HOW TO REMOVE GREASE SPOTS FROM CARPETS.

Dry buckwheat flour, if repeatedly applied, will entirely remove the worst grease spots on carpets or any other woolen cloth, and will answer as well as French chalk for grease spots on silk.

BREAD BAKING.

A loaf of bread soaked in milk or milk and water over night. In the morning stir in a teaspoonful of sugar, two even teaspoonfuls of salt, a small piece of butter or lard, a little powder of soda, and a little salt. Mix very smooth, and drop from a spoon upon the griddle.

BOTTLES HERMETICALLY SEALED.

Gelatine mixed with glycerine yields a compound liquid when hot, but becoming solid by cooling, at the same time retaining much elasticity. Bottles may be hermetically sealed by dipping their necks into the liquid solution, and repeating the operation until the cap attains any thickness required.

FRIED OYSTERS.

Simmer for a few minutes in the liquor, then drain till quite dry; dip in yolks of eggs, and then put in bread crumbs, season with nutmeg, cayenne and salt. Fry light brown. Serve with thick melted butter, moistened with oyster liquor as sauce.

NO UNDER CRUST TO APPLE PIE.

There nevershould be an under crust to apple or any fruit pie. A narrow strip of crust should be laid around the edge of the buttered plate, making what is professionally called a double edge, but no dough on the bottom.

STUFFING FOR GEESE AND DUCKS.

Sage and onions boiled, chopped fine, and then mixed with an equal quantity of bread-crumbs. The stuffing for roast pork is the same as for goose and ducks.

TO CLEAN GOLD LACE.

Gold lace is easily cleaned and restored to its original brightness by rubbing it with a brush dipped in roche-alum burnt, sifted and mixed with powder.

TO CLEAN AND FRESHEN FURS.

Warm bran in an oven; rub it well into the furs several times; shake and brush till free from dust. Rub light furs with magnesia.

FOOT BREAD.

Put three-quarters of a pound of loaf sugar in a saucepan, with a quarter of a pint of water, a steady fire and stir it till it is dissolved; then add sugar with a whisk in a pan; when the sugar boils, pour it gently on the egg, keeping it well out the froth; then stir in three-quarters of a pound of fine sifted flour; have your frames papered, fill them three parts full with the batter, sift sugar over them, and bake them in a steady oven.

OYSTER SHELLS FOR LAYING HENS.

Now is the time to secure and begin to feed oyster shells to your hens. Get the shells wherever you can most conveniently, enough to fill a box or barrel. Break up in small pieces near the feeding place, about a pound a day for every twenty or twenty-five hens. Make the pieces small enough for the hens to swallow. They will eat this amount clean every day, and it will furnish lime for the shell of their eggs. It is a small outlay, but it will pay.

A HINT TO BUTTER-MAKERS.

A Pennsylvania butter-maker tests his salt by dissolving a little in a glass tumbler; if the brine formed is clear and free from bitter taste, he pronounces the salt good; if, on the other hand, it presents a milky appearance, leaves any sediment or throws scum to the surface, he rejects it.

LEAD COLIC.

For lead colic, Dr. Laramie says, soak a piece of flannel in two ounces of chloroform and lay it over the bowels. Cover it with another piece wrung out of hot water. He says it relieves the pain at once, and all that is necessary after is to take a mild cathartic.

TO INDUCE SLEEP.

Don't use any drugs. Rise if you find yourself wakeful, and chafe the body and extremities, and thus get up an even circulation. Wakefulness is caused often by a pressure of blood upon the brain. A cold bath will induce sleep oftentimes, or a rapid walk in the open air.

CHRONIC RHEUMATISM.

Dr. Bonnet, of Grenoble, France, recommends and prescribes for chronic rheumatism the use of essential oil of turpentine by friction. He used it himself with perfect success, having almost instantaneously got rid of rheumatic pains in both knees and in the left shoulder.

VENTILATION IN ROOMS LIGHTED WITH GAS.

