During the business session a unanimous affirmative vote was given to a motion that the club should publicly endorse the tentative plans of the town board for building new sewers to properly drain the town. The club has been interested in this muchneeded improvement for over two years and it could be started at once with the funds on hand without increasing the taxes.

WEATHER REPORT

The week was wet, with a mean temperature that was normal. Warm weather, with thunder showers prevailed on the 12-13th and 17-18th. From the 14th to the 16th the weather was cool. There was much cloudiness and the amount of sunshine was below normal.

The weather of the week was favorable for the growth of crops, especially corn, potatoes, tomatoes, gardens and truck. Pastures are good generally.

Corn continues in excellent condition and is tasseling.

Wheat and rye are being harvested and oats are headed in Allegany and Garrett counties; elsewhere over the section thrashing of grains continues and oats are veing cut.

Digging of potatoes continues in the southern and has begun in the central counties; early potatoes are maturing in the northern counties. Planting of late potatoes continues.

Early tomatoes are being picked; some scald reported owing to wet weather. Late planted tomaoes are fruiting.

Picking of early apples continues. Blackberries and raspberries are also being picked.

IT'S THE FASHION NOWADAYS

to "advise" the farmer. The less a man knows about farming problems the more capable he thinks himself of solving them.

There are times, however, when a farmer seeks reliable information.

At such times—at all times, in fact—the facilities of this bank are at the disposal of our farmer-friends.
