NOTICE.

Treasury Department, November 15, 1814.

In pursuance of powers which have been duly vested in the Secretary of the Treasury, under an act of Congress, entitled "An act to authorise a loan for a sum not exceeding three millions of dollars," approved by the President of the United States, this 15th day of November, proposals will be received by the Secretary of the Treasury from this time until the first of January next, *and each proposal will be decided on as soon as it is received*, and immediate notice of the decision given, for a loan to the United States of THREE MILLIONS OF DOLLARS, or any part thereof, on the following terms and in the following manner:

1. For the amount loaned, stock will be issued, when the instalments are completed, bearing interest at six per cent. per annum, payable quarter yearly. The Stock will be reimbursable at the pleasure of the United States, at any time after twelve years from the 31st day of December next, and the Sinking Fund is charged with the payment of the interest and the reimbursement of the principal according to contract.
2. The proposals must state the amount to be loaned; the rate at which the stock will be received; the instalments in which the party will make the payments, and the bank in which the payment are to be made.
3. The payments will be received either in money or in approved Bank notes; *or in Treasury notes, due on or before the 1st of January next, at their par value, with the interest thereon accrued, at the time of payment.* But on failure to pay any instalment at the time stipulated, the next preceeding instalment shall be forfeited for the use of the United States.
4. Scrip-certificates will be issued by the Cashiers of the banks where the payments shall be made, to the persons making the payments; the Cashiers will, also, endorse the payment of the successive instalments; the scrip certificates will be assignable by endorsement and delivery; and will be funded at the loan office of the state in which the bank is situated, where the payments have been made.

FOR SALE,

A TRACT OF LAND, containing 222¼ acres, situated on the Philadelphia road, a little above Herring Run, adjoining to Gen. Smith's. A new Turnpike lately located little to the left of the present one will pass through it, which will shorten the distance from town to about 3½ miles. Moores Run passes through the tract, the greatest part of which is covered with wood. There is a most beautiful eminence on it, and in the opinion of the best judges the above tract is superior in quality to any in the neighborhood, having 100 acres well covered with large trees, and might be turned into meadows. It is believed that the wood if cut might pay for the land. A long credit may be obtained, or it will be exchanged for property in the city of Baltimore. For further information apply to

NOTICE.

Those persons who are in arrears to the subscriber for the county Levy for 1813, are hereby warned that his Deputies will proceed to enforce the payment agreeably to law, immediately.

To have neglected this measure until this time, would have betrayed a represensible partiality on the part of the Collector, as it respected others, who have long since discharged their accounts; and unless prepared to advance the deficiency thence arising from private means, it would have been highly unjust towards the creditors of the County; but this seeming indulgence was caused solely by the difficulties consequent on the approach of the British forces, and such as would now avoid compulsory process, are respectfully invited to call at the office, St. Paul's lane, without delay.

LEE'S AGUE DROPS

Never was a medicine offered that has a greater claim on public approbation than this as many thousands can testify.

Mr. Noah Ridgely,

SIR—You are at full liberty to use my name in recommending your Lee's infaliable Ague and Fever drops; as from repeated trials of them in my family I have always found those drops to be a truly infalliable medicine: never failing to produce a speedy and effectual cure. I do therefore confidently recommend them to all persons laboring under this distressing disease, and firmly believe that they will always perform a compleat cure if taken agreeably to the accompanying directions.

Yours respectfully,

Genuine Essence and Extract of Mustard.

A safe and effectual remedy for acute and Chronic Rheumatism, Gout, Rheumatic Gout Palsy, Lumbago, Numbness, White Swellings, Chilblains, Sprains, Bruises, Pains in the face and neck, &c.

The following case of a cure was communicated to the proprietor by the Revd. John W. Browne, of Cincinatti, Ohio, when in Baltimore, May the 18th, 1811.

SIR—I have now to inform you of the good effect of your essence of Mustard; I employed a carpenter to do some work for me, he was soon after so violently attacked with the Rheumatism that he was entirely unable to attend to his work, I advised him to try your essence of Mustard, he procured a bottle and rubbed the parts affected as directed, and in a few days was entirely cured and able to attend to his business. You are at liberty to publish his case.

Extracts of letters from Messieurs Sutton & M'Nickle.

PITTSBURG, Oct. 23, 1813.

Mr. Noah Ridgely,

SIR—Our Stock of your medicines are almost entirely out, not worth enumerating.—You will please to forward the following the first opportunity, Six doz. Lee's essence of Mustard, six doz. Lee's Antibilious Pills, six doz. Lee'e Lozenges, four doz. Lee's Elixir, four doz Lee's Persian Lotion, four dozen Lee's Itch Ointment, two doz. Lee's tooth Powder, and two doz Lee's Corn Plaister.

Pittsburg, March 15, 1814.

Mr. Noah Ridgely

You may forward first opportunity, 12 doz more, Lee's Essence of Mustard.

Yours respectfully,

SUTTON & M'NICKLE.

The Proprietor deems it entirely unnecessary to add any thing more in support of a medicine which has so long and well established itself. The great demand for it speaks more in its support, than volumes of pompous Eulogiums can do.

Wonderful Curiosity.

To be seen at the Centre Market Space.

The public are again presented with an opportunity of beholding one of the most singular and extraordinary curious animals perhaps ever seen,

The Female Guanacos,

Faintly delineated by M. Buffon, but more minutely by Doctors Mitchell and Ackerly of New York, from ocular observation of the present animal, whose extraordinary stature and peculiar form bespeak her to be the greatest and most satisfactory natural curiosity ever imported or exhibited in this country. To attempt a minute detail or description of this animal would prove fallacious, as there appears to be a similarity of every species of animal united in one, with many other peculiarities uncommon to all. The wonderful agility of this curious animal, whose speed is accurately estimated at the rate of 76 miles an hour—its innocent mode of defence when tormented—its stature—its downy coat or covering (which the ancient kings and queens of Persia prefer for their nuptial beds, from a belief that it excites amour and repose) but above all, its peculiar and very singular formation, impress the beholder with wonder and astonishment, and excites him to reflect on and admire the wonderful productions of the Divine Architect, in filling the universe with life in such a boundless variety of forms.

The admirers of natural curiosity are respectfully assured, that the GUANACOS is particularly worthy their attention.

*** The Guanacos to remain at the above place for 3 days only—Admittance 25 Cents—Children half price—Families and parties by contract.

DEXTEROUS FRAUD.

Through the activity and industry of Mr. Delacy, a discovery has been recently made of a dexterous fraud on the patent office, by which a patent for a most valuable invention has been obtained, to the prejudice of the real inventor. Should those concerned in committing it be prosecuted, as the public interest requires, it would be a means of guarding from similar attempts and impositions in future.

STEAM BOATS.

A patent has been recently granted, under the great seal of the United States to Nicholas J. Roosevelt, Esq. a citizen of New Jersey, as the original inventor of steam boats, as now in use.

In the hands of Mr. Roosevelt, we may anticipate this invention being made generally beneficial, convinced that neither selfishness nor avarice will predominate in the exercise of the rights in him thus vested. It is said that his claim to the invention is of many years standing, and that he has lately invented a circular steam engine of simple construction and of increased force—an invention that is wholly American.
