Overcoming the Handicap of Distance

YOU can talk to any place in the United States where there is a telephone. You can even talk to Cuba! Your field is unlimited.

You may seldom, if ever, have occasion to talk to points hundreds of miles away, but you do have use for service to nearby places.

A telephone call will do away with the necessity of many time-consuming trips. A few minutes at the telephone often save hours of time.

The rates are reasonable, and station-to-station rates are greatly reduced after 8.30 P. M. The pages in the front of your telephone directory explain the different classes of calls and reduced rates fully. The minimum reduced rate is 25 cents.

Ask the operator for rates to any place.

Income Tax Auditors Attend School

Washington, April 8.—Uncle Sam conducts a school at Washington in which he trains auditors and inspectors for the express purpose of checking up your income tax returns.

Each month a new class of 125 goes to school. They must first pass certain civil service requirements of bookkeeping knowledge and experience.

In the school they receive six weeks' intensive training in the technicalities of the income tax law, by means of lectures and individual instruction by experts. They are paid full salary under instruction.

The Civil Service Commission has announced that it will hold an examination May 3 throughout the United States to test the qualifications of applicants for positions of auditor and inspector under the income tax unit of the Bureau of Internal Revenue. The entrance salaries offered range from $1,800 to $3,000 a year.

Full information and application blanks may be obtained from the U. S. Civil Service Commission, Washington or from the Civil Servce Board at the local post office.
