The MOLINE Tractor is Universal

Free From Side Draft—Perfect Control

One man with one tractor does all field work from plowing to harvest

You have brought your corn from plowing through cultivating, and now it is ready for binding.

Maybe it's down and tangled. But, even if not, it is a real job to bind it with a horse drawn binder.

Side draft, guiding the team and operating the binder often make you wish you had four hands, as well as eyes in the back of your head.

The Moline-Universal Tractor and Corn Binder Hitch eliminates side draft. Control is perfect. You set it straight and the tractor front wheels that carry 98% of the weight stay straight, with just the slightest motion of the steering wheel right in your lap.

Here's what one man and a Moline-Universal Tractor can do in a ten-hour day:—

Plow 7 to 9 acres
Disc 27 acres with a 7' Tandem Disc Harrow
Disc 38 acres with a 10' Disc Harrow
Harrow 76 acres with a 20' Peg Tooth Harrow
Cultivate from 13 to 20 acres with a two-row Cultivator
Drill 35 acres with a 10' Grain Drill
Harvest 40 acres with a 10' Grain Binder
Harvest 10 acres with a Corn Binder
Mow 25 acres with a 8' Mower
Rake 40 acres with a 12' Rake

Immediate deliveries—a satisfactory stock of repair parts always on hand—prompt service when you need it.

You will thank us when your binder work is over.

If desired you can use the "drag behind" or horse drawn implements you now have with the Moline-Universal the same as with other types of tractors.
