DECISION MADE IN CATTLE CASE

The application by John H. Clendaniel, of Kent county, for a writ of mandamus against the State Board of Agriculture of Maryland was refused yesterday by Judge Eli Frank, in an opinion filed in the Superior Court. The petition was dismissed.

The petition asked that the defendant be required to appoint an independent appraiser to act in conjunction with an appraiser already appointed by Mr. Clendaniel in making an appraisement of thirty-one head of cattle belonging to him and which had been condemned for being infected with tuberculosis.

Says Board Refused

According to the petition, the petitioner's herd was tested on March 14 and was condemned on March 17.

"Without reviewing in detail the voluminous evidence on this point," the opinion states, "it conclusively appears that, unless carefully handled, the entire State appropriation to the Board of Agriculture would be greatly inadequate for its purpose. It but a small proportion of the tuberculosis cattle in the State were to be ordered to be slaughtered, the funds available to pay indemnities to owners under the provisions of the law would enable but a very small portion of the owners to be paid.

"The board, from very financial necessity, would be justified in using quarantine only, without any indemnity, where that is safe and ordering killing only where that is necessary and the owner enters into the agreement for limited indemnity under the Federal agreement.

"I am not unmindful of the hardship imposed upon the petitioner by the quarantining of his cattle," the judge also stated in he opinion, "but he is being treated in the same way as every other cattle owner in the same situation is now being treated. I an unable to find that the State Board of Agriculture has abused the discretion reposed in it by law."

Clarence W. Perkins and Eben F. Perkins were attorneys for the petitioner, and Philip B. Perlman and John Hubner Rice, Assistant Attorney-General for the State board.

The Third National Bank
OF CHESTERTOWN, MD.
The Only National Bank in Kent County
"THE BANK WHERE YOU FEEL AT HOME."

SERVICE to customers is the aim of banks. REAL SERVICE of any kind is rare. It can only come where there is training, intelligence and spirit. It must come from the heart as well as from the brain. It is not perfunctory, it is the result of vision and of seeking the best interest of others. Its reward is sure and its results are confidence and satisfaction. When a bank says that it gives its customers real service, it makes a large claim. It no doubt does give excellent service in certain cases, but, after all, its average service is what it will be judged by. To make THIS bank average above the average is the task this bank has set before it. That we have not always succeeded is manifest, but the earnestness of the endeavor has brought definite results. It has awakened in our staff the desire to serve. It has put a spirit into our contact with our customers which is apparently appreciated. The real problem is to serve our depositors as well as to advertise to them, and building up good will can only come as, with the passing of time, the public realize that this institution is able and willing to live up to its promises of services as advertised; Better, Broader and More Helpful.