In dwelling-houses lighted with gas the frequent renewal of the air is of great importance. A single gas-burner will consume more oxygen and produce more carbonic acid to deteriorate the atmosphere of a room, than six or eight candles. If, therefore, when several burners are used, no provision is made for the escape of the corrupted air and from the introduction of pure air from without, the health will necessarily suffer.

HARD WASH.

Add to a wine glass of cold water a half teaspoonful of sal-volatile, and with a small piece of flannel or sponge, wash well the head and hair, dividing it into partings, so that every part is washed. This hair wash cleanses quickly, and that it preserves the color of the hair has been proved by an experience of ten years.—Spirits of hartshorn may be used instead of sal-volatile, six drops to the wine-glass, and apply in same manner.

TO CLEAN THE TEETH.

Dissolve two ounces of borax in three pints of boiling water, and before it is cold, add one teaspoonful of spirits of camphor, and bottle for use. A tablespoonful of this mixture, mixed with an equal quantity of tepid water, and applied with a soft brush, preserves and beautifies the teeth, eXterpates all tartarous adhesion, arrests decay, induces healthy action of the gums and makes the teeth pearly white.

POACHED EGGS FOR SALAD.

Pound and press through the back of a hair-sieve the flesh of three very fine, or four moderate sized anchovies, freed from the bone and skin. Boil six fresh eggs for twelve minutes, and when they are perfectly cold, halve them lengthwise, take out the yolks, pound them to a paste with a third of their volume of fresh butter, then add the anchovies, a quarter teaspoonful of mace, and as much cayenne as will season the mixture well; beat these together thoroughly, and fill the whites of eggs neatly with them. A morsel of garlic, not larger than a pea, perfectly blended with the other ingredients, greatly improves this preparation.

REMEDY FOR WARTS

Warts are very troublesome and disfiguring. The following is a perfect cure, even of the largest, without leaving any scar. It is a Frenchman's prescription, and has been tested by the writer: Take a small piece of raw beef, steep it all night in vinegar, cut as much from it as will cover the wart, and put it on; if the excrescence is on the forehead, fasten it on with strips of sticken plaster. It may be removed in the day and put on every night. In one fortnight the wart will die and peel off. The same prescription will cure corns.

HOW TO FEED COWS.

Feed the cows liberally. Plenty of boiled corn and ground feed, with good hay and fodder makes plenty of milk. A bucket of tepid water, well salted, with a little bran stirred in, will increase the flow of milk. Breaking young heifers that are restless and disposed to kick—a good milk stool or bench is made, two feet long, with a hoop at one end to hold the bucket just under the teats, convenient for milking rapidly with both hands. The cow can not kick the bucket over or get dirt in it. Any of the boys can make one by putting a heavy water bucket hoop on the end of a light bench, six inches wide, two feet long with strong legs.

TO MAKE COWS GIVE MILK.

A writer who says his cow gives all the milk that is wanted in a family of eight persons and from which was made 200 pounds of butter in the year, gives the following as the treatment. He says:

If you desire to get a large yield of rich milk, give your cow, three times a day, water slightly warm, slightly salted, in which bran has been stirred, at the rate of one quart to two gallons of water. You will find, if you have not found this by daily practice, that your cow will gain twenty-five per cent. immediately under the effect of it. She will become so attached to the diet as to refuse to drink clear water unless very thirsty, but this mess she will eat almost any time and ask for more. The amount of this is an ordinary water pail full each time, morning, noon and night. Your animal will then do her best at discounting the bacon. Four hundred pounds of butter is often obtained from good stock, and instances are mentioned where the yield was even at a higher figure.

CONSUMPTION.

FROM R. L. GILMAN, A MINISTER OF THE GOSPEL IN GROVER, VT.

"I have been troubled for several years with a difficulty of the heart and lungs; have applied to several physicians for help, and have tried almost every remedy recommended without receiving any assistance, but has been growing weaker and weaker, until hearing of WISTARS BALSAM OF WILD CHERRY about a year since, I commenced using it with immediate relief. It has not only restored my lungs to a sound state, but I am entirely relieved of the difficulty of Spasmodic Pulmonary Asthma. I have no hesitation in saying that it is the best lung medicine before the public, and I shall cheerfully and conscientiously recommend it to all persons suffering with pulmonary complaints."

