Offers $25 for 'Lead' To House For Family To Rent in Easton

Easton—The housing problem in Easton has reached a critical stage, builders said this week.

They urged that available lots on the outskirts be built up to provide homes for the many people desiring to locate here.

One man this week even offered a reward of $25 for information leading to the renting of suitable quarters for his family.

The critical problem of the world's wood supply will be studied at the first conference of the Food and Agriculture Organization of the United Nations at Quebec City, Canada, on October 16. So far, 26 nations plan to send delegates.

Faulty construction of farm and home buildings causes about 50 per cent of rural fire losses,according to the National Fire Protection Association. Now that wartime restrictions on building materials are eased, repairs and remodeling may well be aimed to make buildings fire-safe.
