But we publish the account of this tremendous meeting of twenty five Simon Pures—of whom, perhaps about FIFTEEN constituted the GREAT DEMOCRATIC PEOPLE.

Proceedings of the Democratic Meeting in Talbot.

At a meeting of the Democratic Republicans of Talbot county, convened at the Court House in Easton, on Tuesday the 21st inst. agreeably to public notice, the following resolutions were adopted:—

WHEREAS, In the opinion of this meeting, union and harmony of action in the Democratic party throughout the state, can best be secured by a convention of delegates from the different counties of the State, to meet in the city of Baltimore in a State convention, in conformity with the suggestion of our Democratic brethren of the State Legislature—therefore.

Resolved, That Messrs. J. W. Battee, Nicholas Martin, Edward Lloyd, and Charles Jump, be, and they are hereby appointed Delegates from Talbot county, to meet in a Democratic State Convention, to be held in the City of Baltimore some time in May next.

Resolved, That the above named Delegates be, and they are hereby authorised, in conjunction with such persons as shall be appointed from the other counties of this congressional District, to appoint a Delegate or Delegates to represent the congressional District in the National Convention to meet in the city of Baltimore on the 20th May next, to nominate suitable candidates for the offices of President and Vice President of the United States

Resolved, That the proceedings of this meeting, signed by the Chairman and attested by the Secretary, be published in the Eastern Shore Whig.

JOHN W. BATTEE, Chairman.
R. SPENCER, Secretary.

Our political compatriot of the Kent Bugle often utters, amidst his varied strains, certain tones not altogether harmonious, we suspect, to the ear of the printers of the Globe near the stable yonder—he rubs hard enough to gall them, & exposes sufficiently to produce shame, if shame did there inhabit. The Bugle often discourses excellent music, and we subjoin one of his sonnets of good taste and point on another subject.

From the Kent Bugle.

The VAN BUREN tactics are at length being developed, sooner, perhaps, than they otherwise would have been but for the bold and decided stand taken by the friends of JUDGE WHITE. The Globe has sounded the signal note, and it will soon be re-echoed, from Maine to Louisiana, by the pensioned presses of the government. In the coming Presidential campaign, we are not to look for a contest conducted by the Van Buren party on any broad ground of national policy; it will be a warfare against individuals, it will be as varied in its features as the various interests, the passions, feelings & prejudices of the different States, in which the battle is to be fought, may indicate the partizan tactics necessary to be pursued. The operations in the East, will differ from those in the West; in the Middle and Southern States they will be equally diverse in character.—Webster must be fought in New England, and the middle States, in one way. The White party, in the West and in the South in another—but in all, the battle will be for men and not for measures. the non-committal policy of Mr. Van Buren must steer clear of the latter. Already we see that on this shore their efforts are directed to fanning and rekindling the almost expired embers of old party distinctions, and to arouse the now dormant feelings of old party prejudice—a similar policy will be pursued in other parts of the country, but while we repel and expose such paltry artifices, we must at the same time not ourselves lose sight of or permit our antagonists to evade, the true questions at issue between Mr. VAN BUREN and the PEOPLE.

A Mr. Stubbs, who was convicted of the crime of Kidnapping, a week or two ago in Cambridge, Dorchester county, and sentenced to the Penitentiary for five years, we understand has been pardoned by the Governor and set at liberty—since which we learn, this gentleman has been sent to his old quarters on an Assault and Battery case.

RHODE ISLAND

The Providence Journal gives the names and political designations of the representatives recently elected in that state. They stand thus:

Whigs,	37
Tories,	35
Whig majority,	2

It adds—'The result of the investigation has been, that Gov. Francis has 100 votes more than Governor Knight, and 93 majority over scattering votes and all. Our opinion that a majority of the Whig Senate is elected, has been confirmed; though, as there is no *record* kept, in many of the towns, of the votes cast for the respective candidates for Senators, the fact cannot be determined till the votes are counted in grand committee.'