BROM MRS. ISAAC MOORE, OF RICHMOND, VT.

"About three years since I was attacked with a severe cough, soreness and irritation of the lungs, to which was added asthma in a severe form. During the first year I tried several of the most popular medicines of the day, but received no relief, and had at one time despaired of ever regaining my health, when I was induced to try DR. WISTAR'S BALSAM OF WILD CHERRY, which very soon relieved me. My cough became loose, the soreness and irritation disappeared, and my general health began to mend. I continued the use of a few bottles longer, and now enjoy perfect health, than I ever hoped to enjoy again. I believe the Balsam to be the most reliable remedy that can be found."

FROM REV. J. WHEELER, STATION AGENT AT SOUTH ROYALSTON, MASS.

"I was most severely afflicted with hard, dry cough with its usual accompaniment of night sweats, completely prostrating my system for a few months, and producing such a debilitated state of health that after trying medical aid to no purpose, I had given up all hopes of ever recovering, as had also my friends. At this stage of matters, I was prevailed upon, through the influence of a neighbor, to try WISTAR'S BALSAM OF WILD CHERRY, though with no belief whatever in its truly wonderful curative properties, and before taking two bottles the effect was almost magical. My cough suddenly left me, the night sweats deserted me, hope once more elevated my drooping spirits and soon I had attained my wonted strength and vigor. Thus has this Balsam, as has often been remarked by persons convalescent with the above facts in the vicinity, literally snatched from the grave. You are at liberty to use this for the benefit of the afflicted."

SIMMONS LIVER REGULATOR

ASK the recovered dyspeptics, bilious sufferers, victims of fever and ague, the mercurial diseased patients, how they recovered health, cheerful spirits and good appetite; they will tell you by taking SIMMONS LIVER REGULATOR.

The Cheapest, Purest and Best Family Medicine in the World!

For DYSPEPSIA, CONSTIPATION, Jaundice, Bilious attacks, SICK HEADACHE, Colic, Depression of Spirits, SOUR STOMACH, Heart Burn! &c., &c.

This universal Southern Remedy is warranted not to contain a single particle of MERCURY, or any injurious mineral substance, but is

PURELY VEGETABLE,

containing those Southern Roots and Herbs, which an all wise Providence has placed in countries where Liver Diseases most prevail. It will cure all Diseases caused by Derangement of the Liver and Bowels.

THE SYMPTOMS of Liver Complaint are a bitter or bad taste in the mouth; Pain in the Back, Sides or Joints, often mistaken for Rheumatism; Sour Stomach; Loss of Appetite; Bowels alternately costive and lax; Headache; Loss of memory, with a painful sensation of having failed to do something which ought to have been done; Debility, Low Spirits, a thick yellow appearance of the Skin and Eyes a dry Cough often mistaken for Consumption

Sometimes many of these symptoms attend the disease, at others very few; but the LIVER, the largest organ in the body, is generally the seat of the disease, and if not regulated in time, great suffering, wretchedness and DEATH will ensue.

I can recommend as an efficacious remedy for diseases of the Liver, Heartburn and Dyspepsia, Simmons' Liver Regulator. LEWIS G. WENDER, 1625 Master Street, ASSISTANT POST MASTER, PHILADELPHIA.

"We have tested its virtues personally, and know that for Dyspepsia, Biliousness and Throbbing Headache, it is the best medicine the world ever saw. We have tried forty other remedies before Simmons' Liver Regulator, but none of them gave us more than temporary relief; but the Regulator not only relieved, but cured us."—Ed. FANCY SUNDRIES.—Fixtures for decorating Pottery, Gesso, Saltets, &c., &c., for sale by E. V. Higgins.

Startling Startling!

Another Serious Outbreak!

