Fishing Permitted Near Aberdeen

Fishing is now permitted near the Aberdeen Proving Ground, from which areas they have been excluded altogether for some time past. The letter below to Mr. H. W. Vickers, Chairman of the State Conservation Commission, is self-explanatory:

My Dear Mr. Vickers:

Thank you very much for your letter of March 28, 1921, in which you express your satisfaction with the result of your interview here and informing me that you have telephoned the Governor to that effect. I have informed the office of the Secretary of War accordingly.

Instructions have been issued to the Commanding Officer of the proving ground to permit fishing in the restricted water area surrounding the reservation on every night of the week, except Tuesday and Wednesday nights, from 6 p. m. to 7 a. m. during the period from March 15 to June 15.

Tuesday and Wednesday nights have been reserved to permit certain night firing which has to be held at the proving ground from time to time. However, as these firings are held only occasionally, arrangements have also been made to display a large flag in a prominent place on the proving ground when firing is not to be held on Tuesday and Wednesday nights. When this flag is displayed, therefore, on Tuesday and Wednesday nights, fishermen may enter the restricted waters for fishing purposes from 6 p. m. to 7 a. m. This flag will be displayed about 4 p. m.

In granting this permission it is assumed that the fishermen will be careful not to enter upon the restricted waters until 6 p. m. and not to have left them by 7 a. m.