VIRGINIA ELECTIONS.—We have heard from a few additional counties; and after carefully adding up the returns, we make 41 Whigs to 44 Jacksonians.

The Silk Culturist.—We have received the first number of a periodical, under the above title, published in Hartford, Conn: It is devoted to the cultivation of the Mulberry Tree—the rearing of silk worms—the production of cocoons, and the reeling of silk. This branch of manufacturers is becoming a most important one in this country, & promises to be of great advantage to all who are engaged in it. The publication of a periodical at this time for such purposes is most appropriate and proper, and cannot fail to have a very salutary influence on the culture of silk in this country.

It is published monthly at 50 cents a year, by the executive committee of Hartford County Silk Society, of which F. G. Comstock is Secretary, who will receive subscriptions.

Slip from the New York Mercantile Advertiser.

Important, if True.—On Friday morning, a slip was received in Boston from the Boundary Gazette, dated Calais, April 17, 1835, the substance of which is as follows:—By the brig Mung, arrived at St. Andrews on Wednesday last, 17 days from Liverpool, we learned that the French Chamber of Deputies have dissolved without making the appropriation for the American claims. The Mung brings dates from Liverpool up to the 29th March.

On the above, the Boston Courier says—'As our previous accounts were only to the 24th, people were rather excited on Change, and speculations were for a moment suspended, but as people began to look at the matter it was considered a *hoax*.'

THE FRENCH NEWS!—The New York Journal of Commerce has the following paragraph upon the subject:

THE RUMOR.—We have seen a Halifax letter of the 8th inst. which, after mentioning that the advices from England were to 17th March, goes on to tell the same story about the dissolution of the French Chambers without passing the Indemnity Bill, as was sent forward by the Boundary Gazette. English dates have been received here to March 24th; seven days later than at Halifax when the story was in full vigor. We may therefore safely pronounce it WITHOUT FOUNDATION

Eastport papers, five days later, received at Salem, say nothing about the *rumor* from France.

(From the N. Y. Courier and Enquirer of Saturday.)

THE GREAT FOOT RACE.

The great trial of human capabilities, in going ten miles within an hour for $1,000, to which $800 was added, took place yesterday on the Union Course, Long Island; and we are pleased to state that the feat was accomplished 12 seconds within the time, by a native born and bred American farmer, Henry Stannard of Killingworth, Connecticut. Two others went the ten miles—one (a Prussian) in half a minute over; the other, (an Irishman) in 1¾ over the time.

The following is the time in which each mile was performed by Stannard, the winner. Mahony the Irishmen did the first mile in 5 min. 24 sec.

Pennsylvania Federalism—The two democratic parties in Pennsylvania, are denouncing each other as *federalists*.—The Pennsylvania denounces the "majority of Wolf's appointments in Philadelphia as Federalists;" & the Sentinel denounces the Pennsylvanian, and its conductors and active abettors; as "renegade Federalists." A democratic party, with a vengeance to it!—*Phil Tel.*

MR. BARRY SOLD OUT.—We learn that Mr. Barry has taken formal leave of the Clerks in the Post Office Department, and expected to see Mr. Kendall's installation announced in the Globe of to-day. Why this movement has not been so announced will we suppose be hereafter explained. Having carried Connecticut and Rhode Island, the Regency can now venture to risk Kendall's nomination before the Senate.—Mr. Barry it is understood, goes to Spain—*U. S. Telegraph.*

It is expected that the first of May, AMOS KENDALL will enter upon the office of Post Master General, in the place of W. T. BARRY, who received the office in high credit, with a large surplus of revenue and leaves it in debt more than half a million of dollars! This is a fair specimen of Jackson and reform.

Balt. Pat.

