We Go A-Touring

(With Apologies To "Frying Nellie)

Hopping in the old, old V-8 (which we don't mind mentioning for they're not being built any more), we took to the open road last Friday evening and headed southward toward the sea. Rain marred our entire journey, but, as our newspapering companion stated, we had lots of time and the roof didn't leak; so, we sat and rattled along in the old bus for nigh onto eighty miles until Rehoboth showed up on the starboard bow...then out we hopped.

A week-end at the seashore seems to me to be spent mainly in dressing for the beach or dressing after returning from the sands. And all the time that you're down by the sea its a problem of trying to get comfortable and cozy without getting sand from here to here...A dip every now and then makes it still harder to find comfort when you come out of the water, for the sand clings while you shiver, but everyone chatters, "Isn't it grand!"

Kent countians by the dozens could be seen strolling the planks at Rehoboth during the past week. Joe Lewis, the town siren ringer, was seen heading a delegation which strongly resembled a house party...Doc Simpers' Mary was sighted on the sands...Howard Pennington and frau found the beach ice cream delightful...Bill Collins tried to imitate his brother's capacity for indefinite floating..' The Mickey Aherns horse-backed about town...And Everett Lambden was much in evidence, but not alone.

A former Washington College student, Henry Warren Conant, is the big real estate mogul in Rehoboth. At the close of the actual summer season — next week — a wholesale auctioning of lots and dwellings will take place under his supervision.

A small but cold northeaster somewhat marred our stay at the beach, and when we hopped—once again—into the old, old V-8 for the trek home we found a topcoat a blessing. Riding alone on the way back, and with a glorious sunset in front of us to reveal the glories of Nature along the way, we were for once in complete sympathy with Nellie's numerous writings in the tone of the wanderlust.

Heading up the duPont Boulevard we saw the late pea crop being hauled into market, and passed those queer, vile-smelling buildings where the pods were being separated from the peas...We watched, as the sun set, the men in the fields heading home with mowers from the days work...we crassed Whaley's Pond, near Milford, whose stump-studded surface has always reminded us of Edgar Rice Burroughs't weird tales of a lost world...And sliding around Milford on the detour highway which takes all traffic out of the town we marveled at the splendid landscaping job which the State has done to the roadway.

We approached Dover as the sun dipped down behind the woodlands to our left, and here we paused to heed Nature's inevitable call for food—or at least our nature...With ihe inner man fed and slaked, we wandered over to view the pos office of the Delaware capitol which has been moved bodily to a new location. And where it stood a paved roadway lined with shrubs and green grass gives the lie to the knowledge that only a few months ago this spot was barren.

Heading out again on the open highway we began to count the miles to the spot where we knew the signpost would proclaim our entrance into Maryland...And, once to it, we heaved a sigh of relief...For though our car can seldom go that fast, we have the fear inborn in Marylanders toward the Delaware cops who pick up the Free7Staters so regularly for speeding.

In all our travels, however, this journey and others we've taken, we have failed to find an approach to a town which can compare with Chestertown's over the Chester River...And as we glided, very noisily however, for the car needed oil, over the span and into town, we rejoiced for the fact that we could call ourselves a citizen of the Gem of the Chester.

Mrs. Willard Taylor, of Rock Hall, entertained a number of friends at her home last Wednesday week in honor of her house guest, Miss Marie Dixon, who observed her eighteenth birthday.
