DEMOCRATIC TICKET

For United States Senate:

WILLIAM CABELL BRUCE.

For Congressman:

T. ALLAN GOLDSBOROUGH.

WE call the attention of our readers to two articles in this issue and ask that they carefully read each of them —the Bond Issue—which will be found on our first page and the Near East Relief, which will be found in another column. Both of these articles speak for themselves.

THROUGHOUT the winter months parts of Kent County have been practically isolated by reason of bad roads. In these days of automobile and truck transportation the county roads, in their present condition, are totally inadequate. The Bond Issue for improvement of the county roads is a step toward improvement in our agricultural interests and the agricultural interests are certainly the backbone of the county. Intead of deploring and condemning our present bad winter roads, let's go to the polls on Tuesday and vote for the Bond Issue. The increase in your taxes will not be greatly noticeable and the increase in the value of your country real estate will be very apparent. From your own observation you know how anxious every farmer is to locate on a good road. The great cry of today is to keep the young people on the farm. Good roads will afford them access to such pleasures as will make them more contented with country life. We have no doubt that, if the Bond Issue is passed and the money wisely spent as we believe it will be, every taxpayer will be amply repaid for his increase in taxes. The farmer will gain in great advantages of transportation and increased value of real estate. The business man of the county will prosper as the farmer prospers. By voting against the Bond Issue, or by not voting at all, you will not get better roads, but will continue to spend the county taxes on our present antequated and inadequate system of roads. Figure out for yourself the advantages of the Bond Issue and vote for the Bond Issue on Tuesday.

—Vote for the Bond Issue and get good roads.

THE election on Tuesday is one which concerns every voter and taxpayer in this state. At this election the voters will choose their representatives in both Houses of Congress. It is vitally important that at this time we have in Washington men of exceptional ability. This district was fortunate in being represented in the past session by Hon. T. Alan Goldsborough. The fact that Mr. Goldsborough was the only Democratic candidate in the United States elected to Congress from a district formerly represented by a Republican, placed Mr. Goldsborough in the lime-light in Democratic affairs and, coupled with his apparent ability, resulted in his appointment to some of the most important committees in Congress. As a member of the Finance Committee Mr. Goldsborough attracted nation-wide interest through the introduction by him of a bill in Congress to stabalize the purchasing power of the dollar. Mr. Goldsborough has been constantly safeguarding the best interests of his constituents in this district. We believe that, based on reason and common sense, that the re-election of Mr. Goldsborough is to the best interests of the Eastern Shore. We have the opportunity of electing to Congress a man who is experienced in Congressional matters, a man who has made good in every sense of the word. The only way to re-elect Mr. Goldsborough is to go to the polls on Tuesday and vote for him. Do not stay at home and neglect this important duty.

In a Senatorial candidate the Democratic party has in Mr. Bruce a man of the highest intellectual attainment, a man who is recognized wherever he is known as one of exceptional brain power, a man well-balanced and well-informed on all the vital questions of the day, and a lawyer respected and admired by the lawyers of the state. In these days it is not often that the voters have an opportunity to cast their ballots for a man of the calibre of Mr. Bruce and in our opinion he is far above his opponent from every view-point. With Mr. Bruce in the Senate, Maryland could be justly proud of its choice. These are the days when Socialism, Radicalism and Bolshevist tendencies should be checked rather than encouraged and a vote for Mr. Bruce will be a vote for the application of sound and reasonable principles in legislation. Go to the polls on Tuesday and vote for Mr. Bruce.

PEOPLE'S COLUMN

Through an error in publishing, the location of the stone roads to be built under the provisions of the Bond Issue, if favored, Coleman's was omitted. This section of road will be included in the process of road construction.

(Signed) GAULT APPLEGARTH.

THE VALUE OF THE COW

Well-Known Animal One Of The Most Valuable and Dependable of Any Of Our Domestic Animals

Little do we realize the debt we owe the cow. During the dark ages of savagery and barbarism we find her early ancestors natives of the wild forests of the old world. As the bright rays of civilization penetrated the darkness of that early periad, and man called upon the cow, she came forth from her seclusion to share in the efforts that gave us a greater nation and more enlightened people!

For twenty thousand years she has shown her allegiance to man, sharing alike in his prosperity and adversity, responding nobly to all that was done for her, until through her development she became an idol of the people of her native country.

When Columbus made his second voyage to America, the cow came with him, and from that time to the present day she has been a most potent factor in making this, our own country, the greatest nation, with the highest type of womanhood, history has ever known.

Her sons helped till the soil of our ancestors and slowly moved the products of the farm to market. They went with man to the dense forests of the new world, helped clear them for homes and made cultivation possible for the coming generation, and when the tide of emigration turned westward they hauled the belongings of the pioneer across the sun-scorched plains and over the great mountain ranges to new homes beyond.

Truly, the cow is man's greatest benefactor. Hail, wind, drouths and floods may come, destroy our crops and banish our hopes, but from what is left the cow manufactures into the most nourishing and life-sustaining foods, and is she not foster mother and life itself to countless thousands of little children all over this world of ours? We love her for her docility, her beauty, and should misfortune overtake us as we become bowed down with the weight of years, we know that in the cow we have a friend that was never known to falter. She pays the debt. She saves the home. Little do we realize the debt we owe her!

—The case of Mr. John T. Jester against the C. & P. Telephone Co. for $50,000 damages for causing the death of Mr. Jester's wife in an automobile accident last year, will be tried in Centreville at the November term of the Circuit Court, which convenes Monday next at Centreville. Barroll & Barroll, of Chestertown, will represent Mr. Jester.
