HAND OF DEATH

Mrs. Annie Elizabeth Lusby, beloved wife of Walter U. Lusby, died at her home on High street Tuesday evening, aged 49. The sudden death of Mrs. Lusby has cast a gloom over the whole community and caused quite a shock to many. She was seated in a rocker on the front porch, as was her custom these beautiful evenings, while her daughter, Emily, was near in another chair. It was about 9.45 when Emily asked her mother a question, and receiving no answer, saw her mother's head drop and her whole body collapse. The daughter screamed and Mr. Lusby, who was at his sister's, with others soon arrived. Dr. Dodd came quickly but life had ebbed away in an instant. Mrs. Lusby had been a sufferer from heart trouble but had recovered her normal strength and had finished her spring house-cleaning. She was the daughter of the late Mr. and Mrs. Charles Estes, a woman of sweet disposition, a home-maker in deed and in spirit, a neighbor of purest friendship, a wife in the best and higher sense, a loving and sacrificing mother and a woman who made life sweeter to all who lived within her influence. Husband and daughter, Emily, survive, together with three brothers, James, Ollie and Fred.

The funeral took place yesterday, Friday afternoon, interment in Chester Cemetery, Rev. J. L. Ward officiating; C. L. Dodd, undertaker. The bearers were Wilbur Morris, Dr. H. L. Dodd, Owen C. Smith, M. Elwood Baker, H. B. Nicholson, Charles F. Wheatley.

BLACK WALNUT TIMBER FOR GOVERNMENT USE

For making gun-stalks, and for aeroplane propeller blades the Government is in immediate need of large supplies of Black Walnut. There is a large amount of the valuable timber scattered throughout the State, and the Government has asked the State Forester, F. W. Besley, of Baltimore, to aid in locating supplies. He has already received a number of inquiries from owners of walnut trees, who want to help out the Government, but who expect a fair price for the timber.

The State Forester suggests that those having walnut trees they are willing to sell, write or see him, at 532 N. Howard St., Baltimore, giving him the number, and diameter or circumference of each tree, at 4½ feet from the ground, and the approximate length from the ground to the first main branches, also the distance to the nearest shipping point. The owner will then be advised as to how to arrive at the value, and be put in touch with the Government agents, or others who buy such timber.

There is also a demand for White Oak and Locust trees in the building of wooden ships. In fact, nearly all kinds of timber are in demand, and bringing good prices, at the present time.

PACKARD EFFICIENCY TEST

Widespread interest attaches to the plan of the Packard Motor Car Company to co-operate with the highways Transport Committee of the Council of National Defense by inviting Packard truck owners to enter a three-month's efficiency test beginning June 1. The $5,000 in awards which it offers to promote greater motor truck efficiency will be divided according to the truck classifications.

Neither the age of the truck nor the line of business in which it is engaged is a handicap in the test. Any truck, no matter whether it hauls gravel, ice cream or coal has an equal opportunity with every other truck in its class, and so has its driver.

Every truck entered will be working for Uncle Sam as well as for the owner. Every driver will be helping our own country by operating his truck more efficiently. Besides the freight cars that will be saved for urgent government purposes [illegible]
