Combat Photographer

U. S. Marine Corps Photo

Sergeant Charles W. Smith of Lansdowne, Pa., is one of many Marine Corps combat photographers who today are shooting films and bullets on many battlefronts of World War II. Leatherneck photographers qualify as full-fledged Devil Dogs before being dispatched to battlefronts and outposts as members of Marine Corps units.

Answer Call to Colors

Cadets of the Marine Corps Women's Reserve Officers' Training School at Northampton, Mass., salute the colors. Upon graduation the cadets will be assigned duties which will free Marine Corps officers to fight.

"Community Organization in Charles County, Maryland," is the title of a bulletin just issued by the University of Maryland Experiment Station. The bulletin gives a description of social organization in that county and also shows something of the social change which has already taken place due to the presence of war plants and service training centers in Charles and adjoining counties. The authors, Dr. Linden S. Dodson of the department of Sociology at the University of Maryland, and Jane Woolley of the Bureau of Agricultural Economics, U. S. D. A.

A letter written on July 20 by Sergt. William I. Sutton, U. S. A. of this county to relatives and friends, states that he has been in action with the Allied forces in Sicily. At the time of writing the letter, Sergeant Sutton stated that he was well and happy and was expecting to be in action again shortly. He also stated that the food served there is better than any he has had since being in the service.

To freeze ice cream in a vacuum freezer pack in the same manner as when a crank freezer is used. Several times during the two hours that are necessary for freezing, remove enough ice so that you can uncover the can without danger of salting the cream; scrape the mixture from the sides of the can with a spoon or paddle and beat thoroughly.

What You Buy With

WAR BONDS

Booby Trap Detector

In the snow, in the sand, on the beaches, on the roads, in the woods, everywhere the Axis soldiers hide "booby traps," to slow the movement of oncoming fighting men of the United Nations. The detector does the same work on land as the mine sweeper does at sea.

Like buying **War Bonds**, the soldier operating the detectors will never know just how much they have aided in the success of their campaign, but he knows his work is necessary and must be accomplished. If more Americans on the home front will come to realize this, the success of our **War Bond** campaigns will be assured.

KEEP THE U. S. VICTORY BOUND!

KEEP ASSEMBLY LINES MOVING!

This is a war of production.....a war that will be won on the assembly lines! Our job is to keep our boys BETTER equipped and BETTER supplied than the enemy forces. Did the boys at Bataan and Corregidor fail because they had no ability.....no courage? Certainly not! They failed because they lacked the proper equipment! This MUST NOT happen again! Our factories are geared for maximum production.....they cannot operate without our support. That's why it's so necessary to buy more and more bonds. VICTORY depends on each one of us!
