ARTILLERY, *Attention.*

An Artillerist who devotes himself to the profession, must feel the necessity of acquiring first, the knowledge of Infantry discipline, before he is are competent to become a complete Artillerist.

Those gentlemen who will endeavor to reach the height of their profession, are invited to join Colonel DE LA CROIX'S *Military Academy*, which commences with the simplest objects for a recruit, and progressing from the knowledge of Infantry to the perfect knowledge of Artillery, connected with sciences, and all kinds of arms. It is to be observed that Col. De Lacroix was seven years 1st Captain in the 1st and 3d regiments Artillery, in the French service. Colonel De Lacroix has hired the Riding School near the Circus, for the purpose of manoevreing with cannon, and to unite sometimes, all his classes together. After acquiring the manoevres of field pieces, a gun battery will be erected in the riding School, which shall consist of a breast work, parrapet, &c. &c. to learn the exercise of siege pieces, on all kinds of carriages, as well by the word of command as by the beat of the drum.

The gentlemen of Artillery will form their own classes, with Artillerists only; those wishing to be taught Fencing, will be admitted at half price.

For further particulars and terms, apply to *Colonel De La Croix*, at his academy in the rooms lately occupied by Mr. Duclairacq, Water street near Peter's bridge, or at No 8, Water street.

N. B. Any corps or companies wishing to be instructed privately in the modern tactics, will be attended to on moderate terms, by applying as above immediately.

Also, any troops or Infantry companies wishing to drill under cover, during the winter, can be accommodated on moderate terms, with the Riding School, which has been purposely cleaned out.

30 DOLLARS REWARD.

Ranaway from North Hampton Furnace, near Baltimore, on Monday, the 22d instant, a negro girl named BETTY, about 5 feet high; 16 or 17 years of age; slim made; short round face; was brought up in Mr. Burke's house, in Old Town, where she is well known. She was taken up a few days since near Belle Air, but made her escape, and left all her clothes except those she had on, of osnaburgs, a shawl, and black Bom azette frock, tore in several places. I will give a reward of THIRTY DOLLARS for taking and securing her so that I get her again, and all reasonable expenses paid if brought home. All persons are forewarned from harboring or carrying off the said Betty at their peril.

WILLIAM CAPLES, Manager.

Ten Dollars Reward.

Lost or stolen from the line of Stages between Lancaster and Baltimore, a pair of *SADDLE BAGS*, about half worn, the only particular or prominent mark recollected is that one of the holes through which the strap runs is broken out, with a square Iron spring thumb Lock; they contain nothing but some clothing and a few papers. Any person finding them, that will deliver them or give information where they may be had to Mr. John N. Lane, Merchant, of Lancaster, or to Mr. John H. Barney of Baltimore, shall receive the above reward and no questions asked.—The papers can be of no use to any person but the owner.

nov 10 eo4t*

Domestic Roving & Spinning
MACHINE.

This very important and useful improvement for roving and Spinning Cotton and Wool, has been secured to *Oliver Burrett, jr.* by letters patent. As it is impossible to give an adequate idea of machinery by description, it is sufficient to state that this machinery is very simple in its construction and operation, and not more liable to be put out of repair than a common Spinning Wheel, and may be made and repaired by a good carpenter or cabinet maker.

A machine of 12 spindles will occupy about the same room as a bed. On a machine of 12 spindles one woman (with a child to splice the rolls) will spin as much in one day as eight women on a common wheel—the spindles may be increased to any desired number; the Yarn may be spun to any required size and that size preserved with great exactness. This machine has all the advantages of the Billy and Jenny; it spins from the roll, reduces the roll to roving or roping, and spins the roping by the application of the second carriage. To avoid individual expense a few families have joined in the purchase of a machine. Cotton may be spun fine enough for domestic use and wool can be spun to any fineness the texture will permitt.

The subscriber has received from the patentee, an assignment of the full and exclusive right of making, using and vending to others the use of the above machine, in the states of Pennsylvania, Delaware, Maryland, Ohio, Kentucky, North and South Carolina, Georgia, Tennessee, and within the several following territorial governments subject or attached to the United States. viz. Orleans, Indiana, Missisippi, Illinois, and Michigan territories and now offers for sale the patent right for the above territories, either by state, county or otherwise, as may be wished or best calculated to benefit the community.

The friends of Domestic Manufactures are invited to examine for themselves, the machines only need to be seen and understood to be approved. Those who wish to purchase territorial rights to make and vend the said machines to others, can be supplied on reasonable terms (in the absence of the subscriber by applying to Mr. Thomas V. Loosburrow, at Frankfort, Kentucky, and Benjaman Hough, Esq. Chillicothe, Ohio. Machines will be furnished by Mr. Loosbury and Mr. S. Rankin, of Lexington Kentucky, and by James Irwin in Pittsburgh.

All persons are cautioned against using the said improvement without permission, within the above territories as I will prosecute every offender. A liberal reward will be given to any person who will give me information of trespasses upon the patent, so that a conviction may be had.

STEPHEN ANDRES.

Frankfort, Feb. 9, 1814.

KENTUCKY LEGISLATURE.

January 31, 1814.

The joint committee appointed to examine Mr. Stephen Andre's Spinning Machine, in conformity to his memorial proceeded to examine the same, and find it constructed for spinning wool and cotton, and more simplified than any machine heretofore offered for public use; possessing the advantage of the spinning Billy and Jenny now in use—it may be used as a Billy for roving and spinning warp or filling, or as the Jenny for spinning warp from wool or cotton, which change can be made in a few minutes; the machine contains twelve spindles, and may be worked as a Billy by a common spinner with the aid of a boy or girl, from 8 to 10 years old, and a Jenny without any aid whatsoever. It possesses such advantages for saving labor and expediting the manufacture of domestic goods, that your committee recommend the same to the patronage of the good citizens of this commonwealth.

To the Citizens of Pennsylvania.

I have lately put into operation in my family one of the Domestic Roving and Spinning Machines, introduced into Harrisburg by S. Andres; I am fully satisfied that it will answer all the purposes for which it is recommended, and in the present situation of the country, recourse ought to be had to such saving labor machines.

OBED FAHNESTOCK.

Harrisburg, Sept. 17, 1814.

DELAWARE & MARYLAND.

The undersigned respectfully informs the friends of Domestic Manufactures in the states of Delaware and Maryland, that he lately came to Baltimore for the purpose of erecting and giving the necessary information to use the said machines; he solicits the attention of the mechanics and others in the several counties, who wish to benefit themselves and their fellow-citizens, by furnishing them with the means to manufacture with facility at a time like the present.

A Machine may be seen and the terms known by applying to the subscriber at John Hagerty's, No. 12, Light street, opposite the Fountain Inn (Barney's.)