In his late speech on the Masonic question, in the Legislature of Massachusetts, Mr. Baylies said—

"The inquiry has been solemnly propounded whether freemasonry can claim an origin more ancient than the last century, and the learned men of both institutions have decided that it cannot. I love to look sometimes into odd corners for information, and I once accidentally stumbled on the diary of Elias Ashmole, one of the most learned Antiquaries of Europe, and the founder of the Ashmolean museum at the University of Oxford. I found there a notice of his admission to a lodge in Warrenton, Lancashire, as early as 1643; and in the statute book of England, there is an act for the suppression of Masonic Lodges as early as the reign of Henry VI.—more than two centuries ago."

The National Intelligencer, when noticing the first trip of the steamboat President, Chaptain Bunker, which accomplished the passage between New York and Providence in fifteen hours and nine minutes, states that the steamboat Chesapeake, Captain Wilson, on her last trip from Norfolk, ran from Old Point Comfort to the warf in that city in just FIFTEEN HOURS. By the Post Office books, Old Point is distant from Washington 218 miles; New York from Providence 188 miles.

Immense Patronage.—Col. Webb, of the New York Courier & Enquirer, again issued a double sheet on Saturday. In the way of patronage, the editor says—"We might have presented more than *four hundred* (new advertisements) on any day during the present or past week On no one morning during that period, have we omitted less than fifty new advertisements, while in one instance we were compelled to leave out nearly *two hundred*. Even under these circumstances, our clerk informs us that we published during the last week 1897, which is about 316 per day."

BANK OF MARYLAND.—We learn from the Gazette that the Chancellor of the State has granted an injunction on a bill filed by the creditors of this institution. The injunction was issued on the 25th inst. and has been received, prohibiting the Trustees from receiving certificates of deposit, open accounts or notes of the Bank in payment of debts due the bank.

THE SILK CULTURIST.

THE Executive Committee of the Hartford county Silk Society, have commenced a monthly publication, called the Silk Culturist and Farmers Manual.

The object of the publication is to disseminate a thorough knowledge of the cultivation of the Mulberry Tree, in all its varieties—The rearing of Silk Worms—The production of Cocoons and the Reeling of Silk, in the most approved method The importance of this knowledge will appear from the fact that the nett profit of land devoted to the culture of Silk, is double, if not triple, to that derived from any other crop which can be put upon it It is also a fact, that every moderate farmer can raise several hundred dollars worth of Silk without interfering with his ordinary agricultural operations. But in order to avail himself of this facility to obtain competency and wealth, which our soil and climate have given him, he must possess himself of information on the subject—for without it his attempts will be fruitless. It is, therefore, the object of the Committee to diffuse this information as extensively as possible, and at the cheapest rate. The publication will contain a complete manual or directory from sowing the seed to reeling the Silk, together with such facts and experiments, as will enable farmers to raise Silk and prepare it for market, without further knowledge or assistance. It will also contain interesting matter on agricultural subjects in general.

TERMS—The Culturalist will be published in monthly numbers of Eight Quarto Pages, at FIFTY CENTS a year. No subscription will be received unless paid in *advance*, and for not less than a year.

Subscriptions received by F. G. COMSTOCK, Secretary, Hartford, Conn, to whom also, Communications may be addressed, which, if post paid, will be attended to.

☞Editors who will copy the above, shall receive the publication for one year.

Hartford, April, 1835—may 2

TO OUR FRIENDS AND THE PUBLIC.—The public journals have, no doubt, already conveyed to you the disastrous intelligence of the total destruction by fire, on the morning of the 9th inst., between the hours of one and two o'clock, of the STEAM MILL, erected by us for the purpose of grinding *Thomsonian Medicines*. The Dyeing Establishment of Ward Sears, the Last Factory of the Messrs. Larrabees', and their Dwellings, shared a similar fate.

