MALLALIEU MILLS REOPENED

Wave Of Prosperity Hits Historic Old Place And Wheels Begin To Hum As In Bygone Days

Mallalieu Mills, situated in Queen Anne's County, near the Kent boundry, has been reopened and the spinning of worsted yarn being carried on in the place which has a most historic connection with this section of the state.

This mill is well known to the people of this section. In the early history of the mills it made all the woolen goods for suitings and later it made shirtings and before its last opening it made cloth.

This mill is now in charge of Clarke & Company. They have entirely renovated the old mill building and began installing new machinery about the first of February. On or about the first of March work was started and the mill has been running steadily since.

The operators of this mill desire to purchase the raw material from the farmers of this and adjoining counties and will buy most any grade of wool and will pay the highest cash price for the same. This mill, to be a success, must have the raw material, and as the owners are willing to buy it from the farmers, this is another opportunity for the farmer to get at home a good price for his wool and at the same time encourage an industry that will give employment to home people.

With this mill running, it will create quite an industrial center in the upper of the two counties.

The mil is run by water power, which is derived from a large lake and pond just back of the mill.

Kent County Women's Council To Hold First County-Wide Meeting

The Kent County Council for Home Demonstration Work will hold the first county-wide meeting on June 8 at Washington College. This meeting is open to the members of all Women's Clubs, to all women of Granges, and to the women of all Patrons Clubs, and any others who are interested in Women's Work.

The meeting will be held in William Smith Hall, beginning at ten o'clock. In addition to a business meeting the program committee is planning a splendid program that will be well worth while. Miss Bertha Knight, of the University of Maryland, will be one of the speakers.

If you wish to join us at a noon luncheon, please send your name to Miss Annie L. Copper by Tuesday, June 6, so that we may know how many wish to be served.

Every effort is being made to make this a profitable day for the women of the county, and plans are being made for a large attendance.

Ford Turns Out 6,000,000 Motors

Ford Motor Number 6,000,000 was lifted from the assembly line in the Highland Park Ford Plant at 9.14 a. m., May 18. Just 5 1-3 seconds later Number 6,000,001 was finished.

The unusually heavy demand for Ford cars and trucks at the present has necessitated the building of 5400 motors daily. These are shipped in carload lots to the various Ford assembling plants throughout the United States.

The first Model "T" Ford motor was completed on October 1, 1908; number 1,000,000 left the assembly line Dec. 10, 1915; and number 5,000,000 came through May 28, 1921.

Although the Ford Motor Co. turned out a number of different models prior to 1908, the presnt numbering system began with the first Model "T."

STILL POND

BALTIMORE, MD.
ENTRANCE EXAMINATIONS
Engineering Scholarships

Entrance examinations, under the auspices of the College Entrance Examination Board, will be held June 19-24, 1922, in the Civil Engineering Building, Homwood, beginning at 9 a. m. each day.

Applications for Scholarships in the School of Engineering, established under provisions of the Laws of Maryland, Chapter 90, 1912, will now be received. If there is more than one applicant for a particular scholarship, competitive examinations will be held September 22, 1922, beginning at 9 a. m.

Each Legislative District of Baltimore City and each County of the State, with the exception of Caroline, Cecil, Queen Anne, Talbot and Worcester, will be entitled to one or more engineering scholarships for the year 1922-1923, in addition to those already assigned. In the five counties mentioned, all available scholarships have been awarded.

Under the provisions of the Act of Assembly, the County and City Scholarships in the School of Engineering ar awarded only to deserving students whose financial circumstances are such that they are unable to obtain an education in Engineering unless free tuition be granted them.

The Scholarships entitle the holders to free tuition, free use of text books, and exemption from all regular fees. One of the scholarships in each County and in each Legislative District of the City carries also the sum of $200. The expense of attendance for those who do not receive scholarships is not greater than at other Maryland institutions.

Scholarships may be awarded to graduates of Loyola College, St. John's College, Washington College, Western Maryland College, University of Maryland (Maryland Agricultural College), Mt. St. Mary's College and Rock Hill College.

Applicants should address The Registrar, The Johns Hopkins University, for blank application forms and for catalogues of information regarding examinations, award of scholarships, and courses of instruction. The next session begins Tuesday, Oct. 3.

Subscription to the Transcript $1.50.

No War Tax

Effective May 8, 1922, the Excise Tax on United States Tires for passenger cars, both casings and tubes is absorbed by the makers and is not added to the selling price. United States Rubber Company.

For Ten Dollars and Ninety Cents—*This 30 x 3½ Usco*

THE 30 x 3½ tire situation today is just this—

The man who buys an USCO at $10.90 is justified in believing that his money is going farther in tire value than it *ever has gone* or *could go* before.

Naturally he appreciates the quality of USCO. That was established *long ago.*

It is still fresh in his mind that USCO *led the national market* into the $10.90 price range.

* * *

The makers of U. S. Tires *always* intended the 30 x 3½ USCO to be the highest value in its field.

At $10.90 it creates a *new classification of money's worth.*
