SUBSCRIPTION PRICE $1.00 PER ANNUM

Entered at the Post Office at Chestertown, Maryland, as Second Class matter.
Obituary and In Memoriam notices cost 5c per line, each insertion.

SATURDAY, MARCH 3, 1917

IT is reported from Tolchester that Mr. G. E. Noland has aspirations to become a candidate for Legislature. Mr. Noland's name is not new to the voters of Kent.

GOV. HARRINGTON has decided that a special session of the Legislature will be necessary if war is declared. It is hoped the tax-burdened citizens of Maryland will be spared this expense.

IN the death of L. D. Northam Kent county lost one of its best citizens and Broad Neck one of its aggressive and worth-while residents. He was a fine type of manhood.

IF Kent county would take a portion of its road fund each year and build permanent roads the condition now existing would not be known. Each year the same work is to be done and each year $21,000 spent without any permanent good. Why not make a start on a new system? We do not know of a better time to start than right now.

GOV. TOWNSEND has signed the Loose measure restricting the shipment of liquor into Kent and Sussex counties, "dry" territory. It is now a law. The bill was passed by the House of Representatives at Dover by a vote of 27 to 5 and by the Senate by a vote of 13 to 3 With so large an affirmative majority the measure may be said to represent fairly the sentiment of the people of Kent and Sussex.

THE sinking of the Cunard liner "Laconia" with American passengers on board, was considered by President Wilson an overt act on the part of Germany, and on Monday afternoon he appeared before Congress and asked authority to arm for defense American merchant ships and to protect the lives and rights of Americans.

That the authority will be granted there seems little doubt, although there is some delay in framing the necessary legislation. This may not mean war with Germany, but it is well to be prepared for the worst.

THE Associated Press is enabled to reveal that Germany, in planning unrestricted submarine warfare and counting its consequences, proposed an alliance with Mexico and Japan to make war on the United States if this country should not remain neutral. Japan, through Mexican mediation, was to be urged to abandon her allies and join in the attack on the United States. Mexico for her reward was to receive general financial support from Germany, reconquer Texas, New Mexico and Arizona—lost provinces—and share in the victorious peace terms Germany contemplated.

THE Christian Citizen, the official organ of the Lord's Day Alliance, publishes in its latest issue a list of 157 persons or firms who are selling spirituous or malt liquors in six dry counties and dry territory of four more counties in Maryland. These persons or firms have paid the Federal government the required tax for this privilege of violating the local law, and so are exempt from Federal prosecution. The Citizen asks the ministers in these counties what they are going to do about it. The Congress of the United States answered this question when they passed that "bone-dry" measure.

IT is a credit to all to have such men as Hon. John Walter Smith in the Senate in these trying times. "I am convinced," said Senator Smith, "that the President has pursued a wise and cautious course in this distressing situation. He has shown us that he does not want to be unprepared for war, if war must come. He feels that he should be empowered to protect the lives and commerce of the country in any situation which should arise, and I am in full accord with him on that proposition. His program seems to me to be sound and unassailable. He does not threaten to plunge us into the conflict, but he clearly indicates to us that it would be a double misfortune if he were not upheld in his determination to guard our interests. I am willing to trust him and shall give him all the support I can."

TWENTY-FOUR leading citizens of Wicomico county called a public meeting to be held at the courthouse in Salisbury Sunday at 2 30 o'clock, to take into consideration legislation which will secure and promote temperance legislation, and the qualification of candidates for the legislature who can command the support of the temperance voters. The central idea is to secure a law at the hands of the next session of the General assembly which will prohibit the bringing of liquor into the temperance counties. Such legislation is urgently needed, and public sentiment on the Eastern Shore throughout is overwhelmingly for it. The speakeasy, which has operated everywhere, it seems, on this side of the Chesapeake, as court records show abundantly, is a disgrace and a degrading thing and a very expensive one for the taxpayers who pay the cost of the many violations of the liquor laws. A non-shipment law will put a quietus on it in Maryland as it has done in other States, and the legislature should make haste to provide it.

LEWIS and PRICE have the commendation of all temperance voters for their vote on the District of Columbia bill.

SHAME on those officials at Washington who put politics ahead of country. This is a time when partisanship should be set aside and all rally to the support of President Wilson.

THE report of the committee in the matter of the leak investigation relegates that probe to the realm of nowhere. The report says that Lawson's charges were "founded on pure imagination or idle, irresponsible, malicious gossip."

PROHIBITION won a double victory in Congress, Wednesday, when the House by a vote of 273 to 137 passed the bill to make the national capitol dry and the Senate and House conferres on the postal appropriation bill unexpectedly announced an agreement under which the Reed "bone dry" amendment is virtually assured of enactment. This will close 264 saloons.

