Another solemn warning .- A lovely daughter, aged 3 years, the only child of Mr. Lewis Dunham, of this city, was last evening burned to death! The father was assent from home .--The mother, while she went for a pail of water, left the child alone upon the carpet, amusing itself with toys. The candle was burning on the table. It was about two minutes when the mother returned; and, on opening the door, she beheld her little daughter enveloped in dent it. Washington county, dated the 29th flames! She screamed aloud as she flew to the child and caught it up in her arms. The cries of the mother and child gave alarm to the family in another part of the house, who all instantly rushed to the scene of calamity. It was too late to afford relief. A physician was called in, but of no avail. The abdomen, chest, and face of the little creature was literally burnt to a crisp, and presented a truly heartrending spectacle. About 4 hours of the most awful suffering that can be imagined, and her little heart was still!

Is the reader a parent? If he is, let this event be to him a great and solemn warning never to leave a little child or little children alone with fire, or with lights for a moment. For, what is there on earth that can heal the afflicted soul of this mother, or bind up her wounded heart?
