MR. FARMER

Do you know that within the past eighteen months the Maryland-Virginia Joint Stock Land Bank of Baltimore, through Wm. Frazier Russell Jr., its attorney, has loaned to Kent County Farmers more than $90,000.00?

Do you know that you pay no bonuses or commissions to secure a loan through this bank?

Do you know that when you borrow $1000.00 you get a draft for $1000.00?

Do you know that every time you pay your interest you cut down the principal mortage indebtedness?

Your neighbors are getting "wise." It will cost you nothing to learn.

Write to or call upon,

WM. FRAZIER RUSSELL, JR., Att'y,

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not ordered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared t meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.

Order of Publication

SUSAN ELIZABETH WILLIS, SUSAN ELIZABETH WILLIS, ADMINISTRATRIX OF HENRY BLAKE, DECEASED, PLAINTIFFS

vs.

THE UNKNOWN HEIRS OF HENRY BLAKE, DECEASED.

IN THE CIRCUIT COURT FOR KENT COUNTY
IN EQUITY NO. 2552

The object of this suit is to procure the sale of two small lots or real state located in the Seventh Election District of Kent County, Maryland, of which Henry Blake, late of said Kent County, deceased, died, seized and possessed, in order to pay to Susan Elizabeth Willis, the following accounts: the balance due on his funeral expenses amounting to $75.00; doctor's bill in the amount of approximately $90.00; drug bills in the amount of approximately $50.00; board bill during the year 1914, $52.00; board bill during the year 1915, $45.00; board bill during the year 1916, $125.00; board bill during the year 1917, $250.00; for rent of house occupied by Henry Blake, $25.00; for taxes from years 1915 to 1927 in the amount of $44.47; and the expenses of administrating his estate to said Susan Elizabeth Willis, Administratrix, as well as the debts of all other creditors of said Henry Blake, who will come in and contribute to the costs of this suit.

The Bill of Complaint recites that the said Henry Blake died on or about July 22nd, 1917, intestate in said Kent County, Maryland, without personal property sufficient to pay his debts, funeral expenses and costs of administration, that the Plaintiff, Susan Elizabeth Willis paid the balance due for the funeral expenses of the said Henry Blake amounting to $75.00 and the said Susan Elizabeth Willis paid the other accounts of the said Henry Blake. That as chief creditor she applied to the Orphan's Court for said Kent County for letters testamentary on the estate of said Henry Blake and that such letters were granted her and notice has been given to creditors of the said Henry Blake to file their claims duly authenticated against said estate, but that there was not sufficient personal property of the said decedent to pay his debts and costs of administration of his estate but that he the said Henry Blake was seized and possessed at the time of his death of two lots of real estate located in the Seventh Election District of Kent County, Maryland, containing about 3.1 acres of land more or less, and that the plaintiffs pray that on account of the insufficiency of his personalty that the said real estate be ordered by this Court to be sold to pay the debts and expenses of the administration of the estate of the said Henry Blake. And that an offer has ben made by Harry F. Jefferson of Chestertown, Marvland, to purchase the hereinbefore described property at and for the price of $550.00 upon the transfer of the above property to him by the trustee to be appointed in this case and upon the conveying to him of a fee simple title of the hereinbefore described property and that plaintiffs pray that the trustee to be appointed in the above entitled case be authorized to make such sale to the said Harry F. Jefferson at and for the price of $550.00 and upon the consummation of said sale that it be ratified and confirmed by this Honorable Court.

That your Complainants know of no heirs left by the said Henry Blake and that if the said Henry Blake left heirs they are unknown to your Complainants but if there are any unknown heirs they are prayed to be proceeded against as against non-residents of the State of Maryland.

It is thereupon, this 3rd day of January A. D., 1929, by the Circuit Court for Kent County, in Equity, ordered that the Plaintiffs by causing a copy of this order to be inserted in some newspaper published in the said Kent County, Maryland, once in each of four successive weeks before the 4th day of February A. D., 1929, give notice to the above entitled unknown heirs of the said Henry Blake, deceased, resident or non-resident, of the State of Maryland, warning them to appear in this court in person or by Solicitor on or before the 18th day of February, A. D., 1929, and show cause, if any they have, why a decree ought not to be passed as prayed in said Bill of Complaint.

ROBERT A. SHALLCROSS, Clerk.