THOSE militarist alarmists who have lost no opportunity to point out the alleged hopeless inferiority of the United States navy were doubtless discomfited to learn that Admiral Lord Charles Beresford, of the British navy, has pronounced the United States navy, "in proportion to its units, better than any other afloat." That means that we have the best navy for its size of any in the world, barring none. Great Britian has more ships, but according to Great Britian's own admiral, she surpasses us only in numbers. It is comforting to know that, in case of war, "We have the men, we have the ships, we have the money too."

OPPOSED TO MOVING CHESTER BRIDGE

A well-attended meeting of Queen Anne's county citizens and officials was held Thursday morning at the home of Mr. and Mrs. C. F. Parks, in Queen Anne's, opposite Chestertown, to take steps in opposition to changing the location of the Chester river bridge.

Mr. W. Irving Walker called the meeting to order and Senator J. H. C. Legg, of Centreville, was elected chairman, and Mr. Wm. J. Price, of the Centreville Observer, was made secretary.

The people of Queen Anne's and the County Commissioners of that county seem to be unanimous in the opinion that when the new concrete bridge is erected connecting Kent and Queen Anne's it should be in the same position as the present structure.

Word was received by phone at the meeting from officials of the steamboat company saying they would oppose placing the new bridge at the foot of Main street for a number of good reasons and would make known their opposition both to the Federal authorities and State Road Commission. The Queen Anne's commissioners will likely take official action in opposition to a change at their meeting next Tuesday.

After a discussion by Senator Legg, Mr. Walker, Commissioner Massey, Mrs. C. F. Parks, Mrs. Snitcher, Engineer Schneffe and others the following resolutions were adopted:

WHEREAS, we are advised, thru the public press, of an effort on the part of certain citizens of Chestertown, Kent county, to secure the building by the State Roads Commission, of the new concrete bridge, over Chester River at a point from the foot of High street, Chestertown, and

WHEREAS, if such a location is selected, all traffic to and from Kent and Queen Annes counties via the State Road, will be congested on High street between Spring street and the river a distance of three short squares and

WHEREAS at the foot of High street there is located the wharf and steam boat landing of the Chester river steamers whose proximity to so prominent a thoroughfare as a bridge over the river would prove a dangerous and intolerable nuisance, and

WHEREAS relocation to High street will greatly depreciate property values both in Kent as well as Queen Annes counties, upon which a great deal of money and time has been expended in making comfortable and attractive homes and

WHEREAS, there is no reason or justification whatever in shifting the bridge from its present location, thereby changing a straight and safe route through Chestertown to a crooked and extra dangerous one, therefore be it

Resolved, by this public meeting of citizens and tax-payers of Queen Anne's county, the members of the Board of County Commissioners of Queen Anne's county, the Hon. J. H. C. Legg, State Senator for Queen Anne's county, the Hon. Edwin H. Brown, State's Attorney for Queen Anne's county, the Hon. Edwin Stevens, member of the General Assembly of Maryland; that we hereby enter our emphatic protest against any removal of the Queen Anne's end of Chester River Bridge or its terminus in Kent county; and be it further

Resolved, That a committee, consisting of Senator J. H. C. Legg, R. B. Massey, Wm. J. Price, Mrs. Claude F. Parks, W. Irving Walker and F. E. Schneffe, is hereby appointed to appear before the State Roads Commission and present to the Chairman or members of the State Roads Commission a copy of these resolutions, the petition of citizens of Queen Anne's county, together with such other matter as in their wisdom may be deemed advisable in convincing the Commission of the folly in making any relocation of the bridge.

After the meeting a fine turkey dinner was served by Mrs. Claude F. Parks to all present.

The committee will likely go before the State Roads Commission in a few days.

MARYLAND ALMANAC OUT

The Maryland Almanac, edited by Frank R. Kent, has just been published and fills the gap caused by the discontinuance of the Sun Almanac. Mr. Kent and his associate, John W. Owens, have maintained all those features that made the Sun Almanac a standard book of reference for this section and a book of value for people everywhere for so many years.

In the almanac there are tabulated the results of elections and masses of statistics of value. It gives a statement of officers and other data with regard to State, Federal, city, religious, benevolent and other organizations. The publishers have adopted the same color for the cover and other distinguishing features of the Sun Almanac.

LARGE PUBLIC SALE

I will sell at Public Auction at MY STABLES IN GALENA, MD., on

Tuesday, March 6

Beginning at 10.30 A. M., sharp

20 TO 30 HORSES

7 Pair of Mules

Registered PERCHERON STALLION

Black. Good individual. Weighs 1,600 lbs. This is an exceptionally good horse and his colts are fine.

50 Head of Cattle

Several good SECOND-HAND CARRIAGES, lot of Single and Double Harness and Blankets. Some of this stock is as good as you will buy at any farmer's sale and some are not worth one dollar for to keep. I sell whatever is sent here to sell, and of course the bad will come along with the good. There will be horses and mules of all descriptions here, and I will represent them to be as near as I can as it is and after you go home with your horses or mules and find they are not as represented bring them back and get your money back provided they come back in two days and in as good condition as you took them away.

