Tomato Meeting

All Kent County farmers who have tomatoes or who are interested in tomatoes are urged to attend the open meeting to be held in the Court House at Chestertown on Tuesday next, August 24, at 1.30 p. m. sharp.

This is an open meeting called by the County Agent and Kent County Produce Exchange. Never before in the tomato industry of Kent County was there such a challenge put to the farmers for organized effort. The growers must get together in order to get back cost of production.

Mr. Isaac O. Taylor, organizer of the Peninsular Tomato Growers' Association, will be present and address this meeting on the Tomato Situation in Delaware and Maryland and How the Farmers Must Meet This Critical Situation.

Ensilage Cutters

One of the most profitable sources of farm industry today is dairying. In order that you may continue these profits and may be increase them, you must raise and save as much of your own feed as possible. Ensilage is recognized as one of the best of winter feeds. Are you ready to fill your silo when the corn is at the proper stage? If not see us about one of those "I. H. C." Its the machine with the fewer parts, the greater Capacity and the light draft. Its the machine with the curved knife, which conserves your power, and cuts any length you desire. We have a few of these machines bought before the last advance. See us about them NOW.
