Wm. Scoon's horse was caught between the front legs by an auto in Chestertown Monday and badly cut. The auto was filled with ladies and a more serious accident looked certain, but happily it was avoided.

Several important events are announced to take place yesterday. The County Temperance Convention opened in Christ M. P. Church, Chestertown, with Mrs. Emma Shafer presiding. Interesting speakers and good music were on the program. At the college Prof. Ten Hoor's pupils gave a concert at night followed by a dance.

Yockel, the commander of this company, is doing all in his power to make this movement a success and asks for the co-operation of all.

Colonel Guy Henry, who wedded Miss Mary Rogers, sister of Police Justice R. Hynson Rogers, of Chestertown, promises to be one of the most prominent military figures of the great war from the United States. Colonel Henry who recently attained this title, is but 40 years of age and is the youngest commandant that ever held the post at West Point. He was aide to Mr. Roosevelt when he was president and saw active service in the Philippine Islands and elsewhere. When General Joffre was here a few weeks ago, he publicly complimented Colonel Henry. A picture of General Joffre and Colonel Henry appears in last week's "Leslie."

Tim Garrett, formerly of Washington College, now principal of a state school for boys near Baltimore, was in Chestertown last week looking for Edward Harbison, who was sent there several months ago. Edward, along with some other boys, was sent out to extinguish a forest fire in the neighborhood of the school and has not been since at the school. We can find no one who has seen him in Chestertown.

Tolchester opens today. Night trips will start Tuesday.

Prof. Judefind, while beating the big drum in the Rock Hall Band, Wednesday, fell out the end of the auto—drum and all. No harm done.

The festival given by the teachers and patrons of Betterton school drew a good crowd. The receipts amounted to over $73 and is sufficient to finish paying for the chairs bought for the assembly room of the school. Betterton is fortunate in having three very efficient teachers who are accomplishing good results. They have been assisted very materially by the Patrons Club under the lead of Mrs. Jas. Sutton. The assembly room is now equipped with a new piano and new chairs and other improvements are in view.

The schools of Cecil county closed for the summer this week.

Mrs. James Leager fell and broke her collar bone. Dr. Brice, of Millington, rendered medical aid. Miss Ida Wallen, of McGinnes Corner, had a very narrow escape from a serious accident last week. When descending the stairs she tripped and fell quite a distance and was under the doctor's care for several days.

Toulson and Bennett Potts. Funeral services were held from Double Creek, Rev. G. F. Stalling officiating. Interment in cemetery adjoining the church.

The baseball season at W. C. is no more for this year. Several stars have left to join the Army and Navy and the interest has waned to such an extent that no more baseball will be played this year. Many colleges all over the country have done the same.

The old problem of how to keep the boys on the farm is at last solved. Exemption from draft is causing a grand rush to the fields and many a city bred chap who would'nt know a "cowlet" from a "bullet" fain would exchange places with his "gawky country cousin," down on the farm.

The Farm Tractor Service Company was incorporated Thursday; its principal office is Middletown; its capital $25,000; and its object: "To maintain and operate, for hire, tractors or other power driven vehicles, and their attachments, to plow, harrow and do all other acts incidental to tilling the soil." They advertise in Middletown papers to contract for plowing fields within 5 miles of the town at these rates:

For furrows six inches deep.....$2.50 per acre
For furrows seven inches deep....$2.90 per acre
For furrows eight inches deep....$3.40 per acre
For furrows nine inches deep.....$4.10 per acre

Oh, the waste! Chestertown housewives waste a fortune each year in four items of food alone and the money value of all the items not now considered as worth saving would make a number of people independently rich. Chestertown and outlying sections has about 4,000 population. If each person in this area shall waste each day in the year one ounce of bread, costing 7 cents a loaf, it will aggregate the sum of $6,397.50; or 1 ounce of coffee, at 25 cents per pound, it will amount to $22,812.50; or 1 ounce of sugar at 10 cents per pound, it will equal $9,125; or 1 ounce of butter, at 30 cents per pound, it will aggregate $27,375.

"Waste, therefore, in only these four items, in one year in this section will aggregate a total of $65 700.

Major Nichols says, "Follow the calculation, if you will, on such necessities of life as potatoes, rice, beans, onions, fruit, milk, coal, and numerous other articles of the household requirements not to include the waste in useless and ofttimes harmful eats and drinks, and the grand total will rench such a startling sum as should admonish each and every person who has reached the age of discretion, to begin with himself or herself to avoid such waste, especially should this be the case at this time of abnormally, if not dishonestly, increased prices for all commodities."

The son of Mr. and Mrs. George Williams, of Worton Station, was bitten by a dog at the home of Mr. William B. Parsons, on last Saturday evening. The child is about five years old and was bitten through the lower lip.

EVERYONE IS KNITTING

Sweaters And Wristlet Are Some Of Products. Women's Section Of The Navy League Began Movement That Is Spreading Rapidly.

"Knit, knit, knit, and keep on knitting!" That is the word being sent out from the Woman's section of the Navy League, which is located at 516 North Charles street and represented in Kent county by the Preparedness Committee. Mrs. Drayton, nee Miss Irma Eliason, of Washington, has interested the ladies of the different churches who are as busy as bees. Mrs. J. D. Bacchus and daughter are organizing "units" in different sections of Kent and the work promises to be extended. Knit sweaters, wristlets, mufflers, helmets, and, in fact, anything that a soldier at the front will be able to wear.

Form clubs in your neighborhood and spend as much time as possible in this sort of work. It is one way in which the women of our country can be of real service.

In England and France today there is hardly a woman who is seen without her knitting. She is working for the men at the front, and she devotes every spare moment to this work. Don't let it be said that the women of America are behind their European sisters.

Those wishing to do this work can secure an outfit at a moderate cost. Wool is the most expensive article, and the women of the League will be glad to have the co-operation of men willing to pay for some of the this wool.

A complete outfit consists of a jacket, muffler, wristlet and helmet. Each article is to be gray, and booklets may be obtained showing exactly how each garment is made.
