## GALENA

Mrs. Frank White and little daughter, Margaret, are visiting relatives in Wilmington.

The Jr., League "Knights of the New Century" held a most enjoyable Social for the members in the chapel last Monday evening. The annual election of officers was held after which the remainder of the evening was spent in jolly games, superintended by their pastor and wife, Rev. and Mrs. Frank White. Ice cream and cake were served to all present. The "Knights" also took charge of the Junior League on Wednesday afternoon and gave an excellent "Anti-Cigarette" programme, every member of the club present signing the Anti-Cigarette Pledge.

Mrs. Frank Woodside, of West Chester, is visiting her neice, Mrs. James Davis.

Miss Sara Pennington spent last week in Philadelphia.

Miss Bertie Brockson visited her sister, Mrs. Fred. Justice, of Philadelphia, on Friday and Saturday of last week.

H. S. Dempsey is having several more rooms built to his pretty home next to his store.

Harry Holton is also improving his home on Main street.

Quite a large congregation attended the Mother's Day service Sunday morning in M. E. Church and helped by the Pastor's message.

The Epworth League Anniversary on Sunday evening was well attended and much enjoyed. The "Pageant" was both instructive and entertaining and all acquitted themselves well, even to the tiniest Juniors in the march of the years. Certificates and Diplomas were presented to the Juniors as follows: Certificates, 1st year, Primary, Catherine Dempsey, Alice Strapshire, Bertha Cooper, Miriam White, Elizabeth and Frances Ruth; Certificates for sixth year, Emily Caldwell; Diplomas for Junior Section, Molly and Blanche Dixon, Lavelle and Nellie Dempsey and Hilda Boyd.

A box social will be held at Lambson school on Tuesday evening.

## Still Pond Farmers' Club

The Still Pond Farmers' Club met at the home of Mr. Harry Williams. The discussion on the "Charge Account" was opened by Mrs. Williams, who said the charge account causes excessive buying on the prospect of a future crop, and things sold on credit must be sold at a higher price to cover additional costs and losses. She considered it unnecessary, as most farms have money coming in all the year and it is just as easy to keep up with your bills as to be a year behind time all your life.

Mrs. Corey recommended the budget system, arranging in advance for cash payments and to include a pleasure trip in each year's budget. The "charge account" had no friend in the Farmers' Club. It was considered better business to borrow money from the bank when necessary and pay bills cash.

The question, "How To Keep the Buildings in Repair," was then taken up. Some thought it would be a good plan to pay a carpenter a fixed amount yearly to keep the buildings in repair. Others said they could do most of the repairing themselves, with the assistance of their farm hands. It was agreed that a large part of the repairs needed was on account of carelessness and that a sufficient revenue from the farm is necessary in order to keep the buildings in first-class condition.

"To what extent should a farmer help his wife with her work and how can he be induced to do it?" was next discussed. Mrs. Price said that her secret was—help him and he will help you with any kind of work. Mrs. Corey said labor conditions make it necessary for the men to help their wives, but that most husbands were too old to train properly. The boys, she said, can be trained with better success. Mr. Cornelius had his first experience a short time ago. His wife was away and the cook left. He had eaten everything in the house and the dishes were all dirty and there was no escape from house work.

After a discussion on the labor situation, a committee of three—Messrs. Hepburn, Corey and Rash—was named to bring the matter before the Granges and make an effort to improve existing conditions.

The next meeting will be held at the home of A. L. Harris, Thursday, May 24.

WESTERN MD. COLLEGE at Westminster, Maryland, is celebrating its Fiftieth Anniversary at the coming Commencement, June 8th to 13th.

The Governor, President Goodnow and other distinguished speakers will be present on Commencement Day, June 13th, when the most interesting of the celebration exercises will be held. A great company of former students will attend and it is expected that one of the most remarkable gatherings of the year will be seen.

This institution, organized fifty years ago, has made an unusual success. It now has a fully equipped plant representing an outlay of more than four hundred thousand dollars, and has a student attendance of about two hundred and thirty. The school has become well known in our State and represents the best type of conservative, through work.

**To the Farmers**

Last year we advised you to raise White Corn. All who did so have profited more than by any other crop.

The demand for Hominy, Grits, Meal and Corn Flour made from white corn both for home and foreign consumption is increasing every day.

Europeans have discovered that white corn produces the cheapest nourishing food for their armies and citizens. We predict a demand next season that will give every farmer a good price for corn and fair premium for White Corn.

Do not overlook this opportunity—plant every available acre in white corn as we can assure you a ready cash market. This season our mill bought *every bushel of white corn* for sale on this market.
