PHYSICAL SKETCHES

Or, Outlines of Correctives

Of certain Modern Errors in the Science of Physick—By the same Author.

In the introduction to the former of the above works, a new and not uninteresting view is presented to the principles of Animation, and a full and liberal examination of the doctrine advocated by the late celebrated Dr. Rush, on the *Unity* of disease is offered to the decision of the Medical Public.

The object of the latter is an attempt to indicate to the discriminating and ingenious mind the distance between *cases* and *facts*, between *experiments* as they are detailed and *realities* as they exist, between gratuitous *hypothesis* and critical *philosophy*.

We are authorised to state that the latter work will be continued annually, at least until some disposition of the materials on hand shall be made.

NEW MEDICAL WORK.

JOSEPH CUSHING,

No. 6, North Howard street,

HAS JUST PUBLISHED,

Memoirs of Military Surgery,

And Campaigns of the French Armies

On the Rhine, in Corsica, Catalonia, Egypt, and Syria; at Boulogne, Ulm and Austerlitz; in Saxony, Prussia, Poland, Spain and Austria, in 2 vols. octavo, with plates. Translated from the French of D. J. Larrey, M. D. First Surgeon of the Imperial Guards, Inspector General of the Medical Staff of the French Armies, &c. By Richard W. Hall, M. D. Professor of Midwifery in the University of Maryland; with notes by the translator.

The following extract from the London Medical Review for 1809, will shew in what estimation the first edition of this work was held—

"It is the work of one of the first Military Surgeons of the present day, raised to high rank in his profession at the beginning of a revolution, when merit never fails to be discovered and rewarded. To know that he has been employed in the principal campaigns of the French Armies is sufficient to give an idea of the extent of his experience. We strongly recommend this work to the perusal of all Surgeons, but particularly to army Surgeons. It is to be regretted however that copies of it can not be readily procured in this country, (England) and that no translation of it has yet been published"

The present translation is from the authors 2d edition, which is enlarged by the addition of several Campaigns, and much important Medical and Surgical matter.

Fifty Dollars Reward.

Ran away from the subscriber on the 14th January, 1814, a negro man who calls himself ISAAC SMOTHERS, about 28 years of age, 5 feet 9 or 10 inches high, a little bow legged, and a little round shouldered; has a down look when spoken to—about nutmeg colour and handsome face. Had on when he went away, a light blue cotton and yarn short coat and pantaloons, black stockings and shoes, black hat, a dark great coat of Bushing cloth, had a blue broad cloth coat half worn, and I expect has furnished himself with other clothing before this; can read and write a little, can do a little at rough carpentering and coopering, and can make coarse shes—worked last year in Chambers' rope walk, in the city of Washington; was then the property of Miss Elizabeth Birckhead, in the lower end of Anne Arundel county, near Herring Bay. As he is a very artful fellow he may endeavor to pass as a freeman, or has a forged pass, and it is probable he may yet be in the city of Washington or Georgetown, or gone to the state of Pennsylvania. Whoever will secure said fellow so that I get him again, shall receive the above reward, and all reasonable expences paid if brought home.
