NEW MEDICAL WORK.

JOSEPH CUSHING,
No. 6, North Howard street,
HAS JUST PUBLISHED,

Memoirs of Military Surgery,

And Campaigns of the French Armies

On the Rhine, in Corsica, Catalonia, Egypt, and Syria; at Boulogne, Ulm and Austerlitz; in Saxony, Prussia, Poland, Spain and Austria, in 2 vols. octavo, with plates. Translated from the French of D. J. Larrey, M. D. First Surgeon of the Imperial Guards, Inspector General of the Medical Staff of the French Armies, &c. By Richard W. Hall, M. D. Professor of Midwifery in the University of Maryland; with notes by the translator.

The following extract from the London Medical Review for 1809, will shew in what estimation the first edition of this work was held—

"It is the work of one of the first Military Surgeons of the present day, raised to high rank in his profession at the beginning of a revolution, when merit never fails to be discovered and rewarded. To know that he has been employed in the principal campaigns of the French Armies is sufficient to give an idea of the extent of his experience. We strongly recommend this work to the perusal of all Surgeons, but particularly to army Surgeons. It is to be regretted however that copies of it cannot be readily procured in this country, (England) and that no translation of it has yet been published."

The present translation is from the authors 2d edition, which is enlarged by the addition of several Campaigns, and much important Medical and Surgical matter.

ST. MARY'S COLLEGE.

Is has hitherto been a regulation of this College, that no student should be admitted, but upon the condition of learning Latin. The Directors are determined to maintain and promote, as much as is in their power, the study of that language, as the basis of a literary education. However they daily recive so many applications for pupils who want to be dispensed with the aforesaid rule, that they think it convenient to comply with the desire of the parents, and declare that henceforth they will admit scholars without subjecting them to the study of the dead languages. The instruction of this description of students will comprehend, at their choice, the English, French and Spanish languages, Geography, and the use of the Globes, Practical Arithmetic, Mathematicks, in all their branches, Surveying and Natural Philosophy.

The execution of this plan will begin on the first Monday in September next. Parents and guardians who wish to enter their sons or pupils in this College at any time, either as boarders or day-scholars, are requested to give as early notice as possible, that proper arrangements may be made accordingly.