Amidst the havoc made by the devouring element, we have reason to rejoice that our *Medicine Depot*, in which the pulverised and compounded articles were kept, was a considerable distance from the scene of conflagration; consequently, we are still in a condition to fill, with promptitude, and upon our usual accommodating terms, any orders which our friends and a generous public may be pleased to forward; and the confidence we repose in the punctuality of our patrons; affords us reasonable assurance, that our establishment will have risen, Phœnix-like, from its ashes, and be in full operation before our present supply shall have been exhausted.

We now have on hand, at wholesale and retail, the largest and most valuable collection of BOTANIC MEDICINES, in the U. States, comprising all the various compounds and crude articles recommended by Dr. Samuel Thomson

Maryland Jockey Club Races,

Over the Central Course, near Baltimore, will commence on the Third Tuesday in MAY (19th,) and continue four days

FIRST DAY—*Mile heats.*

A Sweepstakes for the get of Stallions; the Colts or Fillies to be three years old this Spring; $200 entrance, half forfeit; eight subscribers.

1—John Minge, enters the get of Timoleon.
2—Wm. R. Johnson, enters the get of Medley.
3—John M. Botts, enters the get of Gohanna.
4—John C. Stevens, enters the get of Eclipse.
5—Thos Snowden, Jr., enters the get of Industry.
6—Jno. C. Craig, enters the get of Sir Charles.
7—Jno. C. Stevens, enters the get of Sir Henry.
8—A. Robinson, enters the get of Monsieur Tonson.

In this Race the get of *eight* of the most disinguished Race Horses that have figured on the American Turf, will contend for the honor of their sires and their own. The result will be watched with deep interest by the numerous owners of the blood of each,—and the winner, whilst in raising himself to imperishable renown, will reflect credit, and impart additional value on all his family,—even the drowning honours of ——, may in this Race be plucked up and restored.

SECOND DAY—*Two mile heats.*

For the Craig Plate, consisting of a most splendid Tea Service, cost $500; the winner to take the Plate or $500 at his option; entrance money depending on the number of subscribers.

THIRD DAY—*Three mile heats.*

Proprietor's Purse, $500; entrance $20.

FOURTH DAY—*Four mile heats.*

Jockey Club Purse, $1,000; entrance $30.

There are one or two stakes for Colts and Fillies three years old, which it is expected will be made, previous to the meeting.

This Course, which has been improving every season since its establishment, and on which, of late, the Time has been so remarkably quick, was a few days since accurately measured by a Surveyor, in the presence of the Vice-President and several other Members of the Club, and was found to be *exactly one mile.*

It cannot escape notice that the friends of the *National Convention* to nominate a Horse for the great Race of four miles out, over the track of the *Union*, have, no doubt, purposely fixed upon the same time, for *their meeting*,—thus, clearly proving, not any political concert, or magical influence, but the *centrality* of our position,—and the *nationality* of the Sport. Well! let them come of all parties,—from the East, the West, and the centre of the "Empire." All shall be welcome, and every Nag have fair play,—whether he be black, white or chesnut. Let them come *fairly to the post*,—avoid foul Riding,—and—the Devil take the hindmost But were it possible to have Old Hickory there, with Old Truxton in his Plates, and Old Simon to handle him, we guess it would be "a small circumstance ahead" of any thing in the way of good luck

THE PROPRIETOR.

N. B.—All our Presidents have patronized the Turf—When General Washington did not start a *Horse* of his own, he was often Judge of the *Race*. All the three Presidents from the "red clay district," gave their countenance to the sport. Mr. Adams, when President, was sure to be in the stand, at the tap of the Drum,—And as for "Old Hickory" he has been known to run and win on three legs: but every one knows what he *orders* must go ahead; and if the French don't pay us that money, we'll hear the drum tap to some purpose.

The Kendall Course Races.

THE first RACES over this new and splendid Course will commence on the 4th TUESDAY in May, (the 26th) and continue four days. Before that period every thing will be in readiness—the Track, which is exactly a mile is of the best kind in every respect; a Pavillion is now erecting, which for appearance and comfort will surpass any thing of the kind in the United States; Stables, commodious and convenient to the Track. The Fencing Booths, and all other fixtures are to be constructed in the very best manner. The fine old Mansion House, now converted into a Hotel, will be conducted in good style, great pains having been taken to provide Wines and Liquors of the best quality.

