THE THIRD NATIONAL BANK

OF CHESTERTOWN MD.

The Only National Bank in Kent County

"THE BANK WHERE YOU FEEL AT HOME."

ON GUARD!
THIS BANK STANDS GUARD
CEASELESSLY PROVIDING
YOUR FUNDS WITH PROTECTION

This Bank has prospered on the confidence engendered by its convenience and safety features. It has always been our aim to add to these whenever possible, and to ever be on the lookout for chance of improvement.

We have provided in every way for the safety of funds entrusted to us. Recently we have added a new link to this chain of safety-insured checks.

Every Depositor of the THIRD NATIONAL BANK of Chestertown is Positively Protected against loss through fraudulent alteration of his checks.

Regardless of the pains which banks have heretofore taken in protecting their clients, there has always existed the possibility of fraudulent alteration in personal checks, but this problem has now been practically solved by the unusual protective feature which we are now offering. In adopting Super-Safety Insured checks for our bank we are in a position to offer, free of charge, a check insurance bond of $1,000.00 to each depositor with a checking account, whereby he is protected to the face value of the bond from fraudulent alteration of his personal checks.

This bond is issued by the Hartford Accident and Indemnity Company. We shall be glad to explain in detail the merits of this new service not only to new customers of the bank, but to such old customers as may be desirous of receiving this free service.

We suggest that you call and learn in detail the advantages of this new and attractive service to our banking clientele.

THE BOND ISSUE

CHESTERTOWN, MD., NOV. 2, 1922.

MESSRS. EDITORS OF THE TRANSCRIPT:

DEAR SIRS—The Executive Committee of the Road Bond Issue wish to convey to the citizens of Kent County [illegible] we have reason to believe that the opposition to the Bond Issue to bond Kent County for permanent roads improvement, which opposition is making every effort in their statements to prejudice the minds of the public by statements that are not facts and cannot be substantiated by any record or proof. Some of the propaganda being circulated by word of mouth is as follows:

That the County Commissioners will not have charge of the funds from the sale of the $100,000.00 bonds. The bill expressly states that from the sale of the bonds the money shall be palced in the custody of the County Commissioners and that the same shall be placed in bank or banks of their selection, and emphatically states that this money shall be expended for permanent roads, which opinion has been substantiated by two competent attorneys.

The County Commissioners are the custodians of all the finances of the county, both in collecting county funds through their Treasurer and all expenditures. Surely, every intelligent citizen, if he will think for one moment, will not doubt this statement.

Further, to anticipate any statement that the Road Engineer has from the present road fund only $7000, we deisre to state that this is not correct. The present balance is $13,865.73, of which $3,900.00 will be required to pay the several incorporated towns for the annual appropriations on Jan. 1st, 1923.

Further, we wish to state that Capt. Applegarth submitted a detailed and highly satisfactory explanation of both his work and expenditures, which prove that the present system is correct and that the overhead is entirely in keeping with the requirements of the system.

In addition to the $100,000.00 from sale of bonds, the engineer has agreed to set aside the sum of $12,500 per year from his levy for a period of four years, making the sum of $50,000 additional to be spent for permanent roads.

As a guarantee of the proper construction of the roads under the supervision of the Road Engineer, the best evidence is a letter of endorsement from the former Chief Engineer of the State Roads Commission of Maryland, H. G. Shirley, as follows:

"This is to certify that I have known Mr. Gault Applegarth personally since 1912, he being connected with the Maryland State Roads Commission while I was its Chief Engineer. He went with the Commission two years prior to my being appointed Chief Engineer and remained with the Commission until 1916, resigning to accept the position of road engineer of Kent County, Maryland--the position he now holds. His work for the State Roads Commission extended from rod man to chief of party, making surveys and plans for the highways built in that state. He was also inspector of construction and was promoted by me to be resident engineer, having charge of all the work in a number of counties, and handling FUNDS THAT RAN INTO MILLIONS. He is competent to lay out, design, construct and maintain roads and bridges or construct work of like nature.

Signed: H. G. SHIRLEY.

Therefore we feel that Capt. Applegarth is perfectly competent of constructing the permanent roads to be built under the Bond Issue.

In answer to statements made by some of those who are opposed to the Roads Bond Issue relative to cost per $100.00 in tax rate, we wish to controvert any such erroneous propaganda.

By absolute facts, based upon the undisputed statements of the Cashiers of the several banks of Chestertown, verifying the figures of the Roads Engineer, namely:

CHESTERTOWN BANK OF MARYLAND.
THIRD NATIONAL BANK.
KENT COUNTY SAVINGS BANK.
PEOPLES BANK.
CITIZENS BANK.

In hopes that all progressive, enterprising and forword-looking citizens of Kent County will aid the COUNTY and help THEMSELVES by voting for the Bond Issue on Election Day, we are

Very Respectfully,
THE COMMITTEE OF TWENTY-ONE.

CHESTERTOWN, MD., OCT. 31, 1922.

TO ALL INTERESTED IN GOOD ROADS IN KENT COUNTY:

A Good Roads Meeting was held in the Court House at Chestertown on October 24th, 1922, attended by about 100 representative citizens from all parts of Kent County. The purpose of this meeting was to discuss the Bond Issue for permanent stone roads in Kent County. After discussing the plan from all angles for several hours a resolution was unanimously adopted in favor of the Bond Issue for $100,000.00.

The revised plan is to construct gravel-stone m[illegible]m roads, which are to be built at a cost of about $3,000.00 a mile, according to the County Roads Engineer's figures, based on present labor and cost of team-hire. The type of road would have a width of 14 feet, with a gravel base of 8 inches in depth and a trap-rock stone top of 2½ inches depth, which stone wearing surface will be oiled and stone chips applied at the rate of 35 pounds to the square yard, all to be rolled under a ten-ton roller. The road will be laid to proper grade and alignment. The grading, shaping, steel pipes and bridges will be done by the County, which cost will be taken out of the regular dirt-road fund.

The plan is expected to give the County approximately 50 miles of improved stone roads within a period of four years. Each district wil[illegible]t an equal amount of mileage from the 50 miles of permanent roads built under the plan. This will include a stone top on the present gravel base that now exists on Tolchester road. If this is done, at the end of four years, such towns as Golts, Chesterville, Sassafras, Blacks, Turner's Creek, Morgnec, Lynch, Worton, Colemans, Melitota, Newtown, East Neck Island, Crosby, Skinner's Neck, Lankford and Pomona will be connected with the state road system. This will be in addition to the state road that we get at the rate of about three miles per year.

It has been estimated that the proposed loan will increase the taxes only six cents on the $100, or sixty cents on an assessment of $1000, or three dollars on an assessment of $5000, per annum, until the Bonds are retired.

It is evident that the present dirt roads will not withstand the automobile and truck traffic of the present or future. This permanent stone road plan is not only approved by the local Roads Engineer, but also by the State Road authorities, and by hundreds of citizens of the County who have given the matter their thoughtful consideration.

In hope that all progressive, enterprising and forward-looking citizens of Kent County will aid the COUNTY and help THEMSELVES by voting for the [illegible] Issue on Election Day, we are

Very Respectfully,
THE COMMITTEE OF TWENTY-ONE,
By E. THOS. MASSEY, Chairman.
