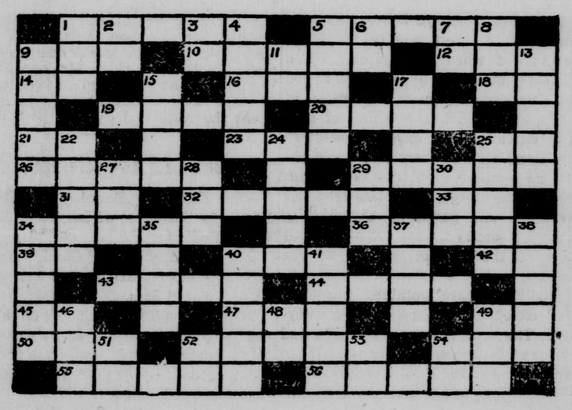
THIS WEEK'S CROSS WORD PUZZLE

HOW TO SOLVE A CROSS WORD PUZZLE

The first letter of each word is indicated by a number placed in the blank white spaces, and by referriing to the list of words given below, you will find the definition. For instance, number one horizontal gives the definition of a word which will fill in all the white spaces to the first black space at the right. Number one vertical gives the definition for a word which will fill in all the white spaces to the first black space below. The black spaces indicate the end of a word, and no letter is placed in them. When completed, the puzzle must read both horizontally and vertically or across and down.



Credit for this week's cross word puzzle goes to Waldo E. Frohardt. It contains mostly very simple words—and the ones that aren't simple are words that you should know anyway—so if you don't know them this is an excellent opportunity to learn them. You should be getting used to larger cross word puzzles by this time, so we are going to allow you only 25 minutes for working this one. Of course, we realize that the time we give you—and the time you take—are two different things.

VERTICAL

1. A male child
2. County (abbr.)
3. Like
4. Fence pickets
5. An illiberal adherent of a creed
6. College degree
7. In case that
