TO AID WAR VETERANS

Clean-Up Squad To Be Here Next Week For The Purpose Of Finding Former Soldiers Who Need Government's Help

The Veterans' Bureau created by the passage of the Sweet Bill, approved August 9, 1921, consolidates the activities of the former War Risk Bureau, Federal Board for Vocational Training and the U. S. Public Health Service. This consolidation enables the Government to handle all claims of disabled veterans with no delay and the elimination of all unnecessary red tape. Colonel C. E. Forbes, Director of the Bureau, being very anxious to quickly accomplish the purposes of the Sweet Bill, has appointed in every state in the Union, a Clean-up Squad, comprising men who have specialized in War Risk Compensation and insurance work, Federal Educational work and U. S. Public Health work. As adjuncts in assisting in the work are the American Legion and the American Red Cross. This Squad will visit Kent County on the 28th and 29th of this month and will have its headquarters at the American Legion Post, Eastern Shore Inn, Chestertown, from 9 a. m. to 5 p. m. each day. The Squad will arrive in Chestertown on the evening of the 27th, Tuesday, in time for a public meeting at the Legion Headquarters, Eastern Shore Inn, at 8 o'clock. A large attendance is expected as the purpose and object of the visit will be fully explained by several speakers well versed in the work. This Squad looks for the hearty co-operation of every one in Kent County, all civic and military organizations to dig up and unearth every disabled veteran whose war claims or rights have not been presented or have not been properly handled. This work cannot be accomplished unless the men composing this Squad have such co-operation. Therefore, it is requested that every one who knows of any disabled veteran, male or female, who gave his or her service during the war and has suffered a disability therefrom, who has not had proper consideration for compensation, or who may desire and is entitled to vocational training or who may be in need of medical or hospital treatment, to send these names to J. Thomas Kibler, Post Commander, American Legion, Chestertown, Md., and immediate action will be taken by the Squad at the time of its visit. In the matter of lapsed or cancelled government insurance, see the insurance expert with the Squad and he will tell you how easy it is under new regulations to have your insurance restored and why it is your duty to yourself and dependents to keep this insurance alive. The members of this Squad, who have specialized in this work, find that there are a great many disabled veterans entitled to consideration, who are hiding their grievances, nursing a grouch and will not come forward. Therefore this appeal is made to every one to let us have the names of these men so that they may be personally seen and interviewed. The Veterans' Bureau differs from any other bureau created by Act of Congress, as all others have always come under one of the several Cabinet members, but this Bureau functions directly under the President of the United States, who has his eye on the activities of every Squad throughout the country, and it is the hope and desire, as is also that of Colonel Forbes, that these Squads will be able to reach every man and woman who served in the armed forces of the U. S. during the late conflict and suffered a disability therefrom, that his or her claim may be properly adjusted so that no one will be neglected, no one can say that his or her case has not been properly handled by the government and no one can say that he has not received everything that the several Acts of Congress have put forth for the benefit of these veterans.

Mr. Louis M. Kines, Publicity Manager, visited our town the early part of the week and left nothing undone, in the way of public notice, to bring this matter to the attention of evryone in the county, so Mr. Disabled Veteran be on hand when the Squad opens headquarters next Wednesday.

THE CUSTOMER

Such success as this business enjoys springs from the customer.

Such growth as will come to it will have the same source.

Nothing is quite so vital here as the customer's interests, and we are useful only as we guard and serve those interests.

We regard sound quality and fair price as the customer's primary right.

Remember The Girl

HUNDREDS of young women are busy in our many central offices in Maryland, putting up telephone connections. Day after day, and night after night, the work goes on. The little lights on the switchboard never cease to blink.

Many of these calls are of the gravest importance. Some are comparatively trivial. But each call must be answered and completed as it comes in. There is no way to pick out and speed up the important ones. Business calls, social calls — they all demand the operator's attention.

The operator is giving loyal and cheerful service and anything that you may do to help her give you better service will be appreciated.