The wharf of the Canton Company is within three hundred yards of the course, and from a convenient wharf in the city to this wharf will ply every hour a steamboat, in which the greatest pains to secure the comfort of the visiters, and the best possible order. The approach to the course from the city by the road is in every respect excellent, safe, level and in elegant order, having been recently thoroughly repaired. The less danger may be incurred on account of the various avenues to the road from the centre of the city.

For the purpose of insuring the best sport, liberal purses will be offered, general sweepstakes opened. Two purses will be given and two sweepstakes opened for Maryland and District of Columbia bred horses alone.—Strong encouragement will thus be given to Maryland breeders, and where there may be doubts of the abilities of untried or tried Horses, they may be there tested against others of equal reputation, at little or no expense, (as in the race for the Breeder's purse) before their encountering the best Horses of other States. Complaints have been made by the Maryland breeders and owners that being comparatively new in the business they are compelled to enter untried horses against the veterans of the Virginia Turf. These complaints are thus done away with, and the above plan shall be pursued till, by continued and judicious breeding and importing from Virginia and elsewhere, they may be able to compete with all others on equal terms. The proprietor does hope and expect that this place will be agreeable to all parties,—will secure sport and chance of profit to all, and encouragement to Maryland Breeders. The proprietor pledges himself to use every exertion—take every precaution to secure order and decorum, and in this respect many others are pledged to support him. The proprietor is pledged to no person or party but the community and all classes of it; he truly declares himself to use every exertion to promote sport and preserve good order. With such views and after such promises he solicits the support he thinks the former deserves, and he freely thinks that when it shall be justly said that there is for any person or party improper preference or bias—when it is sure it is a resort for the disorderly he will no longer ask for or expect that support; all he asks for now is a fair trial of himself and his Course! Below will be found his plan for stakes and purses for the first meeting, where he invites all to meet on his track to contend in a fair and manly spirit of rivalry. Entries to the Sweep Stakes are requested to be made as early as possible or convenient. Gentlemen are respectfully requested to become members of the Club, by enrolling their names in a book, which, for the purpose, have been left at the American Turf Register office.

The following Sweepstakes are proposed and purses offered to be run for over this course—commencing as above.

First Race—First Day, a Sweepstakes for Colts and Fillies then three years old, bred and owned in the State of Maryland or District of Columbia, mile heats, entrance $100—half forfeit, three or more to make a race—To name and close on the first day of Central meeting.

Second Race, same day—A Sweepstakes for Colts and Fillies, then three years old, mile heats—entrance $200 half forfeit—Three or more to make a race, to name and close as above.

Second Day—First Race—Proprietor's Purse of $400, two miles and repeat; free for any horse mare or gelding—entrance $15.

Same day—A Past Sweepstakes for nags bred or owned in Maryland or District of Columbia—$100 entrance, $30 forfeit, to close as above.

Third Day—Proprietor's Purse of $200, free for nags bred or owned in Maryland and the District of Columbia; in case of more than three starting, the second best to be refunded his entrance money out of the purse—entrance $15.

Same Day, Second Race—A Breeder's Purse of $400 given by the Proprietor to Maryland & the District of Columbia bred Colts and fillies, then three years old, mile heats, to name and close as above. In case a Nag is named and does not run the owner is to pay $20 forfeit.

Fourth Day—Jocky Club Purse of $1000, 4 mile heats, free for any Horse, Mare or gelding in the United States—entrance $30.

The rules of the Maryland Jockey Club will be adopted by this Club for the first meeting.

Stables of the very best kind and large size; and straw furnished to the Racers. My Virginia friends are reminded that corn blades are not to be obtained here of good quality—they must look out for themselves for this article.
