
WHEN A FELLOW'S STRONG AND WELL

and the world seems his to conquer it's pretty hard to work up any real concern over the future.

But assuredly it deserves some serious thought—for no one can afford to forget that youth is the accepted time of preparation for old age.

The man who consistently builds up a savings fund forestalls dependence in later years.

This institution welcomes the young peoples' accounts.

Messages to Seekers of Success

To Save Is to Have

Suppose you save 25 cents a day. That does not mean much to the average man. You won't miss it.

Yet, that 25 cents a day in ten years grows to nearly a thousand dollars. And the interest, which we pay you for saving your money, brings the total to well over eleven hundred dollars.

Think of what you can do with this.

Realize Your Dreams

Just a few years of small but steady savings will bring you many of the things you are longing for. Perhaps you want a car. Perhaps you want to buy the farm next to you. Perhaps you want to start a son in business, or to go traveling, or to educate yourself or your children.

Saving will do all these. And best of all, you will have formed the saving habit and will never be one of the nine men out of every ten who pass their last years penniless—in the poorhouse or dependent on others.

Pa Explains

"Pa, what does 'sic transit' mean?" asked Clarence.

Oh, I dunno. I suppose it refers to the condition of the street cars and interurbans since the motor cars have put such a crimp in them," growled his dad.—Cincinnati Enquirer.
