The Rascals that Must Go.

The editor who formulated this campaign shibboleth has provoked more intense and general indignation than he could possibly have anticipated. Why it is we do not know, but it seems to be a fact, nevertheless, that almost everybody in office finds marching orders in the expression, "Turn the rascals out."

Who are the rascals who are to be turned out, and to insure whose exit the defeat of their party is necessary? There are about 105,000 men in executive offices. That a majority of these are honest and capable may be fairly assumed. But there are bad men in every department of the public service. There are men in office, not only in Washington, but all over the country, who would not be trusted by their neighbors with half the responsibilities that the Government has placed in their hands. There are some thousands of men who hold offices that were given to them as payment for dirty work. Among these are rascals who will be turned out and kept out, for the era of reform is here, and public offices will not much longer be used as currency to pay political debts.

Officeholders who act upon the theory that their first duty is to the party, and who give to the work marked out by the bosses the time for which the people pay, are getting money that they do not earn and never intended to earn. These are dishonest men. They must go.

Officials who get or try to get fees for services not rendered—as is the case with some hundreds under the Department of Justice—are among the rascals who are going to be put out.

Officials who use public funds to aid their party, whether in Virginia, as exposed by Dezendorf, or in Michigan, as related by Jay Hubbell, or in any other State or locality—these are some of the precious rascals who must join the procession.

Officials who, on any pretext, use public property for personal pleasure or profit belong to the class whose exit is demanded. It is a numerous class, and it has flourished and grown bolder and bolder year after year. But—it must go.

Officials who conspire with outsiders to defraud the Government in purchasing supplies constitute a dangerous and, we have reason to believe, a numerous class of the rascals that are to be turned out.

All officials, of all departments and branches, who are dishonest and unfaithful, who will not give and who do not intend to give fair service to the Government, who look upon office as a personal perquisite rather than a public trust—all such should prepare for the exodus.

Lightning Rods.

The season when the lightning rod man flourishes in the Northern States is now at hand, and many correspondents are anxious to learn what we think of this rod and that which is peddled around the country. What must be regarded as sensible and scientific views can be very briefly presented. A good, safe lightning rod should be made of copper, and the size should be known as 000 wire, weighing about four pounds to the foot. This wire may be attached to buildings by iron loops, so as to secure firmness and durability. No "glass insulator" should be used. The rod should pass along the ridge of the roof of the building and run up the chimneys three feet above the top and terminate in a sharp point; a point may be run up from the gables with a point. There may be one or more ground terminals, but they should be carefully selected. If a well is convenient it should run to the bottom of that. A cistern does not afford a good termination. If no well is near the premises dig a deep hole in the ground, so as almost or quite to reach water, and carry the rod into it, with several diverging points, terminating in a bushel of coke or charcoal. A person of good understanding can place their own rods better than most peddlers.—Popular Science News.

Meant for You.

In a recent sermon a notable divine said: "My friends, go home, but do not talk about this sermon and say, 'I wish my boy had been there this morning;' you are here, anyhow. Don't look across the street and say, 'If that shrew had been there, she would have got a good lesson.' You are here. Carry it into your household. Say to your children, as they mark your imperfections in these respects, 'I confess my sin.' Let it be the law in your family; speak evil of no one, rejoice not in anybody's failings, ridicule none in such a sense as shall diminish their standing with others, or be a source of pain to them. Carry yourself as the sun carries itself to-day riding in the heavens. There is not an insect so gauzy, there is not a worm so mean, there is not a moss so small, there is not a tree so tall, there is not one single, solitary thing that has a drop of life in it which the glorious sun does not treat like a prince, pouring its own light and life and warmth on it and into it. Do thou like the sun. Carry light and warmth and sweetness, and so shall ye be the children of God."

Fun and Frolic.

AN IDEAL.

As a babe, mother's pet;
Pretty as ever met.
As a child, pert and bright,
Filling all with delight.
As a maid, pure and fair,
Of fairy gifts her share.
As a wife, some one's pride
To be along life's tide.

A swell affair—Filling a balloon with gass.

Deaf to all warnings—The amateur mountain-ear.

A peculiarity of the clock is that as soon as it strikes it goes on with its work.

To succeed, be reticent! Samson would never have overthrown the Phillistines had he not held his jaw.

When the hen with chickens attacked the small boy in his mother's yard she informed him that she had been laying for him for some time.

Light through darkness: His Honor—Are you guilty or not guilty? Prisoner—'Spects I'se guilty, sah; but I'd like to be tried all de same.

"I expect to get along well," replied a laborer, who after digging twenty feet for water, was still at work. The inquirer saw the point.

Little drops of lager.
Little sips of gin,
Make the red proboscis,
And consume the "tin."

