DENTON JOURNAL.

Published Weekly, Every Saturday Morning, by
MELVIN BROS.

Saturday Morning, June 7, 1884.

[CONCLUDED FROM FIRST PAGE.]

He spoke to the cross-eyed boy, the crowd; and the boy rang the bell without a word.

"The scholars will take their seats; I open school with prayer," he said sternly, a minute later.

The scholars sat down silent, almost breathless.

After prayer the teacher cocked a revolver and walked down the floor.

"We will arrange the classes," he said. "All who can read, write and spell will rise; of them we will form the first class."

Only six got up. H escorted them to upper seats, and began to examine the rest. A whisper was heard behind him. In a second he wheeled, revolver in hand.

"No whispertng allowed here!" he thundered, and for an instant his revolver lay on a level wite the cross-eyes.

"I'll not do so any more," gasped the bully.

"See that you don't. never give a second warning," said the teacber, and the revolver fell.

It took two hours to organize the classes, but when done, they were well organized. Then came recess. The teacher went out too, for the room was crowded and hot. A hawk was circling overhead high in the air. Our teacher drew a revolver, and the next secone the hawk came tumbling down among the wondering scholars.

From that day on Harry kept school for two years in Cranberry Gulch, his salary doubled after the first quarter, and his pupils learned to love as well as respect him, and the revolvers went out of sight within a month.

They found a man at last who could keep school. This is a fact.

All must admit the truthfulness of the statement.

QUININE is the Tonic of Tonics, and exercises a powerful and healthful influence upon the digestive organs, and finally,

STRYCHNIA in very small proportions (as in this combination) is a most excellent nervine, acting upon and regulating the entire nervous system.

Ask your physician about the above formula and he will say it is good.

ALABASTINE
A Superior Substitute for Kalsomine, etc.

Alabastine is the *first* and *only* preparation made from calcined gypsum rock, for application to walls with a brush, and is fully covered by patents and perfected by many years of experiments. It is the only permanent wall finish, and admits of applying as many coats as desired, one over another, to any hard surface, without danger of scaling, or noticeably adding to the thickness of the wall, which is strengthened and improved by each additional coat, from time to time. It is the only material for the purpose not dependent upon glue for its adhesiveness. Alabastine is hardened on the wall by age, moisture, etc., while all kalsomines or whitening preparations have inert soft chalk and glue for their base, which are rendered soft or scaled in a very short time.

In addition to the above advantages, Alabastine is less expensive, as it requires but one-half the number of pounds to cover the same amount of surface with two coats, is ready for use by adding water, and easily applied by any one.

For sale by your Paint Dealer. Ask for Circular containing Samples of 12 tints, manufactured only by the ALABASTINE CO., M. B. CHURCH, Manager, Grand Rapids, Mich.