Can you go to a farmer's sale and get this kind of treatment?

I will have some good cows and heifers here and some no good for a farmer to keep if you will come to me I will try and get you in right.

At my last sale horses sold from $14 to $150, mules from $87.50 to $303 per pair, cows from $22 to $100, heifers from $20 to $72.50, shoats and pigs from $1.50 to $6.25.

If you want to buy or sell your stock, this is the place to come.

Sale rain or shine. Terms Cash.

S. G. CALDWELL.

After this sale I will make my sale on Saturdays beginning March 10th, and sell every two weeks.

STOP! LOOK! READ!

PREPARATION OF SEED BED.

College Park, Feb. 22.—Included in a series of articles recently written for the County Demonstration Agents for use in connection with local Boys' Agricultural Clubs throughout the State, S. B. Shaw, Specialist in Horticultural Extension, treats the subject very thoroughly. He advocates frequent harrowings in the spring to preserve moisture and keep out weeds. Mr. Shaw says: "It is advisable to plow deeply at least several weeks before planting, preferably the fall before. The depth of plowing will, of course, depend upon the way in which the soil has previously been treated. While it is desirable to have as deep a seed bed as possible, it will not do to break up too much of the subsoil at one time. A safe rule to follow is to go about an inch deeper each time the land is plowed. In this way the depth of the seed bed will be increased without bringing too much of the subsoil to the surface at any one time.

"While potatoes do best in well drained soil, they require plenty of moisture for their full development. In addition to having the seed bed deep, it should contain plenty of humus, or decaying vegetable matter, as this helps to retain moisture for the growth of the plants. One of the best ways to put plenty of this material in the seed bed is to select a piece of sod land the year before and after covering pretty thoroughly with stable manure, plow it in the fall to a depth that will bring up about an inch or two of the subsoil. In plowing do not turn the furrow completely over but set it on its edge, with enough slant to cover all the sod and as much of the manure as possible with soil. After staying this way over winter the land may again be plowed in the spring or cut over deeply with a disc harrow. It is best not to apply fresh stable manure in the spring, as it might cause the potatoes to scab.

Harrowing.

"After the land has been plowed, or disced in the spring, it should again be disced and then gone over with either a spring-tooth or spike-tooth harrow. Try to break up all possible clods. If harrowing is done immediately after plowing, clods are not so likely to be formed. Soils that are deeply prepared and free from lumps and clods will form smooth, uniform potatoes, the kind that bring the best prices on the market. Frequent harrowings in the spring up to planting time will conserve moisture, keep the land in good condition and prevent the growth of weeds."

SIDNEY P. TOWNSHEND, SOLICITOR.

Assignee's Sale OF VALUABLE Real Estate

UNDER and by virtue of the power of sale contained in a mortgage from Lee Dent to Thomas A. Matthews, bearing date the 10th day of July, 1915, and recorded among the Land Records of Kent county, Maryland, in Liber J. T. D., No. 31, Folio 532, etc., and which said mortgage was duly assigned to the undersigned by assignment of Stanley W. Matthews and Herbert M. Matthews, administrators of Thomas A. Matthews, late of said Kent county, deceased, bearing date the 20th day of February, 1917, and also duly recorded in said Land Record Book, the undersigned, as assignee of said mortgage, will offer at public sale in front of the Court House Door, in Chestertown, Kent county, Maryland, on

Mary Had a Waterman's Ideal

Mary had a fountain pen,
'Twas neat and good and strong,
And everywhere that Mary went
She took the pen along.

"For oh!" she said, "without my pen
I don't know how I'd feel;
I'm sure I could not write at all
Without a 'Waterman's Ideal.'"

So every time she saw a pen
That leaked all out the top,
She stopped right then and did advise
"Buy a Waterman's at the Co-op."

Mary Had Not a Waterman's Ideal

Mary had a fountain pen.
'Twas neat and looked quite fair,
But every time she tried to write
Dear Mary learned to swear.

But Mary's fellow heard her once;
It made his senses reel,
He smashed that so-called pen and bought
A "WATERMAN'S IDEAL."

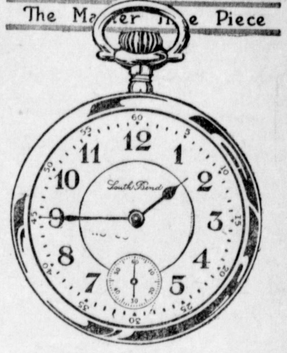
South Bend

The Watch in the Piece



THE South Bend Watch Company might use garnet jewels in their watches instead of ruby and sapphire jewels as many other watch companies do and thus greatly reduce the cost of production.

You would not notice the difference in buying.

But, if garnet jewels were used, the watch would not have any such lasting qualities—

and the South Bend Watch Company believes it is better to have smaller profits and satisfied customers than large profits and dissatisfied customers.

That's the way we feel about it, too, which accounts for our giving *South Bend* watches the preference.