Entrance on Fayette Street.

A Puzzled Jury.

A patent right suit was on trial before Judge Nelson, in the U. S. Dist. Court at Albany, many years ago. William H. Seward was counsel on one side, and spent a whole day in summing up the case. The counsel on the other side also made a lengthy speech, and the judge charged the jury. After being out about two hours, they came into court, and the foreman said: "Your Honor, the jury would like to ask a question."

"You can proceed."

"Well, your Honor, we would like to know what this suit is about."

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cure wind colic, softens the gums, reduces inflammation, and gives tone and energy to the system. MRS. WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents. 4-21-1yr

Fine Cabinet Photographs, $3 per doz

On and after April 9th, 1883, the Steamer CORSICA will leave Chestertown every Monday, Wednesday and Friday at 12 o'clock midnight for Centreville, via Corsica Creek, thence to Crumpton, stopping at the intermediate landings. Returning will leave Crumpton every Tuesday and Thursday at 3 o'clock P. M., Chestertown at 6 o'clock P. M., stopping at Rolphs, Bookers and Quaker Neck, and will leave Centreville (Corsica Creek) at 8 P. M for Baltimore. On Saturday will leave Crumpton at 12 M., Chestertown at 3 P. M., and Centreville at 5 P. M., arriving in Baltimore before midnight.

Freights received daily and carried at low rates.

GEORGE WARFIELD, President.

BROWN'S IRON BITTERS.

THE BEST TONIC.

Cures Completely Dyspepsia, Indigestion, Malaria, Liver and Kidney Complaints. Druggists and Physicians endorse it.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

The Wonderful Efficacy of

DR. SCHENCK'S MANDRAKE PILLS

Has been so frequently and satisfactorily proven that it seems almost superfluous to say anything more in their favor. The immense and constantly increasing demand for them, both in this and foreign countries, is the best evidence of their value. Their sale to-day in the United States is far greater than any other cathartic medicine. This demand is not spasmodic, it is regular and steady. It is not of to-day or yesterday, it is an increase that has been steadily growing for the last thirty-five years. What are the reasons for this great and growing demand?

Dr. Schenck's Mandrake Pills contain no mercury, and yet they act with wonderful effect upon the liver. They cleanse the stomach and bowels of all irritating matter, which, if allowed to remain, poisons the blood, and brings on Malaria, Chills and Fever, and many other diseases. They give health and strength to the digestive organs. They create appetite and give vigor to the whole system. They are in fact the medicine of all others which should be taken in times like the present, when malarial and other epidemics are raging, as they prepare the system to resist attacks of disease of every character.

Dr. Schenck's Mandrake Pills are sold by all druggists at 25c. per box, or sent by mail, post-paid, on receipt of price.

Dr. Schenck's Book on Consumption, Liver Complaint and Dyspepsia, in English or German, is sent free to all. Address Dr. J. H. SCHENCK & SON, Philadelphia, Pa.

CHARLES A. MILLER'S

[TRADE MARK.]

QUINTESSENCE OF

Phosphated Iron Quinine and Strychnia.

Put up in Pills and in Liquid Form.

And is a sure cure for DEBILITY resulting from ANY CAUSE, thinness or sluggishness of the BLOOD, derangement of the digestive organs, diseases of the nervous system, typhus, typhoid and intermittent fevers, ague and fever, and is the very best counteracter of MALARIAL INFLUENCES and cure for marial diseases, and as a nervine and sedative, quieting the nervous system and inducing refreshing sleep it has no equal. It is indorsed by medical practitioners here and is frequently prescribed by them in their practice, and is considered one of the very best remedial agents known for the diseases for which we recommend it. We challenge the closest scrutiny into its composition and virtues.

Read the following:

EXPLANATION OF THE ABOVE MEDICINE.

PHOSPHORUS means light and medically imparts strength and vigor to the system, as the rays of the sun do to animal and vegetable life.

IRON is a purifier and enricher of the blood, the most important of the constituents of the human body.

QUININE is the Tonic of Tonics, and exercises a powerful and healthful influence upon the digestive organs, and finally,

STRYCHNIA in very small proportions (as in this combination) is a most excellent nervine, acting upon and regulating the entire nervous system.

Ask your physician about the above formula and he will say it is good.

PRICE in large bottles one dollar.
" " trial " 35 cents.
" " Pills in boxes, one dollor per box, or six boxes for five dollars. Sent by mail to any point, free of charge, upon receipt of price.

Prepared and sold by

DAVIS & MILLER,

No. 12 N. HOWARD ST., BALTIMORE, MD.

