Crimson Clover

The supply of Crimson Clover Seed is lower in this country than it has ever been since it has been in use.

Knowing that it has no equal as a soil improver, and that our farmers could not easily find a substitute for it, we made the largest purchase of Crimson Clover Seed we have ever made and we are going to offer it until June 15th at less than the market price today for fancy seed. Our price until June 15th will be

$9.50 Bushel

If you are going to use any of this seed this year now is the time to buy it, We sold a very close buyer a month ago 30 bushels. He was posted on conditions. We will accept your order and make delivery of seed any time up to June 15th.

American Fence

On Tuesday we unloaded a large car of Fence, Barb Wire, Nails and Staples. Our stock on some sizes was completely exhausted and we were fortunate in being able to replenish so quickly. Market on all steel commodities is very strong and we look for further advances in fence. If you need it, better buy now while you can get it.

Yours to serve,

Can It Be Possible

that you are going to put in a Corn Crop this Spring without Fertilizing it? Don't you believe that Corn requires plant food as well as any other crop? And when you consider the price of Corn today at $1.35 a bushel and that you can fertilizer an acre for less than $2.00 it would pay you not only in the increased yield of Corn but in the Fodder alone it would be profitable. Think about this and consult us in regard to our Special Corn Fertilizer that is particularly adapted to this crop.

For Tomatoes

Well, you have heard of our Tomato Fertilizer. It is a wonder and we confidently believe that we sell more Tomato Fertilizer than any other manufacturer in this country. We do not mean that we sell more Fertilizer, but more Fertilizer for Tomatoes.

Our Fish Mixture is particularly adapted to the growth of tomatoes and in this goods we derive the Phosphoric Acid from the Fish, Rock and Bone and the Ammonia from the Animal matter on the Animal bone, Nitrate of Soda and Fish.

In order to grow a profitable Tomato crop it is necessary after you transplant the Tomato vine that it should never stop but keep growing, because if it gets stunted, it is like a stunted pig, it does not make a good hog, therefore the combination in our Tomato Goods feeds all along the line and never lets the plant stop growing and if there ever was a time when you ought to grow all the Tomatoes possible per acre it is now. Please correspond with us in regards to your Tomato goods.

Yours very respectfully,

A TERRIFIC STORM

Wind, Rain and Hail Visit Kent This Week—Many Crops Are Injured—2,000 Acres Wheat Partially or Wholly Destroyed.

A section of Kent county, reaching from the Chesapeake Bay two miles north of Tolchester and several miles wide extending to Chestertown, across Chester river to beyond Union school house, the terrific hail storm came roaring, sweeping nearly everything before it in the shape of growing crops, about seven o'clock Wednesday night.

Starting at J. T. Richardson's on Fairlee Farm on Chesapeake Bay, it came across Fairlee creek to the Hynson farm tenanted by Walter Coleman, then to Harry Rash, Jesse H. Usilton, Harry C. Willis, Howard Reese, George Carter, Linwood Sutton, Edw. A. Corey, E. E. Nicholson, W. T. Nicholson, H. S. Startt, Thomas Toulson, Jos. Everett, James French, C. Frank Crow, Raymond Bowers, H. H. Legg, W. Frank Jarrell, King farm, it swept through Chestertown, across Chestertown to E. R. Anthony's fine nursery and hot houses to Walter Elburn's gardens, A. F. Williams, Thomas J. Smith, Henry Smith, Albert Baxter, A. P. Foreman, Walter Stokes, Bart. Hynson Beck and others.

Over two thousand acres of wheat have been destroyed and many farmers are already preparing to plow up the land and put it in corn. J. Raymond Bowers had one solid block of one hundred and thirty-five acres cut as if by a mowing machine. Frank Crow had 85 acres. Potato plants, tomato plants and garden products of all kinds were cut off to the ground. Walter Coleman had twenty-seven window panes broken out. The mammouth oak tree which has stood for a century near Tolchester was blown across the road.

J. T. Richardson on Fairlee farm had 208 acres of splendid wheat destroyed, also lost 600 chickens besides all other growing crops, while E. A. Nicholson had nearly 100 acres mowed down.

Tuesday night an unoccupied tenant house on Calvert streat was blown down.

The big concrete bridge at Iron Hill, near Chestertown, was washed out and travelers made narrow escapes from going into the opening. It will cost about $1200 to replace same.

Jas. Brown had crops on farms injured by hail and two of his tenants have decided to quit.

H. H. Klinefelter has crops on three farms badly injured. Thos. Smith is plowing up part of his wheat with three plows.

E. W. Corwin's wheat is almost a total loss.

KENT ANSWERS THE CALL

More Than 1150 Present Themselves For Draft — No Slackers In Old Kent—Few Desire Exemption.

Tuesday was a historical event in the life of Kent county and not soon forgotten. This county did nobly. There were no slackers and the day had a solemnity about it that was impressive.

If there were any men between the ages of 21 and 31 who failed to report for registration the fact is not known.

The reports from the registration booths in the various precincts approximated the total registration for the county 1173.

The colored young men were not backward. They came in twos and threes all day and very few desired exemption. Many who desired exemption left that matter for later consideration.

George Comegys, of Pomona, was 21 years old Tuesday.

A colored man, 32 years old, came for registration, saying that he wanted a card to show the man what came to get him to fight.
