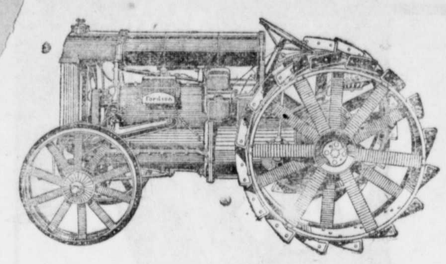
Fordson



$625 f. o. b. Detroit

Steady, light, alert, power to spare, economical of operation. Watch a Fordson Tractor in action and you will wonder how those apparently contradictory qualities of strength, lightness, power and speed could ever be combined in one unit.

The Fordson's speed is available for hauling heavy loads for long distances. Its power is available for dragging plows or disc harrows through the heaviest soil or for running the cutting-box, grinder or threshing machine.

We take pride in handling such a compact, portable power plant.

We are equipped with every facility for giving quick service for the Fordson.

LESS LATIN AND MORE OF THIS

THE above lesson is one of which every man, woman and child in the community should be interested. It is a lesson of co-operation between the home merchant, manufacturer and consumer—an appeal to our community spirit—a plea for us to "get together."

A little less Latin and more civic pride should be taught our children. They receive their education through taxation of the home merchant and citizen. So they are never too young to be shown the folly of sending money away from their home town. Teach your children to respect the hand that feeds them and to honor the town that contributes to their welfare. Teach them that buying away from their home town is a menace to the growth of the community in which they live.

MORAL: A lesson learned early in life is never lost.
