Senator France's Record merits his defeat by good Americans

France Has Brought Shame Upon Maryland

Read what the New York Times, in an editorial published October 27, says about the necessity of defeating this patron of Bolshevism

FOR SENATOR FROM MARYLAND

Senator France, of Maryland, has won for himself and his State an unfortunate notoriety of which its thoughtful citizens, whatever their party, must be weary. Much is said by his apologists of his "courage." A courage shown only by opposition to his party when it is right deserves small praise. Dr. France has studied in several colleges and universities. His studies, on some subjects at least, don't seem to be accompanied or followed by thought. He is flighty, fantastic, full of whims. He was the sole Republican Senator to vote against the ratification of the Naval Treaty, one of four Republicans to vote against the Four-Power Treaty, one of three to vote against the treaty with Japan about the Island of Yap. His passion for recognition of the Soviet Government, his Russian excursions ,are only too well known. No doubt he has many excellent and engaging private qualities; but, in the present stage of his development, he is much better fitted to be a contributor to some of our "intellectual" weeklies than to be a Senator. It would be to the advantage of the Republican Party as well as of the country to give him leisure to continue his studies as a private citizen after March 4, 1923.

His Democratic opponent, Mr. William Cabell Bruce, is eminently fit to be a Senator. He is the leader of the Maryland bar, deeply grounded in legal and constitutional principles and precedents and in American history, to which as an author he has made notable contribution. He is an orator of distinction. He is a man of the highest character. He has never been an extreme partisan. He has been an active friend of reform and good government. He has a thorough knowledge of business. Above all, in complete contrast to Dr. France, he is a man of sound, stable and balanced judgment. His intellectual powers are of the first order and would make him an honor to a Senate which admittedly needs improvement. No doubt for some minds eccentricity has its charms, but when it is an eccentricity not of mere appearance or habit or demeanor, but of opinion, it greatly limits or destroys a public man's power for public usefulness; tends, indeed, to make him a nuisance. How can a party or a State be adequately represented by a man of unstable temperament and shifting political fantasies? To borrow from Dr. Johnson, Dr. France is at best a meteor, while Mr. Bruce is a fixed star.

In a contest between ordinary partisans the country at large would have small interest; but all Americans of good-will have a strong interest in the defeat of a patron of Bolshevism.

Elect Bruce and Restore Maryland's Prestige in the Senate.

Messages to Seekers of Success

Miracles in Money

A city skyscraper seems a miracle in steel and stone. But it is only a vast number of girders painstakingly placed together—a vast quantity of bricks placed end to end and one above another.

Miracles in money are seeming miracles only. **You** can work miracles in your own life.

Saving Wins Success

You can have a big prosperous farm, own a car, or travel wherever you wish.

Men who have really succeeded spell it S-A-V-E. You can win the same success. You do not need a lot of money to do it. You need no great education.

You need only the determination to start now and continue. Let us help you.

LESSON FOR NOVEMBER 5

JESUS THE GREAT PHYSICIAN

LESSON TEXT—Luke 4:31-44; 5:12-26.

GOLDEN TEXT—Himself took our infirmities, and bare our sickness.—Matt. 8:17.

REFERENCE MATERIAL—Matt. 9:35-38; Mark 1:21-45.

PRIMARY TOPIC—How a Sick Man Was Brought to Jesus.

JUNIOR TOPIC—Jesus Healing the Paralytic.

INTERMEDIATE AND SENIOR TOPIC—Jesus' Power to Forgive Sin.

YOUNG PEOPLE AND ADULT TOPIC—Jesus' Ministry to Human Need.

Since the topic sets forth Jesus as the Great Physician, it will be better for adult classes, especially, to take the larger text chosen by the committee and note the several outstanding cases of His healing. For some classes it will be better to study the one case of healing, namely, the healing of the paralytic.

I. Jesus Healing a Demoniac (4:31-37).

While engaged in teaching in the synagogue He was interrupted by a man who had an unclean spirit. Jesus rebuked the demon and compelled him to come out of the man. This healing shows Jesus not only gracious, but powerful to set free the whole brood of diabolical passions, such as lust, envy, anger and jealousy which rule men.

