Richard N. Freeman, Sandy Bottom.
James Edward Dorsey, Betterton.
Charles Alex. Benson, Golts.
Walter R. Wallace, Chestertown R.D.
James Sylvester Cotton, Fairlee (Sharon Hill, Pa.)

NEW BREAD RULING FOR SEPT 1

A standard universal Victory bread will be baked in America and Allied nations after September 1.

The present fifty-fifty order under which the housewife has been obliged to buy equal amounts of substitutes with her wheat flour will be repealed at the same time. Wheatless days and wheatless meals will be abolished. The wheatless menu pledges were abandoned some time ago. Conservation of wheat must, however, continue until the end of the war.

The international Victory loaf agreed upon by the Food Administrators of the Allied nations in the recent conference at London will be eighty per cent. wheat and twenty per cent. substitute cereals. A victory flour will be issued under the regulations.

Victory flour containing the twenty per cent. substitutes mixed in it will be sold to the housewife. When straight wheat flour is bought an additional twenty per cent. of substitutes must be sold with it.

Bakers will be required to use twenty per cent. of substitute in their Victory bread instead of a twenty five per cent. mixture as at present. Housewives are asked to observe the same rule.

The Food Administration plan for the ensuing year contemplates an increase of eighty per cent. in amount food shipped abroad. It also contemplates a reserve of 200,000,000 bushels of wheat in this country at the end of the year. This year eighteen million tons of food will be shipped abroad as compared with three million tons in peace times.

Jack, the eleven-year-old son of Capt. John Welch and wife, of Georgetown, died last week after a long illness of heart trouble.

TEMPORARY HEAD FOR WASHINGTON COLLEGE

At a meeting of the Visitors and Governors of Washington College held on Tuesday last, Dr. J. S. W. Jones, Professor of Mathematics at the College, was elected Chairman of the Faculty, he consenting to act in this capacity until the Board could decide upon a man for the principalship. Dr. Jones had been previously urged to accept the office of the principal, but for reasons which seemed to him convincing he declined, rather, however, than embarras the College by leaving it without even a temporary leader, he agreed to act as head of the faculty.

Dr. Jones began his duties as Chairman on Wednesday morning, and all who know him can well be assured that nothing will be left undone to assure the success of the ancient institution.

Washington College has bright prospects of being named by the Government as a training school for the young men of Maryland. A committee of the Board has been in touch with the War Department for several weeks and is now at work on plans that if they materialize will see Washington College with several hundred boys training for war on her campus and studying in her halls. It will be a great thing for Washington College if the plans of the Board of Visitors can be consummated.

Local Notes

**The Hendrix-Lambert farm near Goose Hill has been sold by Mr. Martin to Wm. S. Hoover, of Talbot county. The price is said to be around $21,000. Mr. Hoover has already gone to work on the farm.

Special program in the Chautauqua tent Sunday evening. All of the churche will unite in making this an enjoyable occasion.

**S. P. Townshend, attorney, has sold for the Bell estate the 2 dwellings on Cross street to Charles M. Lloyd for $2,500. One of the dwellings is occupied by J. E. Newton.

**The steamer Louise will make her last trip to Tolchester next Tuesday, September 3rd. See change of adv. elsewhere in News.

**A basket of the biggest and finest tomatoes we have seen this year were left at News office this week. They were grown by Wm. E. Deford, of near Rock Hall. The seed that grew this fruit came originally from California and Mr. Deford has been saving the big tomatoes for several years until he has gotten a beauty in this year's crop on ten acres.

**Dr. H. C. Hughes and Polk Bramble caught a four-pound bass Wednesday night in Brooks' mill pond.

**Faced by the fact that thousands of cattle are dying for lack of food and water in the immense cattle ranges of Oklahoma, Kansas and Texas as the result of the longest drouth in the recent history of those sections, the government has taken drastic steps toward the importation of the remaining animals into the non-drouth states. Special efforts will be made to bring large numbers of cattle into Maryland, West Virginia and Pennsylvania at rates which will insure their sale in the East at prices which are expected to bring heavy purchasing.

**H. W. Vickers, after a strenuous week at "school" in Washington spent Sunday at home. He says the public has no idea of the immense amount of work required to conduct this war. Says he, "it is simply appalling." He starts on his inspection work Monday.

**H. Sachs & Son announce that their store will be closed Saturday, Sept. 7th, until 6 p. m., on account of holiday. Will be open for business after 6 o'clock.

**Even the ladies are picking tomatoes. Among those who have been in field this week were Misses Susan Stam and Virginia Jones, of Chestertown, Katherine Harding, of New York, and Mildred Collins, of Centreville, who picked about 200 baskets one day this week in the field of W. S. Collins, near Chestertown. Other ladies in the county are also helping the tomato growers to harvest their crops.

