STILL POND

A postoffice, a few stores. and a few houses in a row,
A blacksmith shop, barber, and a school,
A stranger, but still a friend wherever you go;
Then the church and preacher of the golden rule.

The undertaker and his crew,
The butcher with his meat so high,
Who, with his prices not very new;
Proves that its dearer to live than die.

The druggist who is getting old and grey,
And the mail-carrier with his machine well known,
Who makes to the station four trips a day;
And the rich man who has money to loan.

Consists this town so quaint but not new,
Where you are sure of three square meals a day,
And where a hearty welcome always awaits you.—
Providing you don't have too much to say.

ENA. 1917.

ROCK HALL

Mr. R H. Coleman, after about one year's iliness, died at his home on Gratitude road Sunday last. He was about 64 years of age Funeral services over the remains were held on Tuesday afternoon in the M. E. Church, conducted by the pastor, Rev. J. W. Prettyman. Casey Bros. had charge of the arrangements, and interment was in Wesleyan cemetery. The Sons of America, of which order the deceased was long a member, conducted the burial rites of the order at the grave. The pall-bearers were A. Casey, G. M. Coleman, T. E. Jones, Winfield Scott, John Walmsley and J. R Ryan.

Another aged resident of this section, Mrs. Sarah J. Stevens, widow of the late C. H. Stevens, died on Tuesday. The funeral took place on Wednesday at the S. D. A. Church. Casey Bros. had charge.

The garment factory here, after a long shut-down, resumed operations this week with promising outlook. This is cheering to the operatives and the community as well.

There is a persistent shut-in from oystering operations by the ice king. The oystermen are lying on their oars, while the fishermen report poor luck so far.

The M. D. & V. steamer, so far, continues its regular trips, but is finding it hard plowing.

The Shellfish Commission have circulated reasonable propositions to the oystermen in regard to oyster planting. Unfortunately, not many are inclined to engage in oyster culture, owing to the expense of preparing bottoms and inadequate protection.

Elaborate preparations are being made for the coming High School entertainment on the 29th inst., and many are looking forward to the event with fond anticipation for a grand success.

MAYOR PRESTON THE SPEAKER

Mayor Preston was the one speaker at the opening of the Democratic Club's new home in Baltimore last Monday night. We do not always agree with the Mayor of Baltimore. But we do agree with him that ORGANIZATION is necessary in politics, and we do agree with that it is the PROPER thing. We think it high time that a lot of spineless, nonentities in Maryland, who have been failures in most everything should realize that "to be an organization" member of a party is to be a patriot, and that to be a 'mugwump' is to be a "fake." Nine times out of ten when you scratch a so-called "Independent" you find a disappointed office seeker or a man who had a personal axe to grind and the organization refused to turn the grindstone for him. Mayor Preston touched up "newspapers which claim to be independent," and "well-intentioned theorists," who, he said, refer to political organization as a thing evil in itself. He defended organization in politics, saying that it was necessary there, just as it is necessary in business, education, religion and every other major human activity. And he argued that the observation of thir y years had convinced him that a man could accomplish more good while working on the organization than he could while "throwing bricks at the mach ne or the political leaders.

Mr. Burrell, the county agent, will be present at Fairlee Grange next Wednesday evening, January 20, and give a talk on the soils of our vicinity. All members are urged to be present, especially the gentlemen. This should prove a very interesting subject to the farmer.

Reasons Why You Should Cultivate Your Own Farm

EVERY IMPROVEMENT you make on your own land is like depositing funds on interest in Bank. You annuall profit by those improvements. Where a tenant farmer does not give attention to buildings, fences, and the land, the yield of the farm will soon diminish and pauperize the tenant.

LOOK OVER THE COUNTY and see if the vast majority of successful farmers are not on their own lands. And now that Banks and individuals offer such unlimited credit it is time to buy a farm for a Home.

WANTED—Fifty Girls at once for Pants Factory. Apply here

IF you are a business man, if you are a professional man, if you are employed at a daily wage, make up your mind to deposit weekly a certain sum of money in the bank. You'll be surprised how the sum will grow. Cash in bank gingers up the man who has it there. He has more confidence in himself. The business man is ready for a dull season. He is ready for an opportunity.

So is the professional man. The man who is working for a daily wage and who hasn't any money in bank frequently is fearful of a loss of his situation. He does not work as well or with the confidence in himself as does the man with something laid aside for a rainy day.