ELLIOTT & RATHELL have just returned from the city with one of the largest stocks of Boots and Shoes for Men and Boys, as well as a heavy stock of all the latest styles of Ladies, Misses and Children's wear that has ever been on exhibition in this market. Prices that have heretofore ruled high, is now but a thing of the past. Present prices, such as are now introduced by us will not only astonish those who buy goods, but even stout-built merchants who are engaged in the business. We have not made much noise through the papers about our stock, deeming it unnecessary, and we do not wish to say much now, only when we have bought goods down 50 per cent we want the public to know it and reap the benefit thereof.

Behold the Prices and save 25 to 50 per cent. for the same identical goods bought elsewhere. We wish the people to know that we mean business. We are selling

Ladies' Gaiters, (buttoned), for $1.75.
Men's Fine Stitched, hand made, Gaiters $5.
Men's Fine Stitched hand made, Boots, $7.50.

And Misses' and Children's wear from 60 cents upwards.

All of the above work guaranteed as represented. Call and see us. Men's heavy wear at astonishing prices. To see, is to be convinced. A $5 Boot for $4, and home made Pegged work for $5. The Old Man still attended to. Repairing in the neatest manner.

P. S.—Leather of all kinds for sale; also blacking for Ladies' wear.

Dress Making.

MRS. M. E. BRUFF wishes to announce to the Ladies of Easton and elsewhere, that she has just returned from the cities with the latest styles of dressmaking for ladies, misses and children. Her long and well known experience in the business will enable her to give entire satisfaction. Thankful to those who have sustained her in the past, she respectfully solicits a continuance of the public patronage. Cutting, fitting, plaiting, pinking and machine stitching done on the shortest notice. She can be found at old place of business on Dover street, near Washington street. octl5 1y

APPLETON'S
American Cyclopædia.
NLW REVISED EDITION.
Entirely Rewritten by the Ablest Writers on Every Subject.
Printed from New Type, and Illustrated with several thousand Engravings and Maps.

The work originally published under the title of the New American Cyclopædia was completed in 1863, since which time the whole circulation which it has attained in parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and issue a new edition entitled

The American Cyclopædia.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and convenience and refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volumes of the old work appeared has happily been ended, and a new course of commercial and industrial activity has been commenced. Large accessions to our

Geographical Knowledge

have been made to the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, who have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are only preserved only in the newspapers or in the transient publications of the day, but which ought now to take their places in

Permanent and Authentic History.

In preparing the present edition for the press it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of

Political and Historical Events.

The work was begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been

Printed on New Type,

forming in fact, a new Cyclopædia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge

The Illustrations,

which are introduced for the first time in the present edition, have been added not for the sake of pictorial effect, but to give lucidity and force to the explanations in the text. They embrace all branches of science, and of natural history, and depict the most famous and remarkable features of the scenery, architecture, and art, as well as the various processes of mechanic and manufacturers. Although intended for instruction rather than embellishment, no pains have been spared to insure their

Artistic Excellence.

The cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high character.

The American Cyclopædia is Now Complete,

in sixteen large octavo volumes, each volume containing over 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous Colored Lithographic Maps, the whole costing the publisher a sum exceeding

Five Hundred Thousand Dollars,

exclusive of paper, printing, and binding.

one that will supersede all others, is now offered to the public at a very moderate price less than one cent a page!

Just think!

A Saving of Ten Cents per Day,

the price of a cigar, or many other expenditures for luxuries or frivolities of a like amount, would pay for a complete set of the Cyclopædia by a bi-monthly subscription. Thus there will be something substantial saved, and a storehouse of knowledge, indeed

No Quinine!

Dr. Berg's German Ague Pills!

Are strictly Vegetable, being entirely free from Quinine Mercury and all other deleterious substances. They have been tested for years in private practice, and have never been known to fail to cure Fever and Ague in its worst stages. Dyspepsia, Indigestion, Headache, Foul Stomach, Bad Taste in the Mouth, Neuralgia, Liver Complaint, Nervous Debility and all diseases arising from a change of climate and impurity of the blood, greatly benefitted by their use. All I ask is a trial of these valuable Pills, and they will convince the most skeptical of their merits. Ask your Druggist for them and if he has them not, inclose 50 cents by mail to us, and they will be sent free of charge, by the next mail, with full directions for use.