**At the sale of registred and grade cattle held in Cecilton by John Anderson, last Thursday and advertised in the News, Mr. Anderson sold over 100 head and had a fine lot of stock, cows sold from $100 to $282.50; heifers from $50 to $175, and stock bulls from $50 to $200; pigs and hogs from $3.00 to $60 each. Mr. Anderson had over 35 head of cattle to bring $100, and better; 10 grade cows sold from $100 up to $175 each. This sale amounted to nearly $10,000.

**Contractor Cannan started work on Commissioner Bennett's new home on Washington avenue Thursday.

8 White Men To Go Sept. 4

The following 8 white men have been selected to report at Camp Meade next Wednesday, Sept. 4:

Geo. Leroy Goodman, Chester'n 1
Paul Clifford King, Chestertown 5.
J. Britton Townsend, Chester'n 3.
Thos. A. Haddaway, Lynch.
Philip M. Myers, Millington 2.
Wm. Oscar Emerson, Galena.
Jno. N. Edwards, Massey.
Allen R. Tarbutton, Golt.

Chautauqua begins this Saturday.

EASTERN SHORE MARVEL

What One Family Can Do In One Line Of Business—Thousands Of Acres In Peaches And Other Fruit Millions Spent In Advertising, Etc.

It was our privilege to visit the Eastern Shore this week and to see this great garden of which Kent is an important part. Besides the other great products, the beautiful towns, etc., we were specially interested in the nurseries of Orlando and George Harrison located at Berlin. These men deserve all the credit we can give them for their wonderful success. They own over 5,000 acres of land in and near Berlin and work from 200 to 500 men, women and boys. The following information was obtained in our visit thru the nurseries:

They have over 2,500 acres in cultivation in nursery and orchard; over 8 million peach, apple, pear plum and cherry trees in their nursery. 1,000 acres of orchards planted at Berlin of peach, apple and pear trees from two year old to twenty-six year old.

The firm has interests in 22 other orchards in Western Maryland, Virginia, West Virginia and Delaware. Have harvested six large peach crops at Berlin in succession. They shipped 62 cars in 1913; 40 cars in 1914 and 42 cars in 1915; 60 cars in 1916; 106 cars in 1917, and have already shipped 48 cars in 1918.

The heavy peach crop of 1915 the country over cut prices more or less than has been for years especially since the refrigerator cars have been used by the Eastern fruit growers—a situation that may not occur again for years. Greater commercial plantings of peach orchards are being made at this time farther south, especially Georgia and North Carolina, the plantings in Maryland and the Eastern States being of special varieties.

The peach borer at the trunk of the tree is the greatest injury to the peach trees in the East. The winter spraying is easy with concentrated lime and sulphur as a preventative, but the greatest discovery is the self-boiled lime and sulphur used during the summer when the small peach from the size of a pea to full-grown can be sprayed and prevent the peach rotting and by adding ½ pound of Arsenate of Lead to 50 gallons of the summer spray you can add color to the peach.

Maryland will rank among the first states in a commercial apple growing in the near future. Great care has been exercised in selection of varieties for table use having high quality, the Stayman's Winesap, Jonathan and McIntosh Red are among the most desirable for baking, York Imperial ranks first, yet there are several others that make good baking apples.

Spraying the apple when it comes in blossom with 2 pounds of Arsenate of Lead to 50 gallons of water prevents the Culculio and has made apple growing profitable, it prevents the insect and the apples stick on tree till fully matured.

Smooth roads and refrigerator cars have probably aided the fruit-grower here in getting the fruit to the railroad station in good condition than any one thing. The damage in bruising has been largely due in the past before it reaches the railroad station.

In their Easton orchard 12 cars of peaches from 935 trees, 7 years of age, fruit sold for $16,800 f. o. b. at shipping point, Easton, Md.

Grimes Golden orchards at Martinsburg, W. Va., have 7,000 barrels of apples from 86 acres apple trees, 13 years old, and selling for $5 and $6 per barrel. Peaches this year brought $4 per carrier or about $1,500 per car.

They have growing 75 acres in potatoes, 300 acres in corn, 125 acres in tomatoes and 100 acres in hay. They will sow 200 acres in wheat, 25 acres in rye, 25 acres in scarlett clover and wheat, and 100 acres in winter Vetch and rye.

They have over 100,000 Norway Maples for street planting, selected eight years ago in Holland by Orlando Harrison, besides other shade trees.

Berlin also has in Mr. Harrison's Hotel a gem. The dinner served there would be hard to excell anywhere.

Chautauqua begins this Saturday.

**The 34 men named in the News last week left on the steamer Ford from Chestertown Wednesday for Camp Meade. It was a fine body of men. A large company of friends and relatives gave them a rousing send-off.

***"Hughey" Dougherty, dean of the burnt cork minstrel corps and known to theatregoers in every section of this country and many parts of Europe, died Tuesday, August 20, in the Pennsylvania Hospital, Philadelphia, where he had been since September, 1916.

**The canneries are running full force and the farmers wear a broad smile as they gather the red ripe tomatoes at 45 and 50 cents per basket.
