty—the fulfillment of a natural desire—the protecting of our own. It calls for the payment of money—a sacrifice—and without sacrifices the world would be a desert. Nothing is more uplifting or has a greater moral effect upon our daily life than the knowledge of duty done, and the greater the sacrifice, the greater the blessings that will surely follow.

The moral effect of being insured, with everything guaranteed and made certain, is often greater than the policyholder realizes.