A pamphlet of full explanations of the above Medicine, and treating of its composition and administration and stating the diseases to which it is applicable, will be cheerfully given to any one who may call on me, or will be sent free to any address furnished by postal card, and will also hereafter accompany each bottle.

NEW GOODS.

H. BLACKISTON & SON

Have just returned from Philadelphia with another stock of cheap goods, which have been selected with great care and bought at the lowest cash price. Close buying for cash enables us to sell our customers good bargains. If you are in want of any kind of goods give us a call and see what bargains we can offer you.

We especially invite your attention to our stock of ready-made clothing, boots and shoes, hats of different kinds and as low as 8 cents. we have enlarged our store room by fitting up an extra room in the rear where a large amount of goods are kept from public view. We have been compelled to do this because of our increasing trade and for lack of room, but if you do not see what you want ask for it. Our stock is large and complete. we will do our best to give satisfaction to our customers.

FARMERS,

USE

ORCHILLA GUANO

"The Best and Cheapest"

FOR ALL

CROPS.

The history of Agriculture for the last seventeen years records no greater triumph than has been exhibited in the annual results of the use of

ORCHILLA GUANO

IN THE PROMOTION OF THE GROWTH OF

GRAIN AND GRASS

and in the improvement of the soils to which it has been applied. The large aggregate to which its sales now reach, proves at once, its popularity and its worth.

Its claim to favor arises from—

1st. The Valuable Constituents of which it is Composed: being just what growing plants require for perfect growth, and just what is needed to make poor land rich.

2d. Its Perfect Chemical Combination: which no human skill or mechanical contrivance can successfully imitate.

3d. Its Perfect Purity: there being only 1½ per cent. of dross, contained in it. In other words, it is *all* fertilizer.

4th. And all this at a Low Price.

The *most eminent Chemists* of our land have repeatedly analyzed it and certified to these facts. But farmers have been so often imposed upon in buying fertilizers, that they have learned caution, and therefore, even so valuable an article as ORCHILLA, has to win its way.

BY ITS MERITS.

This it is doing; and as it makes friends, it keeps them. Those who have used it longest, use the most of it.

Our claim for the value of Orchilla Guano is a high one; but we have the testimony of thousands of farmers who use it, that it is not an extravagant one.

And now comes additional evidence so conclusive that all controversy is silenced:

THE DEPARTMENT OF AGRICULTURE OF VIRGINIA,

WAS ESTABLISHED PARTICULARLY FOR THE

protection of farmers in the detection and prevention of imposition in the preparation and sale of fertilizers, the purchase of which, in our day, constitutes so large, important and necessary a portion of a farmer's expenditures Dr. J. M. BLANTON, himself a successful farmer, and for a number of years past, the GRAND MASTER OF THE STATE GRANGE OF VA., was placed in charge of the Department 1st year, and immediately proceeded to take vigorous measures to carry out the intention of the law. Among other things he dispatched his "*samplers*" all over the State to obtain samples of any and all fertilizers offered or sold to the farmers of the State wherever they could find any, and forward them to his office at Richmond. There they were numbered and given for analysis to Dr. W. J. GASCOYNE, the Chemist of the Department, who also calculated and certified to the *actual value* of each, according to the constituent parts he found in them. The result of his work for the fall season of 1882 is embodied in the official report published. In this report, analyses of 76 samples of fertilizers are given; and the *commercial value* of the constituent parts of each, is stated. According to it, many of them are not worth the prices asked for them! Of those which are, very few can show an excess of 10 per cent., whilst ORCHILLA, *for surpassing all others, is certified to be worth about 50 per cent., over the price asked for it!* [Send to us for a copy of this Report.]

We take pride in having this high, disinterested and incontrovertible endorsement of our *claim that Orchilla Guano* is the

"CHEAPEST AND BEST" FERTILIZER IN THE MARKET.

Send for our little book containing verbatim copies of letters from some of the most successful farmers of the country, who have used Orchilla Guano for years and will have nothing else, the burden of whose story is—

"IT HAS MADE OUR POOR LANDS RICH."

NEW HOME

SEWING MACHINE.

The undersigned, feeling thankful for past patronage, wishes to state that any person having a Sewing Machine, bought of me during the past ten years I have been selling them, which does not give satisfaction and run as lightly as when sold, I will fix the machine free of all charge. Any parties wanting a First-Clas Sewing Machine, please inform me by postal card a Hurlock's Station, Dorchester county, Maryland, and let me show them the merits of the

LIGHT RUNNING NEW HOME OVER ALL OTHERS,

and I will be obliged to them, whether we deal or not. I will be in Denton the 4th Tuesday of every month, and for two or three days after.

F. L. THOMAS, Hurlock's Station, Dorchester Co., Md.