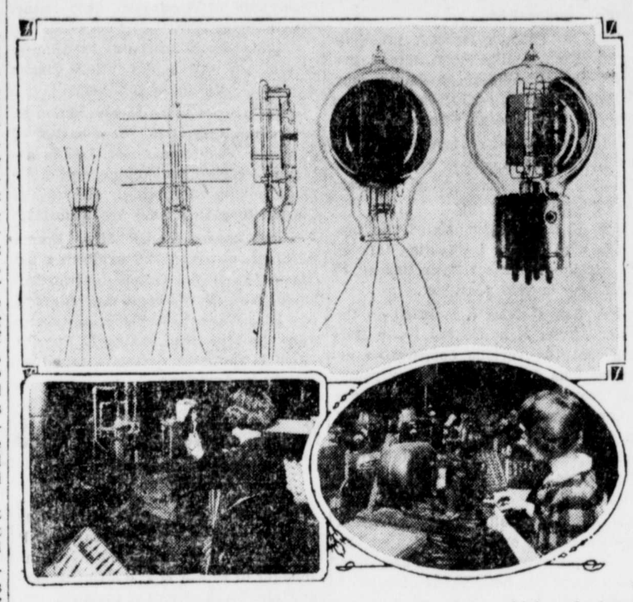
DISTANCE MAY MAKE HEART FONDER—REPEATER MAKES DISTANCE SHORTER

Vacuum Tube Repeaters, Product of Bell System Research and Development Department Has Revolutionized Telephone Communication—May Now Talk Almost Anywhere From Any Telephone



Evolution in the manufacture of vacuum repeater tubes which make long distance telephone calls shorter. Left to right: stem press, stem press and arbor assembly, mount, tube after sealing off pump station, and completed tube. (Bottom, left) Glass sealing tube mounted into pump. (Oval) Operator electric welding the grid in the tube.

Whether distance makes the heart grow fonder is a mooted question, but the telephone repeater has certainly made long distance shorter. People are talking long distances more and more every day, and many of them have asked the question, "Why is it now possible to talk almost anywhere, even across the continent or to more distant countries over the ocean and be able to hear clearly and distinctly, just as if one were talking across the street." There must be something else beside the telephone wires involved in the connection, they say. Quite so, and this something else is the telephone repeater. A little unobtrusive device that makes it possible for people to talk great distances from any telephone.

Telephone repeaters are a product of the Research and Development Department of the American Telephone and Telegraph Company and are now being used literally by tens of thousands.

Without repeaters telephone engineers say that commercial conversations could not be carried on successfully over more than about 50 miles of cable circuit of the type now used by the extensive cable system which serves the eastern half of the United States.

The first telephone repeater was installed in 1904 on a telephone line connecting Amesbury with Boston, Mass. After using this repeater for several years the telephone engineers were able to develop the vacuum tube repeater which is the type now in general use.

Telephone repeaters are vacuum tube amplifiers similar in principle to the amplifiers used in radio receiving sets. The first important use of this type of telephone repeater was on the transcontinental circuit established between New York and San Francisco in 1915. Since that date the use of the telephone repeater has increased by leaps and bounds and until today there is hardly a long distance connection for a distance further than 100 miles that does not employ a telephone repeater.

TELEPHONE PROVES EFFECTIVE AT PAN-AMERICAN CONFERENEC

Individual Receivers and Amplifying System Allow Addresses To Be Translated Into English or Spanish By Interpreter

Pierre de L. Boal, Secretary of the Pan-American Conference at Washington, left, listening to Chief Interpreter Benjamin Cohen translate a speech.

The Pan-American Conference on Arbitration and Conciliation held at Washington recently at which all of the Pan-American countries were represented, employed a unique but effective communication system whereby the difficult question of languages was solved.

Each of the delegates had a small telephone receiver installed at his desk. This receiver was connected with an amplifier and microphone system installed by the Chesapeake and Potomac Telephone Company so that an interpreter, Benjamin Cohen, one of the most skillful translators in Washington, was able to interpret from English to Spanish for the benefit of the Spanish delegates when an English speaker was addressing the conference.

He also translated for the benefit of the English speaking people when a Spanish delegate had the floor. Mr. Cohen by the use of this apparatus was able to translate rapidly from one language to another following the speaker closely and in full detail.

Not alone did he translate the two languages used at the conference, but he embellished his translation with current idioms of the English or Spanish in the exact words of the speaker.

Mr. Cohen, a Chilean by birth, was former secretary of the Chilean legation. From a lengthy experience with South American affairs he is able to keep abreast of the latest developments in Latin America. This was his second important post at an international conference. He served in a similar capacity, but without the aid of the telephones, at the Pan-American Conference at Havana in 1927. For this service he was given a vote of thanks by the Conference on motion of Charles Evans Hughes, former Secretary of State.
