# IT PAYS TO FERTILIZE A CORN CROP

Did you know, it pays to feed your Corn better than most any other crop, particularly with our regular Corn Fertilizer, that is especially adapted to its growth and maturity.

One of the requisites is to apply a sukcient quanity say: 350 lbs. to the acre, which is the amount used by the most successful Corn growers.

All of the County Agents and agronomists over the Country are now advocating the use of fertilizers on your Corn, as it not only increases the yield from 15 to 20 bushels more than the unfertilized, but also improves the quality, in that one user claims, he has now 50% more merchantable corn, than he used to have, before he commenced using fertilizer.

I know of one man, who bet his Son, it would not pay to use fertilizer, as he never had, they each put in a field, the young man fed his and the old man lost his bet, TRY IT.

## FOR TOMATOES

Use Our Peerless Tomato Fertilizer, this has been on the market for years and many of the most successful Tomato Growers, will use no other.

We had one customer, who grew 19 tons to the acre a few years ago, with our goods and we will be pleased to supply you.

# Our Responsibility and Our Obligation

**"The American Telephone and Telegraph Company accepts its responsibility for a nation-wide telephone service as a public trust. Its duty is to provide the American public with adequate, dependable and satisfactory telephone service at a reasonable cost."**

WALTER S. GIFFORD,
*President of the American Telephone and Telegraph Company*
*(Bell System)*

This expresses the policy which has guided the Bell System from its beginning. By a strict adherence to it there has been created a great, nation-wide system of communication which has placed every city, town and hamlet in the United States within reach of every other city, town and hamlet.

Alexander Graham Bell, the inventor, more than fifty years ago when the telephone was in its infancy, made the prophecy that such a nation-wide system would some day become a reality. It *has* become a reality, because from the very beginning of the industry down to the present time the management has continuously worked with this objective ever in mind.

The very nature of the telephone business necessitates a single interconnected system. It is, therefore, without competition in the usual sense. This in itself imposes an exceptional responsibility and obligation, *amounting to a public trust.* Speculative profits have had no place in its development. Always the management has had before it the ideal of rendering a service as nearly perfect as possible, at rates as low as would be consistent with financial safety—thus to encourage the most wide-spread use of the service throughout the nation.

The result is that today the United States, with only 6 per cent of the population of the world, has 60 per cent of the world's telephones. And at no time in the history of the industry has greater progress been made in the development of the telephone art than is being made at the present time.

# ARE YOU SKEPTICAL OF 5c CIGARS?

We don't blame you. Read *this:*

You've smoked 'em bitter; smoked 'em "flat." You've had 'em crumble in your mouth or burn lopsided. You've probably given up the idea that 5c can buy an enjoyable cigar. But—just to show you that a really fine-tasting, clean-burning cigar *can* be made for a nickel—we ask you to try *Havana Ribbon.*

*Havana Ribbon* is the pride of one of the world's largest cigar manufacturers. As different from ordinary five-centers as juicy-ripe apples are different from green or over-ripe. And that's just the secret: *It's ripe tobacco*—long-filler, uniform, evenly-laid. No short ends or "scraps." No bitter *under*-ripe top leaves; no insipid *over*-ripe bottom leaves. Only choice *fully*-ripe middle leaves age-mellowed and cured to the sweetest, mildest flavor you ever tasted in a cigar selling for so little. Get out a nickel quick. There's a cigar counter near. And the counter-sign is—*Havana Ribbon.* Also *Practical Pocket Packages* of five cigars.

# BETTERTON

Mrs. Stella Groves and two daughters, of Baltimore, spent the week end at her bungalow here.

Mrs. Unruh and daughters, Misses Ruth and Beulah are spending the week at their home here.

Beginning tomorrow the summer schedule of the Methodist Church will go into effect, Sunday School at 10 a. m.; preaching service at seven forty-five and prayer meeting at seven forty-five Wednesday evenings.

The Epworth League held a very successful and enjoyable lawn fete on the church lawn last Friday evening. Strawberries, ice cream, cake, candy and grab bags were sold.

The fishing season has closed and everyone is busy preparing for the summer season. A great many improvements are being made and quite a large number of people are coming in for the week end, each week.

The new concrete road has been opened for travel and now work is being done on lowering the cement walk in some places and raising it in other places where the road bed was dug out and filled in.

A number of the members of St. Johns Chapel attended "Old Friends Day" at St. Pauls church last Sunday.

Delegates from the Methodist Church attended the county wide Sunday School convention at St. James Church on Wednesday. The next convention will be held at Chestertown Methodist Protestant church.

Mrs. Violet Crew entertained the Ladies' Aid Society at her home on Friday afternoon and Mrs. George Brice entertained the Epworth League at their monthly business and social meeting at her home, Bayside Inn, Thursday evening.

Mrs. Catherine Ellis has opened her summer home, The Idlewhile, and she and her family will stay until fall.

Misses Naudain Moore and Elizabeth Crew and Messrs. Howard Beauchamp Owens and Talbott Brice are at home from school for the summer vacation.

Miss Kaherine Wheeler is among the graduates of the Maryland State Normal School.