II. Jesus Heals a Woman of a Great Fever (vv. 38:39).

Peter's mother-in-law was prostrate with a great fever. They of Peter's household besought Jesus for her. Jesus rebuked the fever and it left her so that she immediately rose and ministered unto them. No earthly physician had ever been known to heal in that way. Divine healing is immediate and complete. We should distinguish between divine healing and faith healing. Faith healing is the result of the action of the mind upon the body and is measured by the degree of the faith, while divine healing is the action of the power of God upon the diseased one, and is always complete and immediate, because it is measured by the power of the Healer, God. His fame spread abroad and many sick of divers diseases were brought unto Him and He healed them all, even casting out demons and forbidding them to testify of Him.

III. Jesus Heals a Leper (5:12-16).

Leprosy was a most loathsome and terrible disease. Because of its foulness one afflicted therewith was an outcast. The disease was incurable by man, therefore the leper was regarded as hopeless and dead. In response to the leper's earnest request Jesus touched him and bade the leprosy to depart, and immediately he was healed and cleaned. Leprosy is a type of sin. Jesus has power to heal and cleanse and restore.

IV. Jesus Heals a Paralytic (5:17-26).

1. Watched by the Pharisees and Doctors (v. 1). Jesus' fame spread abroad, and this only incited jealousy on the part of these men.

2. The Paralytic Brought (vv. 18, 19). This is a fine lesson in Christian service. They could not heal the man, but could bring him to Jesus, who could heal and restore. They had faith in Jesus to heal him. No effort which is required to bring a sinner to Jesus should be regarded as too great.

3. The Man's Sins Forgiven (v. 20). Jesus looked back of the palsy to its cause—sin. All disease and death is the result of sin. Jesus saw the faith of those not only who brought him, but of the man himself.

4. The Purpose of Miracles (vv. 21, 22). The Pharisees accused Christ of blasphemy when He declared the man's sins forgiven. Jesus showed them that back of the beneficent deed to the man was the demonstration of His deity. The main purpose in the working of miracles is the authentication of the divine mission of the one performing them. The working of the miracle was to demonstrate His authority to atone for sin and to grant forgiveness. While the divine power and authority are thus shown, the wisdom and love of God are shown in that in all cases the supernatural work is for the good of the individual. A true miracle is never spectacular. It is not merely a demonstration of power, but the working of power for beneficent ends, the good of some one in need.

5. Relative Value of Physical Ills and Moral and Spiritual Maladies (v. 23). Physical ills are less serious than the sins which cause them. In dealing with them we should follow the example of Christ and first deal with the cause.

Self-Love.

Self-love is a cup without any bottom; you might pour all the great lakes into it and never fill it up.—O. W. Holmes.

A Thought for Today.

OYSTERMEN REAP HARVEST IN TALBOT

Oxford, Md., Oct. 29—Fortune is smiling upon Oxford oystermen as she seldom smiles. Big catches and big prices are the order of the day. A day's labor with the tongs nets anywhere from 10 to 20 bushels at $1 a bushel for shell from the rocks.

Mud-Bar Oysters Inferior

Oysters taken from mud bars are inferior, bringing about 65 cents. Tongers report that the bivalves are fat, lucious and plentiful. One bar in particular, a long drift in the deep waters of the Tred Avon, which is said hitherto to have yielded only thin, poor oysters, is producing quantities of prime shell-fish.

Stories of big returns are common. It is said that one tonger last week received a $50 check and still had to his credit 20 more bushels at $1 a bushel for his week's labor. And it is asserted that this is more than matched by the more skillful watermen.

"Buy-Boats" On Hand

These prices are paid and maintained at this level, it is said, by "buy boats" from a neighboring oystering town. These boats may be seen in groups and absorb part of big catches. Output at the southern end of the bay is far below the average this year whence the presence of so many "buy boats" here.

But conditions which spell prosperity for the tonger are proving disastrous to the packer. Orders are good but prices offset the costs. Shuckers are receiving 30 cents a gallon and the cost of containers, ice, etc., takes up much of the returns. Hence the packers are operating at a loss, they say; "going into a hole," as one expresses it, but are holding on in the hope that when dredging begins things will be more equitably adjusted.
