HEAVY SHAD SHIPMENT

Crisfield established a new record in the shipment of fish a few days ago, when one firm alone in one single day shipped more than 27,000 shad and several thousand other fish. This firm was Thornton, Tawes & Co., that being their largest shipment of this season. Their shad shipment that day filled six cars, while the other fish shipped by the same firm filled two cars, making a total of eight carloads of fish shipped by one firm in twenty-four hours. Shipments by other firms on the same day increased Crisfield's total output to at least 40,000 shad and many thousands of other kinds, making more than ten carloads in all. It is estimated by fish dealers that more than $20,000 was realized from the one day's shipment.

THE FRENCH BOND BUYERS

The French people are the greatest investors in Government bonds in the world. At the close of the Franco-Prussian War in 1870 Germany demanded and collected from France $1,000,000,000 indemnity. The French people, who were as loyal then in responding to their country's need as their soldiers are today, hastened to loan this tremendous sum to their country.

Their patriotism turned a great misfortune into a benefit. Their thrift in thus saving their money and investing it in Government bonds not only brought great prosperity to France but the bonds rose in value all over the world and made the French national credit good wherever civilization existed. Ten years after the bonds were issued they commanded a premium of 25 per cent.

What the American Nation is called upon to do in lending the American Government and taking its bonds therefor is little compared with loan of $1,000,000,000 to France after the Franco-Prussian War by the French people. Called upon to do much less than their present allies, the French, the American people will demonstrate that they are second to no people in the world in patriotic support of their Government.

SUFFRAGE A WAR MEASURE

BECAUSE—

1. It is unthinkable that men should ask women to sacrifice all they hold dearest in a war for democracy abroad, while are denied democracy at home.

2. Taxation without representation is tyranny, especially in war time, when taxes are increased.

3. England, Canada and Russia are enfranchising their women in war time. Let us profit by the experience of our Allies.

4. If women must do the work, assume the responsibilities and protect the interests of the absent men, they must be enfranchised.

5. The enfranchised power of women is needed to minimize the social evil and social diseases in army encampments. California furnished striking testimony of the effectiveness of the women's vote in combating these evils.

What the women of California have done, the women of Maryland can do and will do if given the opportunity.

It is believed that suffrage for women will correct these conditions. Is it not an unwarrantable cruelty to deprive women of the vote when the physical and moral welfare of their sons is at stake?

Women vote now in 19 States of the Union; in Australia, New Zealand, Norway, Alaska, Sweden, Iceland, Denmark and six Provinces of Canada.

Since January 1, 1917, seven States have enfranchised women—North Dakota, Nebraska, Michigan, Ohio, Indiana, Arkansas and Rhode Island.

Over 8,000,000 women now vote in the United States. Why not in Maryland?

Mr. Watson, like thousands of othre merchants, is saving moremoney by using a VIM. He writes in part as follows.

"Gentlemen:—I formerly employed a number of horses and wagons but I am now making my deliveries with one VIM Truck. I should say it will easily do the work of two horse and wagon outfits, and costs about the same as one horse and wagon."
THOMAS WATSON, 324 N. 13th Street.

Mr. Watson is covering more territory, making more sales, developing more new business because he has a VIM.
He has a graceful, "classy" car that is advertising his business.
He has a sturdy, durable, economical car that stands hard work.
And besides he is saving real money. **You can do the same.**
