I have been using John Lucas & Co.'s Celebrated Enameled Ready-Mixed Paint, very extensively for the last two years and have tested it very thoroughly, and after using from eight hundred to one thousand gallons in 1879 alone, I have no hesitation in pronouncing it the best paint in the market. The following qualities make it superior to any I have ever used:

1st. It has no water in it, and can therefore be used in the *coldest* as well as the warmest weather.

2d. *Two* coats of this paint will give as much satisfaction as most other paints with three coats.

3d. One of its most desirable qualities is its *uniform thickness;* it is not so thin in warm weather as to be fit only for priming, nor so thick in cold weather as to not spread easily and evenly.

I have the exclusive sale of it in this county.

I have obtained the signatures of the following persons upon whose houses I have used this paint during the years 1877-78-79 (all of these houses were new and most of them finished with only two coats) and they recommend it as entirely satisfactory in *solidity, brightness and durability.*
