Your Coal Supply

The "Buy Coal Now" appeal by the Government last Summer exceeded all plans.

Now that heating season is here, it is the desire of the Government and the Coal Trade that the supply be disributed so all will have Winter Requirements.

If you have no Coal, place your order and allow as much time as possible for delivery, and accept delivery of the available sizes, where there is a temporary shortage of your favorite size.

Consumers who have supplies should co-operate by withholding orders until there is Coal in Every Bin. This is the American Way.

What You Buy With WAR BONDS

The 50-caliber Browning machine gun is one of the most efficient short range weapons used by U. S. Fighting forces. It is effective at ranges up to 2,000 yards and fires about 600 forty-five caliber bullets per minute.

One of these guns costs about $1,500, while a thirty-caliber machine gun costs approximately $600. Our fighting forces need thousands of these rapid-fire guns. Even a small town or community can buy many of them by uniting in the purchase of War Bonds. At least ten percent of your income in War Bonds every pay day will do the trick. *U. S.
