IF YOU KNEW

If you were sure of living to old age you would not want insurance for life. If you knew you would die within the year you would take all you could get and pay for at the lowest price.

But you do not know. An endowment policy insures you against a mistake. It makes sure a fixed sum of money to your family at once, if you die early and it creates for you a definite estate in cash at a certain age if you live. It insures fulfillment of your plans and makes your work effective.

Allow me to explain our improved Endowment Policy.

WASHING MACHINES

The greatest labor saver that has been invented for household use. We have been selling for one year the

MAYTAG

line of washers. We did not just buy this machine on sight, but after looking into the various makes of washers and trying to find the most substantial and complete. On account of our inability to get prompt shipments up to this time we have not advertised them very extensively, but we have sold enough of them to have just that many satisfied users. We are carring this in the Electric.

The Multi-Motor, which has the engine built with the machine.

The Power wachine, which is made to be used with any kind of Belt Power,

The Hand Machine which can be operated by a child.

It will be our pleasure to demonstrate to you the practical use of this machine.

Come see them on our floor, or have one brought to your home if you like.

Yours to serve,
