TO THE FARMERS AND TOMATO GROWERS AND PUBLIC

Mr. Wright Dill has a letter that he is circulating around the county, told me that it was sent to him by the Gibbs Preserving Company or their agent that he refuses to let me see. That Mr. E. A. Corey has a copy of same and he also refuses to let me see the letter. That I, W. H. Cooper, never went or wrote to J. Langrall & Bro. that I could contract tomatoes for them at twenty or twenty-cents per basket. I will say that is not true. That I never made any such statement to any packer and that I never made a grower any price. I never was instructed by my packer to offer twenty five (25c) cents and have never made any price to the growers. I have told the packer that the growers held for twenty-five (25) cents per basket. I can and will prove the same that that letter is unjust and not true.

Top Dress Your Wheat and Grass

It is the experience of a great many farmers who have top dressed Wheat with a special top dresser Fertilizer, that it not only makes a larger yield, but produces a better quality af grain and insures a good catch of grass and clover.

The readily available plant food in our top dresser Fertilizer gives the young Wheat a splendid start and enables it to send out strong vigorous roots and the increased yield in consequence is marvelous.

We are manufacturing for this purpose a Special Top Dresser Fertilizer that contains some Nitrate of Soda, Fish and Dissolved Bone, the price of which is $26 per ton and an application of 150 lbs. to the acre would only cost about $2 the acre the result of which would prove to be eminently satisfactory.

A few years ago one of our customers claimed that an increased yield from an application of 200 lbs. was thirteen bushels more Wheat and when you think of the present price of Wheat, it certainly would pay handsomely. Mr James T. Dixon always top dresses his hay crop and says that it certainly pays him.

If therefore you want a substantial and profitable increase in the yield of your Wheat, or to greatly increase your Hay crop, be sure to apply some of our Top Dresser as early as possible in February.

Yours respectfully,

THE PEERLESS FERTILIZER CO.
