Another department to which we direct our deportme special attention, is that of the modern languages. In a literary point of view, they are who. w recommended by many of the advantages, which, in the estimation of the scholar, con- of k stitute the value and the charm of the ancient classics; but they derive an acknowledged, and peculiar importance from the present state of social and commercial intercourse. Hence although they are not required by the stat as conditions for graduation, their utility earnestly inculcated, and the most el means of acquiring them are provide sides the necessary interchange of among students of different natio the boarders as are sufficiently spend their evenings in the rooms of fessors, where they converse exclu

French or Spanish.

The course for graduation regularly pies a period of seven years. Although youth is admitted at any stage of his education it is deemed a decided advantage to enter a soon as he is prepared to commence the study of the classical languages. This plan, differing in some respects from that of many of our Institutions, is pursued by the first Collegiate Departments of the Univerties of France Hieror and other European countries.
