THE nomination of Gifford Pinchot as the Republican candidate for the Governorship of Pennsylvania is the second rebuke the present Republican Administration has received in the past month. The defeat of Senator New, in Indiana, has been reflected in Pennsylvania. The voters seems to be using their own judgment in political matters and the political boss seems to be in the discard.

BOND ISSUE DEFEATED

The proposed issue of $50,000 bonds for street and sidewalk improvements which was submitted to the taxpaying voters of Chestertown on Monday, was defeated by four votes. The Transcript contends that the defeat of the bond issue was a backward step and time we believe will prove we are right. However, a majority of four voters declared against the issue, therefore those in favor of bonding the town must submit. In our judgment there can be no fairer way of settling a public question than by the vote of the public—this is Democratic.

DRIVE FOR HOSPITAL

Caroline, Queen Anne's and Kent to be Asked For Contributing Members—The Great Work Done

Emergency Hospital is going in debt every week because of the large number of free patients cared for. It is true the State pays towards the maintenance of these free patients, but the amount allowed per day is not enough to cover the expense. As this deficiency is being brought on by free patients from Caroline, Queen Anne's, and Kent counties, as well as Talbot the directors of the hospital are going to ask the public-spirited people of the four counties to contribute a yearly sum to cover this deficiency.

The hospital has been a godsend to the people of these four counties, there being a hundred or more from the three northern counties treated every year without charge. Some idea of the work of the hospital can be gauged as follows:

During the last year 963 patients were admitted. Of these nearly one-half were free—that is, nearly 500 people from these counties were ministered to, given the best medical and surgical care, nursed and fed without cost to themselves. The cost to the hospital was $2.96 per day for each one of them. Of this the state paid $1.76 per day. Therefore $1.20 every day has to be provided by public benefaction.

During the year 653 surgical operations were performed. Two-thirds of these, 524, were free; and for these operations the surgeons received no pay whatever. Hay they been paid at the rate which surgeons may properly charge they would have cost from $25 to $2,500 each. The really munificent contributors to the hospital are the physicians and surgeons. They are the most charitable class of men in the world.

During the year the total receipts from the public was $58,000. The generous people of these communities would not allow this situation to continue for a moment if they were not under the misapprehension that the state supports the hospital. It does not. It pays $1.76 a day for each patient which costs the hospital $2.96.

Moreover, the benefit of the hospital is by no means confined to the poor who are admitted free. It is no small thing for every family in these counties to know that if one from themselves is sick or injured and in need of immediate medical or surgical skill, and needs it at once, the sufferer can be taken to the hospital at their door instead of to Baltimore or Philadelphia at many times the expense.

Beside that, the new Nurses' Home and Training School is providing for our young women a chance to learn a profession which is most honorable and which will make them useful to their fellow men.

A movement is on foot by the directors to secure a large list of patrons, with an active committee in each county, who will each pledge a moderate sum annually to this most noble charity. The Star-Democrat bespeaks for them the hearty and sympathetic support of these communities, which are never backward in good works whenever the need is shown to them.—From Easton Star-Democrat.

THE UNITED RAILWAYS COMPANY OF BALTIMORE ORDER 31 NEW BUSSES, WHICH WILL BE EQUIPPED WITH

WILLEYS KNIGHT MOTORS

This order was given as the result of an actual test made by the United Railways with a bus equipped with a Willys-Knight Motor, which was tried out in regular service on the streets of Baltimore, and showed a gasoline mileage which was a revelation, 9 miles to one gallon of gasoline, whereas the consumption of the other busses now in opeartion shows 5 miles to a gallon. The test bus was not held up once for repairs to the motor during the entire time, covering a distance of 18,000 miles.

Officials and employees of the United Railways were so enthusiastic over the performance of the Willys-Knight Motor, that they decided to make the Willys-Knight Motor Standard Equipment on all their motor transportation equipment. This applies to passenger cars as well.

A Willys-Knight Sedan to be used by President Charles B. Emmons and Herbert B. Flowers, second vice-president and general manager, and one touring car to be used by Thomas A. Cross, chairman of the board of directors, have recently been ordered.

Roadster, $1350; Touring, $1375; Coupe, $1875; Sedan, $2095—F. O. B. Toledo.
