CRISIS OF WOMAN'S LIFE

Change Safely Passed by Taking Lydia E. Pinkham's Vegetable Compound.

Wagoner, Okla.—"I never get tired of praising Lydia E. Pinkham's Vegetable Compound because during Change of Life I was in bed two years and had two operations, but all the doctors and operations did me no good, and I would have been in my grave today had it not been for Lydia E. Pinkham's Vegetable Compound which brought me out of it all right, so I am now well and do all my housework, besides working in my garden. Several of my neighbors have got well by taking Lydia E. Pinkham's Vegetable Compound."—Mrs. VIOLA FINICAL, Wagoner, Okla.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women. Lydia E. Pinkham's Vegetable Compound has carried many women safely through the crisis.

THE NEW ARMY'S DUTIES

Hard Work And Study Ahead—Rookies Also To Have Plenty of Amusement At Camp And Furloughs Will Be Hard To Get.

Every member of the drafted army from Maryland who is to enter Camp Meade next week would do well to go over his past life, see what he has done, what he is good for, what he is not good for and then, after the examination, be ready to sum up his qualifications and disqualifications.

Every draftee will be asked to tell an abundance of things about himself, almost from babyhood to the present time. He is to tell among other things what kind of an education he has, whether or not he knows anything about electrical engineering, mechanics or other similar branches. In a word every applicant is to be classified, so that the government may be able to size him up accurately and use him to the best advantage.

Every man who goes there will be given the once-over several times. The first thing he will do will be to take a bath. Then if it is meal time, and he is hungry, he will get something to eat. Afterward he will be given a physical examination which will be much more rigid than the one to which he was subjected when summoned by the draft board. He will be vaccinated and inoculated.

No Time For Idling.

The new soldiers will learn from the beginning that the camp will be a place where they must work and study hard. They will have impressed upon them from the first day that their task in life—at least their immediate task, is to learn quickly how to fight the Germans. To help them in this laudable ambition, officers who have served in the war zone with the Allied Army, who know all the tricks of their own armies as well as some of the effective ways of making trouble which the Germans have, will be on hand to help drill the rookies. The drafted men will have to work hard many hours of the day. They must make up their minds for that—for most of them will work harder than they ever have worked before. They probably will get use to it in a few weeks, but they must be reconciled to having some stiff muscles the first 10 days.

However, the army officials know how to season men. They lead the rookies up gradually to the most difficult part of the work. There will be no overtaxing of the energies of the men. The officers who have been put in charge of the camp are men of wisdom and experience and they have been given the job of supervising the training of these men because they have proved that they are familiar with such work. Many of the men who are to lead in the training of the soldiers have come from Honolulu, the Philippines, from across the ocean. There are many noncoms from the regular army now at the camp.

While the men will have the importance and seriousness of their work emphasized, the officers in charge want the folks at home to get the same view of things. There will be nothing at the camp akin to county fair. It is to be a military school whose graduates are to go into the trenches to beat the Boches. They will need every help they can get from the people at home, and the best help they can have is noninterference with the work.

Furloughs Hard To Get.

For this reason furloughs to the men and passes to slip home will be hard to get. There must be some good reason for them. By the same token, though arrangements will be made for the men to see visitors, such visitors will not be allowed to swarm through camp. A great part of the work must be kept secret, even from those who have a special claim on the affections of the men and who will be curious to learn their way of doing things.

The Government will take charge of the draftees through the officers at the camp. The officers will look out for their military training, the doctors will take care of their physical health and the Y. M. C. A., the Knights of Columbus and the chaplains of the various denominations will attend to their spiritual needs. There will be no excuse for the people at home to worry or to try to interfere.

The men will have plenty of amusement. The officers will see to that. They will even have a chance, many of them, to follow out the lines of work they did at home. The singers will be given a chanse to sing and the actors to act, etc. Even the poor newspaper men who are no good for anything else on earth, as far as some biased people think, will have a chance to feel at home. There is to be a camp paper run by newspaper men among those drafted. There are several Baltimore scribes in the Maryland contingent, while Philadelphia, New York and Washington will contribute some. There will be some cartoonists among the men.

Keep The Nests Free Of Vermin

Keep your nests and hens free of vermin and you will get more eggs. Lice sap the strength of the hens and prevent them from laying freely. A liberal use of BEE BRAND INSECT POWDER will get rid of the bugs. By using the powder at regular intervals they will be kept down. Harmless to human beings and domestic animals.

Bee Brand Insect Powder

fan it into the air.

Flies and mosquitoes die in a few minutes. Will kill ants, fleas, roaches, bed-bugs, lice, and bugs of every kind. Directions on package. Look for the Bee Brand Trade Mark.
